### LARGE BUSINESS IN STOCK MARKET

SPECULATION IN PRODUCTS IS ALSO GAINING.

In Some Branches Consumption Is Running Beyond the Producing Capacity-The Volume of Traffic Exceeds All Expectations-Progress in Silk Manufacture - Conditions Favor Continuance of Extraordinary Foreign Trade.

New York, Jan. 20.-R. G. Dun and Co.'s weekly review of trade will say

A new year rarely opens brilliantly. Too many traders have to wait for the demand which in the winter comes slowly. But the industries resist fairly well the tendency to unlimited expansion which some have to meet. Speculation in products is gaining, but lit- form some slight idea of the work that tle, while in stocks an enormous volume is done by these talented inventors of of business results continually in higher prices. The volume of payments through clearing houses is extraordinary, 42.7 per cent. larger than last year, 96.9 per cent, larger than 1897 and 51.1 per cent. larger than 1892, even the Music. Mr. Greene carries a carload transactions outside of New York of special scenery that each play may showing a gain over 1892 of 44.6 per be given in a correct manner. The list cent. Speculation at New York there- of plays comprises "Held By the fore cannot be the main cause of gain. Difficulties between holders of material success, "A Plain Old Irishman," writand manufacture continue to hinder in | ten especially for Mr. Greene, This some industries and it may in some play is an entirely new departure from way prove seriously embarrassing, but the beaten track of usual Irish plays. the activity on the whole is unsurpass. It has for its central character a type ed hitherto, and the volume of traffic ts beyond all expectations.

In some branches consumption is running beyond the producing capacity, but in others it is hindered by doubts about the future supplies and prices of materials.

The woolen manufacturer is still waiting with only a moderate demand for goods as yet. The production is large and considerably larger than in which are equally good, will be seen recent years, but does not nearly aproach the capacity of the mills, Sales of wool for the past three weeks at three chief eastern markets have been 16,495,800 pounds against 223,322,970 last year, and prices of domestic fleece are ower with present demands running largely to quarter and half bloods and has L. B. Q. on each tablet. Australian cross bred. But there is not enough change in material or in demand for goods to encourage heavy buying by manufacturers as yet. The cotton manufacturer has a large demand for goods, but raw cotton has so rapidly advanced that possible buyers apprehend a fall and there is heaitation in the purchases of staples. With receipts of cotton far ahead of

the largest ever known, many of the works are withdrawing all quotations e naming prohibitory prices in order to check orders which they cannot fill for months to come and do not want to accept at current prices. The number of such works is rapidly increasing as the heavy demand for materials covers many months' capacity. Bessemer pig is a shade higher at \$10.30 with sales of 25,000 tons at Pittsburg and there is something like a famine in grey forge, with sales at \$9.75, although one sale at \$9.95 in the valley is reported. While finished products are in very great demand, especially for car building and ship works at the west the week shows no advance in prices excepting 50 cents per ton in steel rails at the cast.

These conditions favor continuance of the extraordinary foreign trade which resulted in the greatest balance in faver of this country ever known. January reports thus far indicate a similar excess of exports over imports, and while wheat exports have irgreased every month since last August they have been in three weeks 17,078,077 bushels, flour included from both coasts against 111,899,952 bushels last year. Corn exports have been quite up to last year's unprecedented record, amounting to 9,509,830 bushels against 9,270,189 for three weeks of January last year. Although prices have de clined about 14 cent, the contest be tween speculators in wheat at the west and at the east has held prices fairly steady with an advance of only an eighth for the week. Cotton fell to 6 cents, but afterwards rose to 6.12, without satisfactory reason in leading, but because of apprehension that supplies of good quality might fall short.

Failures for the week have been 243 in the United States against 374 last year, and 32 in Canada against 53 last

## IN THE PLAY HOUSES.

"Cyrano de Bergerac." Scranton theater-goers will see in Cyrano de Bergerac, the most striking and remarkable production of the season, and the verison of the play that will be presented at the Lyceum theater this afternoon and evening, has been pronounced by critics to be the superior of any verison thus far presented. The Cyrano that comes to the Lyceum theater is that of Henry Lee, one of the most successful and popular character actors of the American stage. Mr. Lee is himself almost as interesting a gentleman as Cyrano, though he has killed less people and has no abnormal nose off the stage. He has traveled and acted all over the world. Like all that is truly great on the stage, Cyrano de Bergerac comes from real life. The Cyrano of history lived in France in the sixteen hundreds, and owes his fame to his nose, his bravery and his all-around cleverness. His nose was so horribly large and misshapen that to see it was to laugh; to laugh was to be challenged to a duel by the proprietor of the nose. and to duel with this was to be killed Duelling was so easy to him that he composed poetry while tighting a due! one occasion. Great as he was in

tion, and the scenery, all especially prepared, is said to be as fine as any-

Atlas Will Wrestle.

At the Galety theater tonight, Atlas, who has been seen several times in this city will wrestle Morad Ali, "The Terrible Turk," who is with the Al Reeves' company. The men will wrestle for fifteen minutes, Atlas coming on from New York for the special purpose of meeting the Turk. Morad Ali and George Constantine, of Binghamton, N. Y., wrestled last night and Constantine was thrown in a trifle over five minutes.

#### Hanlon's "Superba.

It is hard to do justice to such an excellent entertainment as Hanlon's "Superta," but the patronage endorses all the good things that could be said about it. It is full of novelty and fresh invention to its admirers. Few people who witness such a production is "Superba" is, have much of an idea of the amount of work involved in staging such a piece and when it is stated that between sixty and sevents thousand square feet of scenery and over 4 miles of rope are used, one can pantomine. It will be seen at the Lyeum Monday and Tuesday evenings.

Joseph Green Company. All next week the Joseph Greene company will be at the Academy of Enemy," William Gillette's greatest of Irishman never before put upon the stage, one whose rugged honesty, broad humanity and masterful grasp of affairs and men tifts him to a place of affluence and power in the land of his adoption. Roland Reed's Comedy, "Humbug" produced by special arrangements with Mr. Reed and presented for the first time at popular prices. These, with several others, during Mr. Greene's engagement next week.

To Cure a Cold in One Day. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it falls to cure, 25c. The genuine

## THE MARKETS.

Wall Street Review.

New York, Jan. 20 .- A rush of belated investors today brought the total trans-actions to over a million and a quarter shares, the largest of the present move-With receipts of cotton far ahead of last year's from the greatest crop then over raised, there is no apprehension that good qualities may fail short before the year closes. Cotton remains in the fields yet unpicked, owing to the bad weather and it is detoriorating in quality. The silk manufacturing, notwithstanding many threats of interference and disputes about duties, seems to be making steady progress.

IN IRON AND STEEL.

The iron and steel manufacturer leads all others in the volume of new business. While production is much the iargest ever known, many of the
