# **ENGLISH VERSION** OF MUSCAT AFFAIR

DIFFERENT COMPLEXION FROM THAT GIVEN BY FRANCE.

Mr. Brodrick Holds That the British Agent Was Absolutely Right in Threatening a Bombardment of Muscat-No Concession of Territory to France, Though Right for Coaling Station Is Admitted.

London, March 7 .- The parliamentary secretary of the foreign office. Right William St. John Brodrick, answering a question put by Sir Charle Dilke, Radical, in the house of conmons today, gave a different complex ion to the Muscat incident than th version which the French minister of foreign affairs, M. Belcasse, furnished to the chamber of deputies yesterday. Mr. Brodrick said that by the original concession, secretly obtained in March, 1898, France secured land upon which she would have been at liberty to hoist her flag and build fortifications. Immediately after the proceedings became known Great Britain declared them to be contrary to the treaty of 1862, and the sultan was required to cancel the lease which was annulled. The under secretary added: "We have not expressed disapproval of the action of the British agent, who acted under instructions, and Lord Salisbury informed the French ambassador (M. Paul Cambon) on several occasions that he considered the British contention absolutely right, and that it was impossible to recede therefrom. M. Delcasse's statement omitted to mention that he stated to the British am-bassador (Sir Edmund J. Monson) a few days ago that he had heard nothing whatever of any French acquisition of land on the Littoral of Muscat. therefore the French agent must have exceeded his instructions.

We hold that the action of the British agent in threatening a bombardment of Muscat was absolutely right, By the convention of 1862 there is nothing to prohibit France from having a coal store at Muscat, provided there is no concession of territory, and it is understood that France will avail herself of this power, subject to those lim-

In the chamber of deputies yesterday the minister of foreign affairs, M. Delcasse, answering a question on the subject of the Muscat incident, declared the facts were that the British resident summoned the sultan to withdraw a concession to France of a coal depot on a creek near Muscat. The sultan thereupon asked France to return the deed of the concession and France refused. The sultan then cancelled the concession. Great Britain, however, quickly admitted France's right to the coal depot and expressed deep regret at the incident. France thus obtained prompt and complete satisfaction and the incident was considered closed.

A Stranger in New York.

Another of Hoyt's vaudeville farces, 'A Stranger in New York," was pre-sented at the Lyceum last night. It has been seen heretofore in this city and by a somewhat better company than the one that did the farce last

John D. Gilbert, who was cast for the role of the stranger, is probably a very capable man in some lines, but he is not a bewildering success as the stranger, Miss Alice Holbrook bestirred herself to a purpose in injecting some life and dash into the performance, and the graceful McCoy sisters and Sam Marion danced in a way that quite saved the performance. # THE MARKETS.

Wall Street Review.

New York, March 7 .- The stock market today in the final dealings recovered earlier losses and ended strong and higher than yesterday. There was an effort on the part of the professionals to depress prices in the early dealings, which was successful only temporarily and to a moderate extent. investors generally held on to their stocks and the market became exceptionally dull. The dealings for the entire day were less than half a million, and except for the opening and closing leadings the ticker was practically silent at intervals. The dealings for sandon account were of small volume ith a hardening tendency at the close nd about the best prices of the day on he curb. The anthracite stocks, expt Lackawanna and Rubber, were ong because of the snow storm and | HACKETT. he cold weather. There was much fference of opinion on the board rearding the dividend tomorrow on ugar, with a general expectation of to regular disbursement, closed at the st prices. Total sales were 431,400

Considerable firmness developed in rious spots in the bond market, but his tendency was in a measure offset heaviness in others. Total sales,

United States I's and the old 4's regstored declined 1/2 and the new 4's 1/4 n the bid price.

By J. R. L. Carrington & Co.

By J. R. L. Carrington & Co.

New York, March 7.—The market opened fairly strong with quite free buying in the coal stocks attributed to some strong interests connected with Jersey Central. There was large buying of iteading preferred stocks and Lackawanna was bid up on small sales. Atchisch common and preferred were very weak with quite free liquidation and both contral and Southern Pacific sold off.

weak with quite free liquidation and both (central and Southern Pacilic sold off. Tobacco broke 2 points on seiling for profits, subsequently rallying nearly 4 from the bottom. The sentiment this morning was somewhat divided. Some at the best informed operators in the street believing the strength of the coal stocks might turn the market while others are inclined to think that the operations in them is merely a cloak for sales in other portions of the list. Up to 1 o'clock the market had recovered from a to 2 per cent. on quite free covering and some buying for the long account in interests supposed to be connected with Standard Oil and Tammany. The storm interrupted wire service to some extent leaving the market may rally further that the sales over the tentral cases for the long accounts of outside business; we think ourselves while the market may rally further that of professionars, cutting off the volume of outside business; we think ourselves while the market may raily further that it is a sale, except in special cases for much lower figures. The Coalers are liable to advance, if the present weather continues. The general list is certain to be controlled by the action of the Granger ronds and there is a strong probability that carnings for the next two months will not make as favorable an exhibit feempared with last year) as they have done in January and February. Last spring there was a very free movement of wheat with open weather, this year the receipts are light with weather conditions strongly against cheap operation so that we are inclined to think returns until spring opens are likely to be somewhat less favorable. Money continues to be a feature and will remain so for some time at least. There is some talk of importation of gold against our trade balance but we think the supply of very small having been mostly used up against remittances due for securities soid and dolivered in this market. Market continued dull with a certain amount of strength throughout the day, considering the weakness shown yesterday and the early part of last week and unless some activity is infused into the list prices will sag of their own weight. Market closed dull and fairly steady.
