PEARSALL HAS RESIGNED. Goes to New York City to Take Charge of Railroad Work on the New York Central Great System.

F. W. Pearsall, secretary of the Railroad Department of the Young Men's Christian association, has tendered his resignation, to take effect on March 31. He goes back to his former position of assistant secretary of the railroad work at New York City.

For the past six years Mr. Pearsall has been doing a most successful work among the railroad men of Scranton. Since coming here he has been asked repeatedly to enter the state and international work of the Y. M. C. A., but he always felt constrained to remain at Scranton.

The needs of the work at New York, however, and his peculiar fitness for the same makes the call so imperative that even those of his workers who will miss him most urge him to go.

Mr. Adair has many personal friends among the railroad men here and if he accepts there is no doubt but that his work will be carried on with the same energy that has characterized it under Mr. Pearsall's management.

ALL THE WAY FROM GERMANY. Velvet Manufacturers Sizing Up Scranton's Inducements.

Last fall, a Scranton man just returned from a trip abroad, told Secretary D. H. Atherton, of the Board of Trade, of having heard, while in Germany, of a large velvet manufacturing concern which was contemplating moving to the United States.

Secretary Atherton wrote to the proprietors of the concern, setting forth the advantages of Scranton and bidding them to look us up when they were ready to come to this country.

This was the last the secretary thought of the matter, until yesterday morning when Carl Van Der Upwich and Friedrich Helfenstuh, the proprietors of the German velvet factory, accompanied by an agent of their American representatives, Frederick, Victor & Achels, No. 66 and 72 Lombard street, New York, presented themselves at the Board of Trade rooms and inquired for Atherton.

When that same Mr. Atherton let go of those same German capitalists having good about Scranton worth knowing that they didn't know. They did not have committed themselves further than to say they were most favorably impressed with the city.

They have been in the United States for about two weeks and have visited a number of cities in the east that have manufacturing advantages. They told Mr. Atherton he would probably hear from them before long.
