COMPANIES COME OUT ABOUT EVEN

NO MONEY MADE IN FIRE INSURANCE BUSINESS HERE. Companies Pay Out as Much Money to Settle Losses and Cover Agency Expenses as They Receive in Premiums—Some of the Hard Blows the Insurance Companies Have Received Hereabouts During Recent Years—Losses from Last Thursday's Fires Here and in Dunmore.

"Not a dollar has been taken out of this city by the fire insurance companies in eleven years," declared a well known insurance man yesterday.

"Where it is permissible for me to give you the figures we have at hand in the office of the Underwriters' association," he went on to say, "I could satisfy you beyond all doubt of the accuracy of my statement."

"In round numbers," he said, "the premiums collected in this city annually amount to about \$2,500. According to the report of the chief of the fire department the insurance losses in this city, alone, during 1898, were \$135,000. Add to this the losses throughout the country—which, of course, figures in the business of the city—and take from the balance the expenses of conducting the agencies and you can see for yourself that there is nothing left for the companies."
