SOCIAL EVENTS.

Mr. and Mrs. Edward W. Osterhout, of Prescott avenue and Grove street, entertained a number of young people at their home. Monday afternoon, the occasion being the ninth birthday of their son, Jay. The young folks passed the afternon playing games, intermixed with vocal and instrumental music. The latter was furnished by Ethel Pinkney and Grace Beattle. Those composing the party were: Grace Mitchell, Sarah Tressler, Grace Beattie, Ruth Oster-hout, Gertrude DeWilde, and Margery Craig, of Scranton; Beth Osterhout, Ethel Pinkney, Floyd Lisk, Willie Loveland, Howard Loveland, Maynard Tressler, Willie Cullen, Helmond Pitach, Sam Sheppard, Jay and Ralph Osterhout.

entertained a number of her young friends at her home one evening the latter part of last week. Among the evening's amusements was the cake walk, which was won by Miss Helen Murphy and Eugene Cusick. The cake was handsomely decorated with designs which represented the American flag. At midnight refreshments were served by Miss McGrail. Those present were: Misses Helen Murphy, B. Monahan, Nellie Devers, Annie Me-Cann, Nellie Brogan, Maggie Cleary, Neilie Golden, Fannie McHale, Eva McGowan, Messra, Eugene Cusick, John Lynett, John Byrne, William Duely, Frank Garvey, Drew Crane, James Cummings, Thomas Needham and John

PECULIAR POISONS. GENERATED IN THE HUMAN BODY

The Result of Imperfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of

certain decay and death. In the human body these germs of

death (called by scientists Ptomaines) are usually the result of imperfect digestion of food; the result of indigestion or dyspepsia. The stomach, from abuse, weakens,

does not promptly and thoroughly digest the food. The result is a heavy, sodden mass, which ferments (the first process of decay) poisoning the blood, making it thin, weak and lacking in red corpuscles: poisoning the brain, causing headaches, pain in the eyes. Bad digestion weakens the heart, causing palpitation and finally bring-

ing on disease of this very important organ. Poor digestion polsons the kidneys, causing Bright's disease and diabetes. And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and

weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy complexion. The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fall to digest

food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and peptogenic products; the most sensible remedy in all cases of indigestion is to take after each meal one or two of Stuart's Dyspepsia Tablets, because they supply in pleasant, harmless form all the ele ments that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will cure any form of stomach trouble except cancer of the

A Chapter of Crisp Locals Raked from the Debris of the Bizzard.

Rev. Allen J. Morton, the former pas tor of the Welsh Baptist church in this city, died in Kingston yesterday, after an illness of two weeks. He was popuuiterances, which, while really beneath the notice of any one, yet may be have commanded a much higher mark have commanded a much higher mark in his chosen calling, but was contented among the small parishes of his countrymen. The funeral will occur tomorrow afternoon.

Ralph Wildoner, a son of W. W. Wiloner, of Oregon, died yesterday morning at the age of 14 years. He had an attack of the grip a week ago, which terminated fatally. The funeral will occur tomorrow morning at 11 o'clock and the remains taken to Mauch Chunk on the 12.30 train, at which place the interment will take place.

This is Ash Wednesday and the first day of Lent. The customary services will be observed in the several Episcopal and Catholic churches,

The marriage of Thomas Day and Sarah Burns was quietly solemnized in the William street parochial residence last evening at 6.30 and at the conclusion of the ceremony a supper and other features took place at the home of the bride, where a large company of the associates of the young couple had assembled.

The funeral of the late James Corcoran, of Browntown, will take place this afternoon, and the several societies to which he belonged will attend in a

horrible condition yesterday.

Many thanks to P, Gallagher, the

boss cabman, for the prompt delivery of our letter during the late blizzard. The funeral of the late John McNulty who was the oldest resident in the city, occurred yesterday afternoon and the services at St. John's church, by the Rev. Dixon, were attended by a large number of relatives and friends. The remains of the kind and good old Christian man were tenderly conveyed to the Market street cemetery, where interment was made.

There is a close analogy between the | semed alike inadequate. As soon as effects of the Mauser bullet and the Dr. Hartman announced that it was grip. The Mauser builet makes an apparently insignificant wound. The hole of exit and entrance is very small. The terrible velocity of the bullet produces shock rather than pain,

But the after-effects of such a wound are very serious. The rapid rotary mo-tion of this slim, small Mauser bullet destroys large areas of tissue on every side of its passage. If the victim lives through it at all it will take many

nonths to recover completely. Exactly like this is the history of la grippe. Its onset is sudden, unexpected, but many times seemingly trivial. It produces symptoms something like a cold; a little more aching of the bones and muscles, perhaps, than a cold, but generally it does not produce any great oncern. The whole matter often seems insignificant. But this is right where so many people commit a serious blun-

Even a slight attack of la grippe sows the seed of discord and degenera-tion all through the system. Recovery seems impossible. The streng'h dors not return. The whole system seems deranged. Every function is disturbed. Appetite and digestion demoralized, Creeping rigers, hot flashes, cold sweats and fitful sleep linger to make life almost unbearable.

It is this condition that Dr. Hartman call systemic catarrh. The whole system is saturated with catarrh. This discovery marked an important advance in the history of medical science. The medical profession had long been groping to discover the meaning of This lecture will be sent free by The the stubborn and distressing after- Pe-ru-na Drug Manufacturing Comeffects of la grippe.
