"Night Owl Burlesquers."

Fred Rider's "Night Owls Burlesquers" appeared to large audiences at the Galety theater yesterday afternoon and evening. The company contains some very good specialty people, including Owly Dandall, the juggler; Colton and Darrow, the Darling Sisters, Rawson and Balsley and Billy Barlow.

The entertainment opened with laughably one-act farce entitled "A Social Session," and closed with a sketch entitled "A Hot Old Town," in which the entire company appeared and in which pleasing electrical effects were introduced. The "Night Owls" will be seen at the Galety afternoon and evening for the balance of the

More than 100 people are seen upon the stage, cluding a chorus of sixty volces, corps de ballet, military band, while an augmented orchestra of 25 pieces under the able direction of Frank Pallina, one of the best musical conductors in this country, is a feature of the excellent nsemble. The cast is conspicuous for the unusual number of operatic artists of the first rank selected by the manhe same roles which they escayed with o much success in the New York run. The following is the cast as it will be seen here. It is the original one. It includes such well known names in the operatic world as Hilda Clark, Albert Hart, Charles Drew, Harry Luckstone, Mabella Baker, Christie MacDonald, George Lyding, Mellville Stewart, Lola Allen, Marie Franklin, E. THE MARKETS.

Wall Street Review. By Associated Press.

By Associated Press. New York, March 30.-The movement in stock prices today was very irregular with het changes mixed, but with losses slightly prevaling. Three stocks, Fed-eral Steel, Brooklyn Ragid Transit and Mantatian figured for nearly half the total sales on the exchange, which were not much below a million. Federal Steel on the largest dealings of any one stock advanced Fig., closing at the highest. The preferred sympathetically rose Fig. Brooklyn Transit which has been very ac-dive and strong all week closed practical-ity unchanged although at one time it was up 3 points and at another as much be-low hast night. People's Gas, another Flower specialty, moved similarly but on less wide fluctuations likewise cloring about unchanged. There was no news at-tending the movements in these proper-ties. By Carrington & Cusack.

By Carrington & Cusack. New York, March 22.—The market opened irregular and inclined to be weak due to the fear of tight money during the day and the reported trouble in Samoa. During the early part of the day there was some sharp declines throughout the whole list with the traders working on the short side of the market. In the late morning hours, however, an aggressive movement started in Manhattan which carried the stock up five per cent, over the opening price following with which the knowledge that money was freely of-fered at 6 per cent, started a covering movement throughout the list with good huying in Federal Steel, common, Brook-lyn Rapid Transit and Manhattan that started an upward movement which car-ried prices in some instances to record faures. In the carly afternoon the strength of the specialties frikhtened the bears and there was running to cover throughout the whole list. There was considerable buying by com-mission houses and the whole ticket a conversing to the advocates of higher prices. The knowledge that high rates for money is due to special causes is very well known and aside from some incon-venience in handling loans had very little, if any effect on the buying of Sugar throughout the dw was of very good character and it looks as if the stock might start another upward movement, it has made some short interest in the started an advance. There sposible that Federal Steel com-mow will carry out our prediction within the week. Certain conditions are pending to par, end we strongly advise pur-these on any recession. When the advance begins it will go up very rapidly and may be safely purchased for the sixtles or eventics within a comparatively short lime we think. Manhattan is being taken or a very strong and and wa tube is a time we think. Manhantan is being taken by a very strong pool and we think is a purchase on any sitack which may self the prices off 2 or 3 per cent. There are some agarnessive bears still left in it, and they are linble to try and force prices lower, but the stock seems to be well in in hand and while its intrinsic merit is very doubtful, it is linble to sell up in such a market as we are having. The close was strong and active. a market as we are h was strong and active.

Al Field's Minstrels.

The pantomimic novelty entitled "Cone to the Moon" interpreted by the conowned DeVillier's family of European pantomimists, is one of the reigning sensations of this season with the Al G. Field's greater minstrels. It is the feature Mr. Field has selected to lose his splendid performance and the hurricane of laughter it produces at each performance is evidence that he has made no mistake. Its trickery in conception is mystifying, it is bewildering. You find yourself saying,"How in the world is it done"-when you are interrupted by a peal of laughter from all sides as the gigantic policeman is seen to glide gracefully before the audience and suddenly disappear right above your head. At the Lyceum, April 4.
