\$400 FOR OPTION.

All the talk about continuing some sort of a railroad over the mountain after the gravity closes may be bluff but the fact remains that nearly \$409 has been spent by Land Agent Lane for thirty day options on several properties. The amount paid each holder is \$29, arnd one old lady who received such a sum said. "The Lord never closes one door without opening another. I have enough money to last me all winter." An option on the entire Patterson farm has been secured. It has been stipulated by a number of property holders that the land is to be used for railroad purposes only.
