The best way to insure good city government for the next three years is to lay aside all past factional differences and elect the entire Republican ticket. -----

### For City Treasurer.

It has long been the boast of this city that the accounts of its ircusury have been accurately kept, that honesty and fidelity have characterized their supervision and that no breath of scandal hus ever been aimed at the city treasurer's other.

The Republican party has placed in nominition for this office, in the person of Thomas B. Brooks, a young man who not only is known to be seruputonsty honest and straightforward in all his business dealings, but who has had the benefit of extended experience in the detailed workings of the city treasurership. If elected-us, by the way, he is going to be-he will be muster of the situation from the moment of his induction into office and will sive an administration of the trust such as will sustain the most vigilant sociatiny. on business principles the nomination of Mr. Brooks was a fit one to be made and it can be ratified at the polls with out the elightest misgiving on the part of any citizon.

Moreover, Mr. Sinoks, both to somelly and politically, merits manalified Republican indersement. His party record is clean. His personal character is above repreach.
