DEMOCRATIC CONVENTION.

Kilpatrick Heads the City Ticket. Wheeler and Connor to Run Again.

The Democrats conducted a very smooth convention at the Academy of Music last night, James Boylan was elected chairman, P. F. Moffitt, W. J. Glennon and P. H. Murray, secretaries. There were no contested seats and the convention proceeded at once to the nomination of a candidate for mayor, Henry Brennan said:

Mr. Chairman and gentlemen of the convention. As I understand the political situation in this city, it will require an exceptionally strong man to win. I have in mind such a man. A man of integrity, honesty, brains and energy, who will be a credit to the city as mayor. He is a worker, acquainted with municipal laws, an ex-member of council, who was the peer of any of his councilmanic associates. I ask you. gentlemen, to look him over and weigh him in your minds. The more you do this the stronger he must appear. I nominate J. W. Küpstrick for the office of mayor.

There was loud applause, after which the nomination was made by acclam-

# WOMAN'S SENTIMENTS.

#### They Are Little Understood by Men, but They Cause Her Untold Happiness or Misery.

The girl of today is the mother of future generations. Humanity is absolutely depend. ent for its continuance and preservation on the knowledge and stamina and health of women. Woman's lot and her relations to the world are such as to deserve a great deal more attention and consideration from science

than she has yet received. The American race of women in particular has questions to settle that are much more important than the extention of the saffrage to vomen or the enactment of a national divorce

Why is it that there are so many feeble and sickly women all over the land? Why is it that not an average of over one child is born to American women? Why is it that hundreds of thousands of American men will not marry

Have you ever thought of these things? It is because disease is striking at the very root of the American race II is because most diseases can race their cause to one source: viz., troubl of the kidneys and adjacent or-

The kidneys are the great organs of the body, but this is little realized or understood, A healthy, happy woman with good complexion, good appetite and hopeful spirits never has diseased kidneys. The same is true of men.
But kidney disease is so deceleful, so treach-

crous, so strange in its approaches that it often Bright's disease, like consumption, was formerly considered incurable. Now it is known that it can positively be cured, and it is also known that there is but one absolute cure for diseases of the kidneys add the lemale organs, and

that is Warner's Safe Cure.

This great discovery of modern science has been before the public for more than twenty years. It is acknowledged by the medical profession and scientists generally as the only cure—which has brought sufferers from Bright's disease back to health or checked it in its first stages. It is the only great remedy of the present day, which sufferers from kidney complaint, men, women or children, can take with positive certainty that they will be relieved.

The Republicans will new add another candidate to their ticket for school controller, this having been left in the hands of a committee to do, after the tickets as now made up will be on strict party lines, and as the vote of tleipated that the coming election will be both interesting and closely contested, and this will be especially so for school controllers and councilmen The Eric and Wyoming railroad have

As a nerve tonic Ripans Tabules have no equal. They invigorate the mind and strengthen the nerves, and more, they keep the stomach in good condition. A student of the University of Pennsylvania recently said: Just prior to the closing examinations I was compelled to work exceedingly hard, as the course is an exceptional one. I was up until two and three o'clock in the morning studying. This was something I was not used to, and as a result my system was upset. It became exceedingly difficult for me to concentrate my mind upon the work, and as for remem bering why, my head at times seemed a vacuum. I consulted a physician, but his prescription failed to bring relief. Then I was advised to try Ripans Tabules and did so, and to my great delight was benefited immediately. After only a second dose I was restored to my wonted condition of good health and vigor of mind, and passed my examinations successfully. I even graduated with honors. I gladly add my testimonial to that of thousands of others who assert that for strengthening the nerves and toning the system Ripans Tabules HAVE NO PEER."
