Many doubters of the inability of our new wards to learn how to govern themselves have been known to express similar doubts about the self-governing ability of the guardians themselves. Nothing of importance is accomplished in this practical world by men who spend their time in framing doubts,

Finally a time came when the Fillpinos grew reckless in their effrontery and started to shoot at their deliverers. This act of spicidal fully cut the thongs of the situation. How well they have events have shown. But it is a mistake to blame either them or the administration for having put off the hour of reckening so long. That delay was wholly the work of the long-winded senatorial critics.

If it were not for an atrocious crime secusionally the sympathies of the mawkish would probably always remain dormant.

The Next Calamity Cry.

The British newspopers, it must be admitted, rarely tak money; but, as they have endless columns to nil, they have recourse to the tele-graphic agencies, and that explains how during the Cuban war the English news-papers received daily services of five and six thousand words by means of a special apparatus installed in the editorial office, and which turned from morning to night like a whodmill. All this matter was supplied to the British newspapers at the cost of their ordinary subscription to the telegraphic agency and it was materialy impossible for the agencies to recoup themselves without Im. Oklahoma, not including any large Government. That explains the steady and systematic hostility toward Spain of all the false news which has enabled the Americans to deceive the world. Without the employment of such means the United States would never have succeeded in crushing Spain in the race of a Europe Instinctively hostile to their expansion.

They determined to get the worth of the tele-phone rent, no matter how much time it took, so they conversed over the wires by the hour until the central office people were driven to distraction. Things got to such a point that the postmaster general in Sydney was appealed to, and he hessed an order forbidding laquacious wo-men from monopolizing a telephone for more than ten minutes at a time.

Theodore Hoff of Chicago Haights, Ill., save: "I desire to add my testimony to the great good Rigans Tabules have done for me. I am a mechanical engineer. 58 years old, an old soldier, serving four years during the late civil war. I had enjoyed good health up to two years ago, when I began to be subjected to pains in the head and heart. I took medical advice on the matter, and was informed that I was suffering from 'Tobacco Heart.'
In the meantime constipation set in, and I suffered the terments of the viz., the loss of sleep, intense fear of impending danger, dizziness, forgetfulness and inability to collect my thoughts. I stopped the use of tobacco, but the torture and the pains and distress went on. I expended many dollars for nerve tonics, heart medicines and dyspepsia ource, but from none of these did I receive a particle of banetit, but soon noticed that whenever I could get my bowels in any measure regulated for a short time I felt better.

About this time I saw Ripans Tabules advertised in the paper and commenced using them. This was about seven months ago, and to-day I am quite free of the pairs in the head and my heart is nearly in its normal condition. I feel myself once more a man. I give this testimonial freely, believing that it is only justice to my fellow man that ALL should know, and you are free to use this as you see fit. I will cheerfully answer all inquiries from any one similarly afflicted as myself. Ripans Tabules are a blessing to the poor. Seing so cheap that they are within the reach of all. Yours truly, Theo.
