EXCITEMENT ON MAIN AVENUE. At 4 o'clock yesterday afternoon one of the guide wires connected with the main cable wire of the Scranton Railway company's connections at the corner of Main avenue and Jackson street became disconnected and fell across the cable. It was unnoticed by the motorman of the North Main avenue car that passed under it, and when the trolley pole struck it, entangling the wire with the cable, flashes of electricity were

flying in every direction. One foolhardy person, whose name could not be learned, caught hold of the live wire with his bare hand and received a tremendous shock that nearly knocked him off his feet. Traffic was delayed for a few minutes, and Motorman Perry Clark threw the wire off the cable, thus cutting off the current of electricity. Another employe of the company climbed upon one of the cars and snapped the wire with his pliers. Considerable excitement was caused by the occurrence, but no one was in-

Patrolman John Thomas was on the scene and kept the crowd away from the wire until it was cut down. The repair wagon was sent for, and the wires adjusted properly. The excitement occurred just at a time when many school children were on their way home and consequently attracted much attention.

### NO WOMAN IS EXEMPT.

Regularity is a matter of importance In every woman's life. Much pain is, however, endured in the belief that it is necessary and not slarming, when in treth it is all wrong and indicates derangement that may cause serious trouble

Excessive monthly pain itself will unsettle the nerves and make women old before their time.

The foundation of woman's health is a perfectly normal and regular per-formance of nature's function. The statement we print from Miss GER-TRUDE SIKES, of Eldred, Pa., is echoed in every city, town and hamlet in this country. Read what she says:

"DEAR MRS. PINKHAM:-I feel like a new person since following your advice, and think it is my duty to let the public know the good your remedies have done me. My troubles were painful menstruation and leucorrhœa. I was nervous and had spells of being confused. Before using your remedies I never had any faith in patent medicines. I now wish to say that I never had anything do me so much good for painful menstruation as Lydia E. Pinkham's Vegetable Compound; also would say that your Sanstive Wash has cured me of leucorrhos. I hope these few words may help suffering women."

The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand siling women during a single year.

All suffering women are invited to write freely to Mrs. Pinkham, at Lynn, Mass., for advice about their health.
