MESSAGE OF BURGESS

To the Honorable Council of the Borough of Dunmore, Pa. Gentlemen of the Borough Council—I believe it to be quite unnecessary for me to remind you of the great responsibility that rests upon you in connection with the office to which you have been elected, but as you are a young man of experience as a councilman, and no doubt know fully as well as I am able to state to you, what is expected of you by the people.

It seems proper that we should take a retrospective view of what has been accomplished during the year just closed, and also make some suggestions as to the work to be accomplished during the year now entered upon.

Besides the large amount expended for current expenses of the borough, such as electric lights, water, police protection, etc., it is very gratifying to note that six water hydrants and six electric lights have been added; a very substantial improvement has been built on Quincey avenue, to take the place of an old wooden bridge which was in a dilapidated condition, a beautiful iron fence and stone steps now adorn the borough property, Clay avenue, between Grove and Willow streets, has been graded, also Fifth street, between Dudley and Cherry streets, besides a large amount of repairs on other streets. There has also been added to our fire department necessary equipments to the amount of \$275.

POLICE REGULATIONS

The police regulations for the past year, while they have not been all that we would have desired, have been all that we could reasonably expect for the amount of money appropriated to the department, and it is said to the credit of the people of our borough that, considering the limited amount of police protection we receive, the best of our borough will compare very favorably with that of any of our large towns or cities. Our police officers are to be commended for their faithfulness and willingness to respond to the call of duty at any hour of the day or night.
