AWFUL SLAUGHTER OF THE FILIPINOS

ed by the unexpected killing of a Filipino by an American guard and that the result was to bring on an action at the weakest part of the Filipmo lines. If this opinion is well founded, it would seem to be possible that the buyy view is correct and that the Filltimes have now begun action at their strongest point, namely, between Mama and Malolos, the insurgent capital, 15 miles distant from Manila.

When the news came this morning that another despatch had been recelved from General Otls it was awaited with the greatest interest. It turned out, however, to be the usual ing the line, after repeated warnings, periodical sickness and casuality report. The interesting part about it is the disclosure of the death rate among the American troops from small pox of

STREET NEUTRALITY.

In diplomatic quarters the view prevails that all foreign governments will maintain strict neutrality in case of an insurrection in the Philippines, but that no informal proclamations of neutrafity will be issued, as these would be an indirect recognition of the Fillpinos as belligerents.

STORY OF THE BATTLE.

Stirring Scenes at Manila When the Fighting Began.

Manila, Feb. 6.-7.15 p. m.-Owing to the area embraced in the scene of Sunday's engagement, a semi-circle of fully 17 miles, ustalls regarding individual fighting have been extremely difficult to obtain. So far as can be gathered the brush commenced at 8.45 on Saturday evening, by the firing of a Nebraska sentry at Santa Mesa upon Filipinon who were deliberately crosswith the evident purpose of drawing

our tire. The first shot from the American sentry was evidently accepted as a one man per day for the past "tine prearranged signal, for it was followed almost immediately by a terrific fusilade along the entire Filipino line on the north side of the Pasig river.

The American outposts returned the fire, with such vigor that the Filipinos were checked until the arrival of reinforcements.

All the troops in the vicinity were reinforcements came up.

At 10 o'clock the fighting was resumed, the American firing line consists iver of the Third artillery, the Kansas and Montana regiments, the Minnesota regiment, the Pennsylvanians, the hose by such unwise interference, and Nebraskans, the Utah # ttery, the Ida-Admiral Dewey's judgment. They brought artillery into action at Galingetan, at 19.30, but only one gun annoyed the Americans to any appreclable extent, a Howitzer on the beyond Santa Mesa. The Third artillery silenced the Galingatan battery by fiving two guns simultaneously, which was followed immediately by volleys from the infantry.

At about midnight there was a luft the firing lasting until 3.45 a. m., when the whole Filipine line reopened lire. The Americans poured a terrific are into the darkness for twenty minittes and then there was another full run from Manila to Boilo is 250 miles, until daylight, when the Americans

Some 2,500 women, children and non-combatants were allowed to enter the American lines after promising to go

The Fourteenth regulars were in a particularly tight place near Singalon and Colonel Duboce was compelled to rush past them with the reserve in order to prevent the regulars from being cut off. In the last line twelve men were killed before the rebels retired. Both sides cheered frequently during the engagement. The American "hurrahs" were almost invariably met by the decisive "vivas." Among the natives the Ygorotes were especially noticeable for their bravery, about 700 f these naked savages facing actillary

THE MARKETS.

Wall Street Review.

New York, Feb. 6.-Stock prices were stremely variable today but ended with ally fractional net changes, the majority of which were upward. Many conflicting reports reached the street as to probabilities of the confirmation or relection of the peace treaty and these were instrumental in swaying values. The first effect of the uprising at Manila was disturbing. Stocks opened below London parity and there were soon material excitines in a number of cases. Traders beight on the decline and prices improved. Although dealings were much contracted compared with recent averages piles rose above Saturday's closing. Prices again fell off presently, stop loss orders were reached in some cases, and commission houses sold freely. Toward mid-day the market again worked pward mid-day the market again worked pward with minor periods of depression but gradually top figures were generally reached. The impressions prevailed in some quarters that the outburst of the Philippine insurgents assured the treaty's faithfeation and on the theory that the settlement of the uncertainty would be beneficial there was buying of stocks. On the other hand many desired to reduce their commitments over night as a precautionary measure and these contending interests gave the market its appearance of great irregularity. The fever-ishness which prevailed in the early dealings in a measure gracually disappeared as the day were on and the middle and rejection of the peace treaty and these a measure graqually disappeared day were on and the middle and s the day wore on and the middle and we prired stocks sympathized in the admeling tendency of gift edge stocks. In the final dealings there were slight recessions from the best prices. Total des were 726,100 stares. The bond marter showed marked heaviness in the crip transactions but later improved in 1018, closing irregular. Total sales were 1080,000.
