Because it was faulty in construction, a resolution introduced by Mr. Brown, of Westmoreland, providing for a joint legislative committee to participate in the home-coming of the Tenth regiment, N. G. P., now in Manila, was sent to committee,

Heavy Dragoon March. The senate finance committee this morning refused to report affirmatively the Creasy revenue bill. Later this action was reconsidered and it was decided to postpone further consideration until next Tuesday, when all revenue bills will be acted upon by the committee.

In the case of John P. Kelly, aiderman of the Eighteenth ward, Scranton, referred by the senate to the com-mittee on judiciary general, the committee reported that after a full hearing it is of the opinion that while there is some evidence of incompetency in the case, the evidence is not sufficient to merit the punishment of removal. The committee recommended that the senate take no further action in the case. The committee's report was adopted by the chamber.

By a vote of 28 to 10 the bill authorizing the trustees of any normal school of the state to place a mortschool of the state to place a mort-gage not to exceed \$50,000 on the buildings and grounds of such institution or any part or parts of the same which shall be prior in lien to all liens of the commonwealth for money appropriated to the schools, passed finally.

New York, April 5—Stock prices siumped badly today and closed active and weak at about the lowest. The principal cause for the shaking of confidence was a renewal of stringency in the call money market. Among the more conspicuous extreme breaks were Brooklyn Transit 10, Metropolitan 84, Manhattan 74, Consolidated Gass and American Steel 7 each, Federal Steel and Tobacco about 5 each and many others in this group from 3 to 4. Some of these stocks closed above the lowest, Brooklyn Transit, Manhattan and Consolidated Gas being conspicuous. The declines in the more active railways approximated 2 points. The acknowledged buil leads, presumably having liquidated, seemed apathetic in stemming the downward course of properties with which they are identified. There were occasional railies aparently only to afford a new level from which to let go stocks. The recent continued advance in many stocks which eliminated much of the short interests made the decline rapid as there was no support from this quarter. Many stop loss orders were uncovered, thus accelerating the decline. There was much money borrowed early on call around 8 and 8 per cent, and 12 per cent. FLOREY & BROOKS, Agts Following is the programme of the minstrel entertainment which will be given tonight and tomorrow night with a Saturday matinee in the Lyceum for the benefit of the Home for Thunderbomb Chorus End Men ... Company thus accelerating the decline. There was much money borrowed early on call around \$4\$ and \$5\$ per cent, and \$12\$ per cent, for call loans was reached at times during the day. Before the close money was effered down from \$5\$ to \$4\$ per cent, on railroad collateral after the more urgent requirements for money had been met, but later loans were made at \$6\$ per cent. Total sales were \$70,400 shares. Heavy offerings of the active issues were made in the bond market today, coincident with the decline in stocks. Total sales, \$2,720,000. New York, April 8.—The market opened active and about closing prices, but after initial dealings at once sold off, and continued weak throughout the greater part of the day. Money which has become the important factor in the speculation extended throughout the entire list. The banks are discriminating very closely as regards collateral, and in consequence specialties were weak features. There was considerable inside buying at the low prices, but the market failed to respond except to a moderate degree. Traders sold heally during the early morning hours, and a considerable short interest has been created which is bound to bring a sharp adance when any covering movement is storied. sharp adance when any covering move-

as been created which is bound to bring a sharp adance when any covering movement is started.

Aside from the situation as regards money there was absolutely no news to have affected the market, and the decline is entirely due to an overbought condition. On any further downward movement there could be no question but what the list is a purchase for a very sharp atwance. Manhattan, Burlington and Missouri Pacific were the strongest features of the list, the declines being small in them, while the specialties and Flower stocks showed the effect of the very heavy over speculation.

The situation has been greatly cleared by the decline, and we consider the market in a much more healthy condition than it has been heretofore. Weak holders have been forced out and stars have moved into stronger hands. The condition warrant higher prices, and in the start reason, purchases made on these sharp declines are sure to show handsome profits if held. It is no market to trade in on light margin, or to pyramid on the buying side, as money is liable to be a feature to the lith at least.

The action of the New York clearing house banks in making collection charges on out of town checks is checking the flow of funds from the interior, and sending balances to other resedue cities and in consequence the available funds have been reduced to such an extent as to market closed weak and unsettled, slightly above the lowest prices.
