**KILPATRICK BOY AGAIN.**

Grabbed a Lady's Pocketbook in the Postoffice.

Joseph Kilpatrick, "the tall, weak, pale-faced lad," who kept the whole city quaking by his operations on the hill, and who is to be tried for larceny at the next term of court, is in trouble again. Last evening shortly before 6 o'clock he snatched a pocketbook containing \$50 from a lady's hand in the postoffice corridor, and ran into the crowded street.

The matter was immediately reported to police headquarters and Captain Edwards himself started out on the chase. From the description he was given at once he was the Kilpatrick lad, and, hunting him up, had his suspicions confirmed. The pocketbook and all of its contents were recovered.

During the early afternoon a younger brother of the Kilpatrick boy committed a vicious assault on a gentleman near the cathedral corner. Detective Charles Silverberg took him into custody, with the intention of handing him over to an officer. Four men, however, came up and forcibly released the lad, the names of them are known and will be arrested.

**RECEPTION FOR THE THIRTEENTH**

ARRANGEMENTS FOR IT ARE ALMOST PERFECTED.

Meeting of the General Committee in the Board of Trade Rooms Yesterday Afternoon—Parade Starts Promptly at 3 O'Clock In the Afternoon and Will Be a Monster Affair—Programme for the Banquet and the Reception in the Evening at the Lyceum.

The general committee of reception to the Thirteenth regiment, P. V. I., extend a cordial invitation to all civic, patriotic and temperance societies in this city to join in the parade on 23d inst. Those who desire to take part will please notify the chief marshal, Colonel E. H. Ripple, not later than Tuesday, 21st inst., in order that positions in line may be assigned them.

At a meeting of the general committee that has charge of the reception for the members of the Thirteenth regiment, held in the board of trade rooms yesterday afternoon, a vast amount of business was transacted.

Owing to the short time during which arrangements must be perfected, it was deemed inexpedient to send invitations to every society in the city to participate in the parade and the general invitation printed above this article was decided upon as the best means of reaching all the societies quickly.

No other invitation will be issued. Societies desiring to participate in the parade will confer a favor by notifying Chief Marshal E. H. Ripple as soon as possible.

The reception committee has directed to make arrangements for the care of the governor and his staff. They will arrive in the city about noon next Thursday and the members of the reception committee will greet them at the station. Carriages will be in waiting to convey the party to the Jermyn, where they will have lunch. Carriages will also be provided for them for the parade. The governor and his staff will dine at the Jermyn after the parade and will attend the reception at the Lyceum in the evening. Early Friday morning they will leave for Harrisburg.

Chief Marshal Ripple has his arrangements for the parade well in hand and within a few days will issue his official order with reference to the parade. The parade will move in six divisions and will form on Franklin avenue, with the right resting on Lackawanna. It will move promptly at 3 p. m. and ten minutes before that hour the bugler at the head of the column will sound "Attention."

THE REVIEWING STAND.

The exact route the parade will pass over has not yet been fully decided upon. The governor and his staff will review the parade at the High school and the grand marshal and his staff on the Adams avenue side of the court house square.

The veterans of the civil war, members of the Ninth regiment, Pennsylvania volunteer infantry, of which Col. Harro; Thirteenth regiment veterans, Sons of Veterans, Eleventh regiment, Brethren of the city and many civic societies have already announced their intention to participate in the parade.

It was decided to invite Colonel Minor, of Wilkes-Barre, and the members of the Seventh regiment of the new state guards, of which he is commander, to participate in the parade.

At 6 o'clock the banquet will be served to the members of the Thirteenth and First Infantry regiments, in addition to any other from this city or its immediate vicinity who served in the late war in either the army or navy. Secretary Daniels was directed to write to the commanders of the Montrose and Honesdale companies and urge them to participate in Thursday's celebration, as it was arranged as much for them as for the companies from this city.

It was the original intention to have the banquet in the armory, but owing to the fact that it will be in use during the afternoon for the assembling of the soldiers, the banquet will be served in the Connell building on Spruce street. Following is the menu submitted by Ripple, the caterer, and accepted: Fried oysters, ham and crockers, celery, chicken salad, finger rolls, sliced turkey, radishes, Saratoga chips, bread and butter, sandwiches, olives, salted almonds, assorted cakes, macaroni, ice cream, coffee.

**EVENING RECEPTION.**

The reception at the Lyceum will begin at 8 o'clock. The soldiers will occupy the entire first floor and balcony of the theater. This will leave only the upper gallery for the general public. The committee regrets that it will not be possible to accommodate every person who would like to attend the evening exercises, but the soldiers are the first consideration and must be cared for.

**THE OLD WAY.**

Of Treating Dyspepsia and Indigestion by Dieting a Dangerous and Useless One.

We say the old way, but really it is a very common one at present time and many dyspeptics and physicians as well consider the first step to take in attempting to cure indigestion is to diet, either by selecting certain foods and rejecting others or by greatly diminishing the quantity usually taken. In other words, the starvation plan is by many supposed to be the first essential. The almost certain failure of the starvation cure for dyspepsia has been proven time and again, but still the most dyspeptic makes its appearance a course of dieting is at once advised.

All this is radically wrong. It is foolish and unscientific to recommend dieting or starvation to a man suffering from dyspepsia, because indigestion itself starves every organ and every nerve and every fibre in the body.

What the dyspeptic wants is abundant nutrition, which means plenty of good, wholesome, well cooked food and something to assist the weak stomach to digest it. This is exactly the purpose for which Stuart's Dyspepsia Tablets are adapted and this is the method by which they cure the worst cases of dyspepsia, in other words the patient gets plenty of wholesome food and Stuart's Dyspepsia Tablets digest it for him. In this way the system is nourished and the overworked stomach rested, because the tablets will digest the food whether the stomach works or not. One of these tablets will digest 2,000 grains of meat or eggs.

Your druggist will tell you that Stuart's Dyspepsia Tablets is the purest and safest remedy for stomach troubles and every trial makes one more friend for this excellent preparation. Sold at 50 cents for full sized package at all drug stores.

A little book on stomach diseases mailed free by addressing F. A. Stuart Co., Marshall, Mich.

Hon. W. A. Connell will preside over the meeting and Colonel H. M. Boles will make the address of welcome, to which Colonel H. A. Courser will reply. There will be short addresses by Governor Stone, General Gobin, General Stewart and Rt. Rev. Bishop Holan Rev. J. J. Lansing, D. D. of the Grace

Ridge Presbyterian church, will open the meeting with prayer and Rev. S. C. Logan, D. D., will close it with benediction. The Schubert quartette will render selections between the addresses.

The committee has thoughtfully decided to care for the nurses from the vicinity who were in the service of the government or Red Cross society during the war. They will be supplied with carriages in the parade and a box in the theater at night. They are requested to make known their identity as soon as possible to Charles E. Daniels, the secretary of the committee.

**MAYOR'S PROCLAMATION.**

It is earnestly desired that all places of business be closed on Thursday afternoon. To that end the following proclamation has been issued by the mayor:

To the People of the City of Scranton, Greeting:

Recognizing the hand of Providence in the safe restoration to us of our citizen soldiers of the Thirteenth regiment, Pennsylvania volunteer infantry, and of the members of the First regiment of engineers, and recognizing also the true patriotism and courage shown by these men in volunteering for the defense of this, our country and the relief of the oppressed Cubans; now, therefore, I, James G. Bailey, mayor of the city of Scranton, do hereby proclaim and set aside Thursday, March 23, from 12 o'clock noon until 1 o'clock midnight as a time for general thanksgiving and rejoicing, and I further direct and request that all businesses be suspended between the hours above named, and that every one unite in honoring those who have brought honor upon themselves and upon this, our city.

Given under my hand and seal this eleventh day of March, in the year of our Lord, one thousand eight hundred and ninety-nine.

James G. Bailey, Mayor.

All veterans of the Thirteenth regiment who desire to take part in the reception are requested to meet in the armory Saturday evening at 8 o'clock to make the necessary arrangements.

Colonel Courser urgently requests all the members of his late command to participate in Thursday's demonstration.

**ENGINEERS GIVEN A TREAT.**

Prof. A. H. Sabin Lectured Before Them Upon Steel Protection.

The members of the Scranton Engineers' club, almost to a man, attended the regular monthly meeting held last night in their rooms in the Board of Trade building. The treat of the evening was a masterly lecture on "The Protection of Iron and Steel Structures from Corrosion" by Prof. A. H. Sabin, chemist for Edward Smith & Company, New York city.

Prof. Sabin described the processes now being used by the United States Bureau of Construction and Repair and several large water and mining companies. He is an able man, both as a speaker and in his work. Briefly he stated that the process consists of thoroughly cleaning the surface to be coated, heating the same and dipping in a special quality of hot varnish, then baking in an iron oven. Pipes coated in this way has withstood for many years the corrosive action of sea water and for shorter periods dilute acid water such as is found in the mines.
