Bill Regulating Exhibitions of Photographic Reproductions of Prize Fights-Mr. Coray's Resolution Regarding the Duties of Clerks. Lieutenant Colonel Barnett's Desk and Chair Will Be Presented to the Hero of Manila.

Harrisburg, March 27 .- In the senate this evening, Mr. Mitchell, of Jefferson, introduced a bill regulating exhibitions of photographic reproductions of prize fights and pugilistic encounters. Violations of the act are liable to a fine of not less than \$100 or more than \$500 and imprisonment in the county jail for not more than ten days.

Mr. Coray said he did not find fault with any official or employe who has attended to his duty with any degree o' regularity, but he did not believe can carried on the pay rolls and performing no service should receive any ompersation. Mr. Bliss, of Delaware, insisted that Mr. Coray specify his charges, if he had any, against the officers and employes who have either employed substitutes or neglected their duties. Mr. Coray replied that he would give the names of the persons, if necessary, but he preferred not to make them public at this time. He fald one of the jannors of the committee rooms and reveral pasters and folders have not performed their work. A roll call was taken on the resolution and resulted in its defeat by a vote of 68 to 48.

Then he reverses matters completely. He devotes the rest of his life to spending his dollars to regain his health. What a man with worn out body and tired brain needs most of all is a good stomach. Dr Pierce's Golden Medical Discovery is the proper remedy to set the stomach right. This medicine will make his appetite good, make his weak stomach strong and help it to digest the food he puts into it. Good digestion makes near blood and help it to digest the food he puts into it. Good digestion makes pure blood, and pure blood vitilizes the whole system. This great remedy also cures those who have sore throat, a persistent cough, weak and bleeding lungs and bronchitis, all of which often arise from weak stomach and consequent indirection. It is a cleanwing consequent indigestion. It is a cleaning al strengthening, parifying, invigorating al-terative tonic. It puts life into the blood and nerves, into the brain and body. I would have a slight aching a little below the chest. In 1891 I broke out in lumps all over and when these left the skin peeled off. I took six bottles of Dr. Pierce's Golden Medical Discovery, two bottles of his. Pleasant Pellets, and I believe I am sound and well. Mr. Harris, of Clearfield, offered an amendment to the amendment abolishing the office of superintendent of heating and ventilating and three assistants, which was adopted. The question then recurred on the amendment of Mr. Coray, which was adopted by a vote of 63 to 41. The bill as amended provides for two committee clerks in the senate, four committee clerks in the house and one janitor of the elevators. The amendments of Messrs. Harris and Coray strike out the offices of clerk to Heutenant governor, day watchman and numerous other new positions provided for by the proposed act. The bill passed second reading, after which a motion was offered by Mr. Bilss and carried that the measure be committed to the judiclary general committee. Mr. Harris, of Clearield, offered a resolution which was adopted that the desk and chair used by Lieutenant Colonel Barnett, of the Tenth Pennsylvania regiment, while

be presented to him.

London, March 27.-The order for twenty locomotives given by the Great Northern Railroad company to the Baldwin company, of Philadelphia, is causing much comment in engineering and official circles here. The contract stipulates the delivery of the locomotives in four months and it seems that the British manufacturers needed eighteen months to do the work.

Mr. H. J. Ivatts, chief locomotive superintendent of the Great Northern, who is now in the United States with other English railroad men studying the American automatic coupling system, writes that he is surprised at the great capacity of the American works. It is learned that further orders from the Indian and Australian governments have been given to the Baldwin com-

The same capacity for speedy delivery by the Americans secured for the Pencoyd Iron works, of Philadelphia, the contract to build the Atbara bridge in the Soudan, to the intense disappointment of British firms, none of whom, however, were able to guaranthe work which rightfully belongs to | tee the delivery of the necessary from work within the prescribed time.

In contrast with the promptitude of the Americans, it may be mentioned that the Soudan railroad had to wait four months for a small bridge weighing thirty-one tons.

It will perhaps be found that all the first batch of locomotives for the Soudan will be of American construction.

John Drew Engagement.

The engagement of John Drew at the Lyceum Wednesday evening promises to be an exceedingly brilliant one. There is no doubt of a packed house, for the sale of seats has been one of the largest in the history of local theatriculs. "The Liars," the play to be presented, is considered the best Mr. Drew has had since he became Charles Frohman's star, seven years ago. It from the brilliant pen of Henry Arthur Jones, and is described as a comedy of society manners.

THE MARKETS.

Wall Street Review.

New York, March 27.—Nearly all stocks made advances today and some of them were of material proportions. The dealings reached nearly one and one-quarter million shares. Quite a number of new high priced records for stocks were made. The strength displayed on Saturday brought a large number of commission house orders to purchase stock. This caused a pronounced rise at the opening and induced the climination of many short contracts. The principal activity was in the Flower stocks, there being, for instance, 25,000 shares of Federal Steel sold at the opening over a range of 4 points and the stock made a net advance of 6% on reports that the carnings were large. Hrooklyn Transit rose 5 points on rumors that the Brooklyn Union Elevated was said to have had one-half million dollars in each when taken into control by the Transit company. The continued talk of negotiations for the combination of gas and electric light interests of Chicaro was used to the benefit of People's Gas to the extent of over a point. Among the other specialities to make large improvements were American Tobacco, 19; Continental Tobacco, 4: Metropillian, \$\mathscr{H}_{\text{interest}}\$ in The largest improvements among the leading radiways was \$\mathscr{H}_{\text{interest}}\$ in Pebruary straings of nearly \$\mathscr{H}_{\text{interest}}\$ in Pebruary straings of nearly \$\mathscr{H}_{\text{interest}}\$ in February straings of nearly By Associated Press. leputy secretary of the commonwealth. the southwestern rallways Wasesh showed a net increase in February

By Carrington & Cusack, New York, March 27.—Of all the re-narkable openings in the history of the schange, the opening of Federal Stee-onmon this morning and the market markable openings in the history of the schange, the opening of Federal Steet common this morning and the market generally was the most remarkable the street has ever seen. The whole list opened up with the Flower stocks, the leaders, and throughout the day has continued strong with advance extending very much throughout the whole list and continuing until the close. Such a market has never been seen in Wall street before. While transactions and realizing in early part of day were enormous all offerings were quickly absorbed and market instead of reacting, developed fresh strength as the session wore off. Continental Tobacco was weak in the early dealings, but rallied towards the close, selling at 55, and advance of 5 per cent. over the opening. American Tobacco was also strong, ampling 10 points up on heavy inside buying. Both of these stocks will sell much higher and are great purchases even at the present prices. The news, while it does not amount to much was rather of a buillish nature and every tem was taken advantage of and used to the utmost. St. Paul, for the month of February showed an increase in gross with a slight decrease in not, due to the severe weather of the month, and should not be considered as being a bad feature. Landon was a factor in the trading at times, buying about 40,009 shares, mostly in their own specialties. Federal Steel, both common and preferred, were strongest features in the list. We think that the common will sell above 65 before tomorrow hight, and close to 70 within the week. Steel and Wire was particularly strong although it did not score a large advance. The transactions have been so large today and so widely distributed that some sort of a reaction is due. There is a possibility that money may be a little tighter during the week due to extraorilitary causes, but on all weak spots, the market is a purchase and should be held persistently for much higher prices. The close was strong at almost the best figures of the day. The close was strong at almost the best gures of the day.
