

ROUTINE WORK IN THE LEGISLATURE

PROCEEDINGS OF YESTERDAY IN SENATE AND HOUSE. Mr. Bare Introduces a Bill Providing for the Expenditure of \$940,000 in the Next Two Years—Other Measures Considered in the Regular Sessions.

Harrisburg, March 8.—When the senate met this morning Mr. Washburn introduced the committee on public buildings and grounds be discharged from the further consideration of the house resolution asking for an itemized account of the moneys expended so far in the erection of the state capitol. He said that the committee had been considering the resolution for some time. However, in the absence of the chairman of the committee, Mr. Washburn said he would renew his motion tomorrow morning.

A resolution introduced by Mr. Magee and which passed unanimously, requests the president to appoint George Hawkins, colonel of the Tenth regiment, N. G. P., now stationed at Matin, a brigadier general.

In the house, the senate bill providing for the adjustment of lands of the commonwealth against unappropriated lands and for the granting of contracts for such lands to the present owners was amended on motion of Mr. Peoplé, of Lancaster, and passed on second reading. The bill as amended provides that "it shall be the duty of the secretary of internal affairs before asking any settlement for unappropriated land to clearly establish the claims of the state without any extra cost to the land on which the patent remains unpaid."

Mr. Stiles, of Allegheny, offered a resolution which was adopted by a committee of five he appointed to prepare resolutions on the death of Representative Tillbrook, of Allegheny. Mr. Stiles, of Allegheny, introduced a bill appropriating \$100,000 for the preparation and publication of the names and records of Pennsylvania volunteers in the Spanish-American war. A bill was introduced by Mr. Bare, of Huntington, appropriating \$940,000 for the support of the National Guard for the next two years. The vote by which the bill extending the duration of the lien of the debts of a decedent against real estate for five years, which was defeated yesterday on third reading, was reconsidered and the bill passed finally.

Mr. Housick, of Allegheny, introduced a bill relating to the local option law in the Tenth ward of McKeesport. A bill was presented by Mr. Palm, of Crawford, to empower married women to sell, convey or mortgage their real estate without their husbands joining in such conveyance or mortgage in all cases where the husband has been regularly declared a lunatic in accordance with the laws of the commonwealth.

The Keator bill reform bill passed second reading. The measure provided absolute secrecy in voting. Under the proposed law no voter shall have a helper unless he is physically incapacitated or unable to read. His helper must first declare underneath, subscribed to, that he will not attempt to influence the voter, but will give him the help he desires and that he will not disclose the contents of the ballot except in a legal proceeding.

The bill does away with the circle and the name of the candidate shall be printed but once on the ballot for the same office. The bill also reduces the ballot to one-sixth its present size and enables the voter to avoid risk of mistake in voting. There is only one way to mark a ballot according to this bill by putting a mark opposite the name of each candidate being in groups, within heavy names and with appellations following them. The bill was drawn to remedy the defects in the ballot laws of 1891 and 1893 so as to make it conform to the Australian system.

The few personal registration bill also passed second reading. The house adjourned until 10 o'clock tomorrow.

THE MARKETS.

New York, March 8.—The stock market was dull most of the day except at the closing, when there was considerable activity. The interest largely centered in the coalers, which made some handsome advances, and a number of the specialties went up over a point, while fractional advances were the rule in many other stocks. The published report of a combination of practically all the coalers was the ground for the strength in those properties. Much interest attached to the declaration of the regular dividends in sugar. The market waited until it was announced that the final dividend had appeared. Sugar after opening higher and then losing more than the earlier gain, rose about 4 points for the day. The stagnant tone which prevailed the greater part of the session, with fluctuations of only a few cents, was dispelled during the final decline when the coalers were marked up and there was a sympathetic rise elsewhere. Lackawanna and Reading first preferred led the coalers with an advance of 3 each. Considerable money was said to be heading this way from the interior to take advantage of the recent firmer tone in money both for call and time. The closing tone of the stock market was strong. Total sales were \$12,500,000 shares.

UNREST IN SAMOA. Everybody Anxiously Awaiting to Learn Who Shall Be King.

San Francisco, March 8.—The steamer Alameda has arrived from Australia via Samoa and Honolulu. When the Alameda left Apia everything was quiet under the direction of the provisional government with Mataafa at its head. The sentiment among the natives seems to be changing in favor of Tanuasi. Mataafa is becoming uneasy. Everybody is anxiously awaiting the decision of the three powers as to who will be king.

SPANIARDS SEEK PROTECTION. Cubans Are Accused of Atrocities at Mayori.

Havana, March 8.—A Spanish newspaper publishes a story to the effect that a party of armed Cubans is terrorizing the Spaniards at Mayori. It says also these Cubans have murdered several Spaniards near Barajasua and mentions cases of the persecution of Spaniards at Calabazas, province of Sancti Spiriti.

"Sunshine of Paradise Alley." Denman Thompson's latest success "The Sunshine of Paradise Alley," which will come to the Lyceum on Friday evening, the occasion being a return engagement, is quite as wholesome and delicious as his "Old Homestead" and he can scarcely expect warmer praise for his work than this declaration. It is welcome everywhere as a contrast picture to "The Old Homestead" and by alternate laughter and applause, mingled with an occasional moistened eye, enthusiastic and delightful audiences are testifying appreciation of the author's endeavors to please.

Kellar, the Magician. Kellar declares that he takes the people's money for deceiving them, just as the magicians do, except that he announces himself as a trickster, which the mediums forget to stipulate. The "Sunda Senance" will be a part of Kellar's programme when he appears at the Lyceum theater on Saturday evening.

"The Lost Paradise." Among the agreeable announcements to theater-going people the coming season is that "The Lost Paradise" unquestionably the greatest of all the problem plays presented during the last decade, will come to us with the same elaborateness of scenic detail as the same standard of excellence in the make-up of the company that marked its first production by Charles Frohman some five seasons ago. A car load of special scenery will be carried, presenting the celebrated "Mill Scene" on a scale of realism seldom, if ever before seen in this country. This magnificent attraction will be seen at the Academy of Music during the week of March 23, being produced by the Pitman Stock company.
