HEALTH RESTORED.

When I see a man who is an easy and steady eater and a sound and regular sleeper, I see a man who has no occasion to be afraid of the world, the flesh or the devil. For, from those still solemn hours of the night, when human figures lie like recumbent statues in the darkness, and from those other hours when busy forks and fingers deliver to the mouth the food which the palate stands ready to welcome-from these two things, I say, proceeds all human power, together with the clearness and sanity of mind which leads it to every valuable accomplishment,

The vicissitudes of fortune are now and then clearly illustrated in Japan. For more than 20 years the Tokugawa family furnished the shoguns ("tycoons"), or "generalissimes," who were the real rulers of the empire, in the name course, of a puppet emperor. It was the shogun who had the daring to receive from Commodore Perry the letter from President Fillmore to the emperor, and afterward, without even asking imperial ermission or sanction, to sign treaties with foreign nations. All power and forawa family. But only the other day ap-peared a notice in a vernacular paper that Count Atsumori Tokugawa had been comeplied to sell all his property by auction to satisfy his creditors. It is also a very common occurrence these days to find an old samural—one of that favored class who telled not, neither did they spin, but devoted themselves to learning and warfare-in the person of cook in a foreign family.
