THE DAWN OF WOMANHOOD.

Earnest Words From Mrs. Pinkham to Mothers Who Have Daughters, and a Letter From Mrs. Dunmore, of Somerville, Mass.

The advent of womanhood is fraught with dangers which even careful mothers too often neglect.

One of the dangers to a young woman is belated menstruation. "The lily droops on its stem and dies before its beauty is unfolded; or she may have entered into the perfection of womanhood with little apparent inconvenience or disorder of health. But suddenly the menses entirely cease."

Mother, puberty is taking hold of your daughter, and quick consumption may follow! Take in start steps to produce regular menstruation.

Lydia E. Pinkham's Vegetable Compound is certain to assist nature to perform her regular duties, procure it at once; there are volumes of testimony from grateful mothers who have had their daughters' health restored by its use.

If personal advice is desired, write quickly to Mrs. Pinkham, at Lynn, Mass. It will be given you without charge, and it will be the advice of abundant experience and success.

Read the following from Mrs. CHARLES DUNMORE, 102 Fremont St., Winter Hill, Somerville, Mass.

"I was in pain day and night; my doctor did not seem to help me. I could not seem to find any relief until I took Lydia E. Pinkham's Vegetable Compound. I had inflammation of the womb, a bearing-down pain, and the whites very badly. The pain was so intense that I could not sleep at night. I took Lydia E. Pinkham's Vegetable Compound for a few months, and am now all right. Before that I took morphine pills for my pains; that was a great mistake, for the relief was only momentary and the effect vile. I am so thankful to be relieved of my sufferings, for the pains I had were something terrible."

WHAT GRATEFUL WOMEN SAY

About Pe-ru-na as a Remedy for Female Catarrh.

medicine, which I praise highly and recommend."—Mrs. F. K. F. Gille, Box 19, Orykla, Miss.

Dr. S. B. Hartman, Columbus, O.: "I am sure that Pe-ru-na is one of the best medicines on the market. I have taken it every winter for the last four years. I first tried it after a long, hard spell of la grippe, for cough and catarrh caused by the grippe. I am sure that I would have been in my grave now had I not used it. I have told many others the good it did me. Everybody said that I had consumption, and I knew that I would have it next four years. I take it as a preventative from cold. I believe that if people knew what a great preventative Pe-ru-na is they would have less trouble from that dreaded disease, la grippe. It never fails. I am well advanced in life, but I feel that I might live through many winters with the help of Pe-ru-na. I never forget to recommend it to young as well as old for all kinds of colds, coughs, catarrh, etc. I feel it my duty to give praise to those who have tried it, and ever shall be grateful to the man who discovered Pe-ru-na."—Mrs. S. K. Dicker.

New Orleans, La. "I am feeling much better now than I have for two years. I have taken two bottles of your Pe-ru-na and will continue making it and will recommend it to my friends, as a greater and truer philanthropy than this cannot be imagined. A medical missionary like yourself is what this world needs most, as you are always willing to give free advice to all. I find Pe-ru-na to be the best medicine for female complaint and in all cases of extreme weakness I think it is the best remedy in the world, as it has done me a great deal of good. My friends say I am looking better now than I have for years. They want to know what I have been doing. I look so well. I tell them that Pe-ru-na did it. I hope Dr. Hartman will live many years more to help others who are ill like me."—Mrs. H. Butler, 134 Sixth street.

Dr. S. B. Hartman, Columbus, O.: "I think it is time to let you know what your treatment has done for me. I am rid of that terrible trouble I wrote you when I had when I wrote to you. When I would sit down I could not straighten up without the most severe pain. I am well of that, and am much better in other ways. I am still taking Pe-ru-na and Man-in-Eagle and am giving it to my two little girls. We took it all through the yellow fever scare. Everybody in this town, I think, had the dengue, but if we had it, it was so light that we did not know it; only one of the little girls had a light headache and a little fever. Magruder, York Co., Va. Dr. S. B. Hartman, Columbus, O.: "I can scarcely find words to express my gratitude to you for all your kindness to me. We have used Pe-ru-na in our family for the past year and find it a wonderful remedy. It has robbed the grave of one victim, for I was in a critical condition when I wrote you before. Thanks to you, however, my health is fully restored and an better than I have been for five years. I cannot say too much in favor of your medicines. If you can use any words of mine to assist you in your work I will only be too glad. I wish every young lady in our town could read your book. There would be a great deal less sickness and puny women."—Miss Bertha E. Sargent.
