SOME FOOLISH PEOPLE Allow a cough to run until it gets beyond the reach of medicine. They often say, "Oh, it will wear away," but in most cases it wears them away. Could they be induced to try the successful medicine called Kemp's Balsam, which is sold on a positive guarantee to cure, they would amediately see the excellent effect after taking the first dose. Price 25c. and 56c. Trial size free. At all druggists.

BLEEDING PILES.

And all other forms of this common and often dangerous disease readily cured without pain or inconvenience. Thousands of men and women av afflicted with some sort of piles, withcut either knowing the exact nature of the trouble, or knowing it, are careless enough to allow it to run without taking the simple means offered for a

radical cure. The failure of salves and ointments permanently cure piles has led many to believe the only cure to be a surgical operation.

Surgical operations are dangerous to life and moreover not often entirely successful and at this time are no longer used by the best physicians or recommended by them.

The safest and surest way to cure any case of piles, whether blind, bleeding or protruding, is to use the Pyramid Pile cure, composed of healing vegetable oils, and absolutely free from mineral poisons and opiates. The following letter from a Pittsburg gentleman, a severe sufferer from bleeding piles, gives some idea of the prompt effectual character of this pile cure. He writes:

I take pleasure writing these few lines to let you know that I did not sleep for three months except for a short time each night because of a bad care of bleeding piles. I was down in bed and the doctors did me no good. A good brother told me of the Pyramid Pile Cure and I bought from my druggist three lifty-cent bottles. cured me and I will soon be able to go to my work again. William Handschu.

GATHERED IN SOUTH SCRANTON

YOUNG WOMAN MAY LOSE THE FINGERS OF BOTH HANDS.

Miss Walsh, an Operator at the Lackawanna Button Mills, Had the Fingers of Both Hands Crushed While at Work-Got Them Caught Beneath the Pressure Plate of Her Machine-Amputation May Be Necessary - Excellent Entertainment-Other Notes of Interest.

Miss Anna Walsh, of Bellevue, met with a serious accident at the Dackawanna Button works while engaged at her duties there yesterday afternoon. Miss Walsh operates a machine which is used for moulding the buttons. It is the custom of each operator to stop their machine when placing the material out of which the buttons are made under the pressure plate. Miss Walsh made no exceptions to the custom, but, unfortunately for her, she did not place the material in a straight position and after starting her machine she noticed her mistake. Instead of stopping the machine she tried to right They the material and the pressure plate came down upon the fingers of both hands, crushing them to a pulp.

Dr. J. A. Manley was called and bandaged the hands and made her as comfortable as possible. She was removed to her home in a barouche, where she was attended by Dr. Walker, the family physician. It is not known yet whether amputation of any of the fingers will be necessary. This is but a repetition of numerous accidents which occur at the button mill where the new machines require attentive operators and accidents are in measure due to the neglizence the young women, The instructions of the foreman, which were to the effect that all machines should be stopped when playing the material

PUBLIC SCHOOL COLLECTIONS. The school deposits for the past week ndicated an increase in some of the chools where the deposits were not what they should be. School No. 7 adopted the system last week and Nos. 15 and 3are expected to fall in line in a short time. The deposits for the
