## IN THE PLAY HOUSES.

The New Superba.

Hanlon's "Superba," revised, polished and brought right up to date, was seen at the Lyceum last night. As producers of spectacular-pantomimic plays, Hanlon has no rival in this country. His productions are always bright, novel and entertaining. This statement applies with unusual force to "Superba" as produced last night.

A wilderness of scenery and mechanical effects are used in the production, and many of the latter were seen for the first time in this city. The second and third acts close with tableaux of great beauty. During the progress of the spectacle, some very entertaining specialties are introduced. The exhibition given by Prof. Shedman's trained dogs and the grotesque bicycle riders were some of the particularly notable features of the vaudeville portion of three wards will meet this evening to the show, "Superba" will be repeated tonight.

## Greene in Repertoire.

A very capable company with Joseph Greene at its head opened a week's engagement at the Academy of Music last night, at popular prices. opening bill was Gilette's famous "Held by the Enemy," and the very clever unner in which it was produced bespeaks a week of rare entertainment for Academy patrons. Greene is unquestionably one of the

most artistic stars heading a popularprice company. Miss Bessie Beardsley who last night essayed the ingenue part of "Susan McCreery" and Miss Georgia Earle, who is Mr. Greene's leading lady. re both capable artists, and in Burt McCann, Mark Kent, Fred Malcome and James Malaidy, Mr. Greene has a very capable male support.

The company will give two perform ances daily. This afternoon's bill will Roland Reed's "Humbug" and tonight will be presented "An Honest Old Irishman," a play expressly written for

Wall Street Review.

New York, Jan. 23 .- Speculation in tocks today passed previous high record marks both in volume and in price attained. Transactions in stocks figured for 1,620,000 shares and the sales of bonds reached \$9.046,000. Trading was furious at the opening and the highest prices were reached in most stocks on the initial bulge with advances of 5 to 10 points in some cases. Open- High- Low- Clos-
