## BEYOND QUESTION **BUSINESS EXPANDS**

A GENUINE AND SUBSTANTIAL ENLARGMENT IS APPARENT.

State of Trade Due to the Unexampled Prosperity of a Growing Population - Unusual Demand for Iron and Steel Causes Advance in Prices - No Fictitious Call Has Caused the Rise in Grain-Cotton and Wool Booming.

New York, Feb. 17,-R. G. Dun & Co,'s weekly review of trade will may

1 worrougt Beyond question business is expanding, and in many branches it is larger notwithstanding speculative combinations, which tend to reduce it. All now, memopolics, or attempted monopolies. stimulate business while they are coming, but tend to stiffe it after they me, and the throng of combinations and trusts which have been formed or proposed have given a temporary, but very questionable impetus, to trade, But beyond the influence of these there is a genuine and substantial enlargeof business, due to the unexampled prosperity of a growing popu-

The week's output of pig hon Feb. t was 237,638 tons, against 243,516 Jan. and 235,528 Dec. t. The average weekly production thus indicated was about 600 loan greater in January than in December, and the unsold stocks were reduced 43,671 tons in January, against 27 148 in December, so that the apparent consumption in manufacture was January, 1.110,079 tons, against 1,698 .-176 in December. The stoppage of several furnaces for necessary tepairs at a time when the demand is most pressing has caused some fear of famine, although quite a number of other furaces have started since Feb. 1, or are about to start. Pig fron has advanced, but the largest consumption ever recorded in any month is, in part, due to the hasty purchases of products about to be controlled or advanced in price by a combination. There are so many of these in the iron and steel industry that the present market does not clearly indicate the magnitude of demand and disappointment in some branches is not improbable. But the rise of \$1 in steel rails with the entire capacity of all works engaged until after July 1 is not unnatural, nor the strongth in plates for which the legitimate demand is beyond all precedent and the same is true of bars, the quantity required for cars, railway and agricultural implement works being enormous. In pipe the association lifted prices a per cent, with a very heavy order from Indiana gas works, as does the expected combination in sheets.

### THE RISE IN GRAIN.

No fictitious demand has caused the rise in grain, for the exports continue so heavy in wheat and corn that the advance of St.c. in wheat is abundantly justified and the rise of %c. in corn seems scarcely enough for the occasion. Atlantic exports have been retarded by the blizzard but have been 2,265,715 bushels, flour included, against 3,142,057 last year, and for the crop year thus far the experts including flour have been 156,787,74e bushels against 143,714,-142 last year. When It is remembered that the exports of corn are almost as large as the largest ever known there is reason for astonishment at the ontinued following demand. It persists in spite of the strong advance in prices here since Sept. 1 is most encouraging.

Nor does the foreign demand for cotton abate, though the price has again been raised 3-16 during the past week. The exports have decreased some but the controlling fact is that a remarkable shrinkage in receipts from plantations appears to indicate a smaller yield than has hitherto been expected. The heavy demand for goods helps to advance prices just now, although no assurance can be given that the declining prices will not presently check that demand.

There is much more inquiry for wool, and the manufacturers have a larger demand for heavy weight goods but they maintain that they cannot pay prices now demanded for wool, and most of the purchases made appear to have been at some concessions. Sales at the 3 chief markets were 6,160,200 pounds which is about the weekly consumption with eastern mills well employed but they were partly on speculative account and in fine and fine medium territory sales are mentioned at 40 cents cleaned and in Ohio at 26 cents and upwards. The minor metals have been running weaker with a reaction in London, although the industries have shown no abatement of demand in this country and the rise in prices here is largely due to increased onsumption. Failures for the week have been 178

in the United States against 295 last year, and 18 in Canada against 35 last

## IN THE PLAY HOUSES.

Next Week at Academy.

Commencing next Monday, Feb. 20, the talented and popular actress, Miss Maude Hillman, will play a weeks' engagement at the Academy of Music at popular prices, opening Monday night with the comedy drama, "Special Delivery," to be followed by a repertoire of plays never before seen at chesp prices and each will be staged with special scenery and electrical effects. carried by the company, of which they have a car load. Miss Hillman's supporting company this season is composed of talented players, among whom are J. Gordon Edwards, Frank Holland, H. Q. Emery, W. A. Dillon, Har-Fay, Helen Frost, Sussette Willy, Emma De Weale and others. Many new and pleasing specialties are introduced at each performance. Matinees will be given daily, commencing Tuesday. 9-ROOM HOUSE, POSSESSION MARCH

#### Metropolitan Burlesquers.

Sheridan and Faust's highly successful extravaganza organization, the "Metropolitan Burlesquers," is the leading attraction at the Gaiety, commencing Monday matinee, Feb. 26, The company is conceded on all sides to be one of the best now traveling. Aside from the fact that the programme is composed in the conventional manner of two burlesques with a variety of olio sandwiched in between them, the show possesses few points of similarity to most of its kind. It might be truthfully called a double company, for its membership includes a band of colored performers, as well as some twenty white burlesquers. The opening act is called "The Reunion of Nations," and serves to introduce the entire company in a pleasing mixture of songs, dances and others diversions, 'Frolles in a Cafe Chantant' is the concluding skit. One of its features is the remarkable acrobatic act of Nelson, Glinserretti and Demonio.

Tuesday night a performance will be given at the Galety beginning at 11 o'clock, at which the election returns

#### Digby Bell's New Play.

The announcement that on Tuesday, Feb. 21, Digby Bell will be seen at the Lyceum theater in a new play by the author of "Little Lord Fauntleroy." "Esmeralda," etc., will prove a source of more than ordinary interest and feasure to his numerous admirers. In Joe Hurst, Gentleman," Mrs. Burnett has succeeded in meeting the views of oth parties. A more beautiful, more romantic story could not well be constructed. The love interest, without which no play has ever been successcomedy, affording relaxation after the more serious episales ful, is all powerful. It is replete with more serious episodes.

Transactions reached nearly a million shares for the first time in some weeks. Some lessiancy was monifer at the opening in view of the possibility of foreign developments which might follow the death of the president of the French republic. The fractional declines in the London and local markets were checked when Paris appeared as a buyer in London, which had a reassuring effect. Noticeably weak features in the early trading were Sugar. Tobacco and Barlington. These stocks one after another, were taken in hand and carried well above last night. Many traders viewed the action of yesterdays market as indicating a resumption of a bull movement and purchased stocks. Many of the large brokers were instrumental in advancing arises today and commission house business was considerably larger than of late with many sold out buils taking hold again.
