Don't give them ten or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the

children the more health you distri-bute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about 4 as much. All grocers sell it. 15c, and 25c.

I consulted our family physician, but the medicine he prescribed for me only gave tem-porary relief. Finally I was induced to try Ripans Tabules. It was not long before I felt greatly relieved, and now, thank God. I have not lost a day in the last year. I can fully recommend
