EFFECT OF LA GRIPPE.

Partially Deranged John Gilmore, of South Scranton.

John Gilmore, of South Scranton running about the streets of that section yesterday, caused much excitement. An investigation of his peculiar actions showed that he was a victim of la grippe, a malady that each year affects its victims differently. The past few days Gilmore has been confined to his home with the allment and has been under the care of a physi-

Yesterday his mind became deranged and he leaped from his bed. He dressed hurriedly and scantily, getting away from his home before he was noticed. Friends found him and he was taken home. A careful watch has been exercised over him since.

Dr. R. J. Ritz, in speaking to a Tribune reporter on the grippe subject, stated that the effects of the disease changes every year. Last year people troubled with it, have suffered since with diseases of the heart. This season the persons attacked suffer with a muttering delirium and imagine most gruesome happenings are taking place.

FUNERAL OF MRS. S. B. PRICE. Attended by a Large Number of Her Friends.

The funeral of Mrs. Samuel B. MASS MEETING IN INTEREST OF PROVIDENCE PAVE.

New and Determined Effort Will Be Made to Get a Pave at the Earliest Possible Moment-Petition Al-Receive, It Is Claimed, the Signatures of a Big Majority of the Property Holders-Some Expressions by Leading North End Men.

Resolved, That Providence road and Sorth Main avenue to the city line ought o be paved. That Providence road and North Main avenue to the city line can be

Resolved, That Providence road and North Main avenue to the city line shall

These resolutions were unanimously adopted at a mass meeting of Providence property holders in Company H armory last night. They bespeak the sentiment which prevailed at the meeting and which permeates the whole North End.

The meeting was attended by the

very best men of that portion of the city and was a very business-like affair. It was called, primarily, to decide whether or not another and determined effort should be immediately nade to get a pave and to select the kind of pave to be laid, if it was decided to give the project a fresh start. C. H. Von Storch, chairman and A. A. Vosburg, secretary, briefly and formally stated the purpose of the meeting and that was all there was to it. No one even thought of wasting time

on a motion to proceed with the pav-SIGNING THE PETITION.

A petition to be presented to councils isking for the pave and indicating the choice of the petitioners as to the kind of pave wanted was on the chairman's desk and while efforts were being made to talk the few kickers into line, the property holders present, whose places are on the line of the proposed improvement, were going up on their turn and signing for brick pavement.

A letter from Colonel George Sanderson regretting his inability to be present and expressing his earnest sympathy with the movement, evoked from Major Fish some caustic comments on the absence from the meeting of the North End councilmen, Mr. Finn, of the Second ward, being the

only one present, The call for the meeting, Major Fish said, was general to the taxpayers of the North End. Other questions beside that of paving were to be discussed and the councilmen should be present that they and their constituents might exchange ideas. The people of the North End, he continued, propose to keep an eye on the city officers; they will be encouraged in every laudable effort, but no delinquencies will be tol-

erated. ABOUT WIDTH OF STREET.

There was some discussion on the question of widening and narrowing different portions of the street, ex-Postmaster Frank M. Vandling making a lengthy speech against any variation from the present lines, except to save shade trees. He was particularly opposed to narrowing "the square." When the corners are paved he said it will be a big boom to property thereabouts. Real estate on and adjacent to the square sold last year for 50 per cent, of what was asked for it five years ago. The condition of the streets

was to blame for this, he said. Touching upon the opposition to the pave evinced by those who contend that a sewer should first be constructed, Mr. Vandling called attention to the fact that no sewer can be built under the recent ruling of court unless the city contributes two-thirds of the total cost, and the city a present can not contribute a cent, owing to the fact that it already taxes the full limit of thirtgen mills for current expenses, The sewer being an impossibility, it is useless, he argued, to think of it in connection with the pave. The pave can be secured and will be a great improvement. The course of wisdom would be to make the best of it and the con-

struction of the pave would be doing John Hawks, speaking for himself and some of his Bull's Head neighbors, said they were opposed to surface improvements until the sewer was built Mr. Finn, after reminding Mr. Hawks that the sewer was an impossibility unless the property holders would pay the whole expense, asked Mr. Hawks if he and those he represented would be willing to pay for the whole cost dressed to Mrs. B. E. Watson or Miss of the sewer. Mr. Hawks did not think the people he represented would be willing to waive the benefit given them by the law. "The fact of the matter,"

said Mr. Finn, "is that you don't want either the pave or the sewer." MR. JORDAN'S STATEMENT. J. J. Jordan said he would be willing

to pay the full cost of a sewer in front of his place if by that means he could and a number of others signified their willingness to do likewise. Mr. Vandling said this was all use

less, as they could not build the sewer even if they would be willing to pay the full cost. The law does not permit it. He advised dropping the sewer and getting down to the simple question of

John Mitchell, of Rockwell place, announged at this juncture that the people down his way had signed for a pave when the petition was previously in circulation, but now they are determined not to sign the new petition until a sewer is assured. His remarks occasioned no comment.

A committee consisting of W. B. Christmas, George Benedict and J. J. Jordan was appointed to circulate the petition. It was also arranged that Mulley's store was to be the repository of the petition when the committee did or have it in hand.

There is no question, the pave boomers say, but that a big majority of property holders will sign the petition and that it will be unanimous for brick,

which were found to be missing.
Police Sergeant Ridgway was first summoned and then Detective Moir, but they could not account for the man-ner in which the valuables had been removed from the safe. The boy on duty at the desk when the clergyman deposited his watch and money was relieved by another attache before the supposed victim of the theft entered the place. Boy No. 1 was brought from his home and found the clergyman's envelope where he had placed it in the safe among some private papers be-

onging to the proprietor. The boy was new to the duties of the position and had placed the envelope in compartment of the safe which is ever used by patrons.

ASPHALT PAVE REPAIR FIGURES

BARBER COMPANY WAS CLEAR-LY THE LOWEST BIDDER.

Pennsylvania Company Was Second and the Alcatraz Company, Which Is Behind the Present Injunction Proceedings, Was Third, or \$58,-858.23 Higher in the Ten Years. Only 165,445 Square Yards to Be Repaired Next Year, as Against 218,049 Yards in 1903.

In view of the preliminary injunction granted by court yesterday-and reported in another column-restraining further action in executing the con tract between the city and the Barber Asphalt Paving company, whereby the latter is to keep the city's asphalt pavements in repair for ten years, figures recently compiled in the office of the city engineer may be perused with

much interest. According to these figures the Barber bid was the lowest and the next in order were the bids of the Pennsylvania Asphalt Paving company, the Alcatraz Paving company (which is back of the present legal proceedings) and George McDonald. The compilation of figures shows that 165,345 square yards are to be kept in repair in 1899; 171,507 yards in 1900; 188,899 yards in 1901; 201,245 yards in 1902, and 218,049 yards in 1903.

SOME FIGURES. The respective expense that would be incurred in each of these years is shown in the following table:

McDonald, Alcatraz. at the desk for his watch and money, \$ 74,801 00 \$ 19,014 56 25,726 05 19,723 30 28,334 85 21,713 38 \$18,700 00 18,700 00 18,700 00 30,186 75 82,707 35 23,143-18 18,700 00 8141,756 60 \$108,680 0G \$53,500 00 \$87,660 0

The foregoing totals show the cosfor the first five years. The total for ten years would be as follows: McDonald, Aleatraz, Penna, \$108,680 06 125,078 17 \$3,500.00 87,600 0 \$305,293 35 \$234,658 23 \$187,600 00 \$175,280 0

Further simple figuring indicates that in ten years the Barber proposal is \$11,800 less than the Pennsylvania prosal, \$58.858.23 less than the Alcatraz and \$130,093,35 less than McDonald. DETAILS OF PROPOSALS.

Barter-Per year, \$17,550; new curb, per lineal fact, 10, 25, 53, 90 cents; complete pave, \$2.50 per square yard.
