THE MARKETS.

Wall Street Review.

Wall Street Review.

By Associated Press.

New York, Feb. 23.—Today's market dealings in excess of a million shares was extremely erratic and the net results showed honors about even between the bulls and bears. The most significant losses were made in Sugar and the Granger group, Burlington figuring for 24. The leaders in the other column were Tobacco, the Minneapells and St. Louis shares and Third Avenue. The market opened strong with a considerable demand for foreign account, London taking Iully 60,000 shares, over half of which were the Atchisons. Pienty of seiling orders appeared and prices receded from the opening figures, in some cases sharply. Special strength was shown by American Steel gaining 3 points when the general list was crumbling. This was due to the glowing reports of the company's business which emanated from parties connected with the property. Sugar was supported in the early dealings but ended with a five-point loss. The Coalers averaged a point up with Jersey Central exceptionally jumping 3½ on reports roward regulating the coal trade. The market closed tregular with weak tonderfone, Total sales were 1,01,400 shares. The bond market displayed a marked degree of strength, waten was not influenced by the block in stock prices until the close when some issues yielded in sympathy. Total sales were \$1,500,000. By Associated Press.

By J. R. L. Carrington & Co.

New York, Feb. 23.—The market opened pullar and excited in places with beavy buying orders in American Steel and Wire, Federal Steel and Temessee Coal stocks which resulted in sharp advances in them. Landon houses were large buyers of their specialities, notably Union Pacific and Atchison. Commission houses had a fair amount of orders but there was some liquidation throughout the list. The market held strong and firm throughout the early part of the day but around 1.30 p. m. a soiling movement developed which dropped this from 1 to 3 per cent. The market looks over bought to us and we should not be a bit surprised to see somewhat lower prices. The decilies was heaviest today in the stocks which have shown most material advances. We have reason to believe that several large interests have liquidated on the last advance and are willing to see the market run off somewhat. While we are not benrish we think temporarily at least, purchases should only be made on weak spot. The conditions of money are coming in evidence every day and it is just possible some liquidation is caused by the fact that boans are being called by the banks. The gyrations of Tobacco and Sugar have weakened the market perceptibly. Shorts have been forced to cover these by remaving buying power which previously existed. At the same time they have frightened outsiders into taking profits which they previously would not have done. Such manipulation By J. R. L. Carrington & Co. time they have frightened outsiders into taking profits which they previously would not have done. Such manipulation as has taken place in the market is always detrimental to best interests and for that reason we are inclined to be conservative on it. Steel and Wire which we have been persistently bullish on was very strong and active throughout the day. It will not advance in the declining market but may be safely purchased below 10 for very much higher figures. The market closed somewhat irregular and weak with probability of lower prices tomorrow. Total sales, 1,011,422 shares; bonds, \$5,074,000.
