took lunch together the other day. He had never been out of the State of Ohio, while I was just back from three years' residence and travel in India. An attack of lockjuw could not have An attack of lockjaw could not have shut off my speech more completely. At last I managed to articulate: "Excuse me: it's too big a subject. Come to me some time when we can both spare an entire month, and I'll invest the whole of it in telling you a part of what little I know about India."

And yet I am confronted this blessed moment with a task even more puzzling

moment with a task even more puzzling and complicated—to tell all about the human liver. Nothing could be better, if it were possible. But it isn't; not at one sitting. So I will turn this man's letter over to you exactly as he wrote and perhaps venture a word or two at the end.

Several years ago I found myself in such a condition that I could neither sit, stand or lie without great pain. My nights were full of suffering. I would roll from side to side in vain efforts to secure an easy position, so I could go to sleep. But every turn of my body seemed to cause me more pain than the last. The experience was so ous that I used to dread to have the night come.

thighs and legs During the day I would have attacks in my spine which involved my head and seemed to extend to all the leading nerves in my body. These attacks were often so sudden they made me dizzy. I lost my appetite and was disqualified for mental effort. I felt so dull and heavy in both mind and body that I lost all interest in everything. I was moody, disheartened and discouraged. To me the future appeared as unwholesome and discolored as my

own yellow skin and eyes.

"Many people had recommended Warner's Safe Cure to me and I made up my mind to try it. The result was beyond my expectations or hopes. I'p to that time I had been in such misery that I would alternately stand on one foot, and then on the other to ease the pain, but before I had finished the first bottle of the Safe Cure. I felt a change for the better. After having taken five bottles in all—a time covering perhaps as many weeks, the pain was entirely gone and I enjoyed the unspeakable blessing of good health. From these facts, when people ask me my opinion of Warner's Safe Cure, you can imagine what my answer is. Edmund Stevens Jacques, Wayne Ave., Germanter Description of the safe Cure of the Safe Cure. own yellow skin and eyes.

opinion of Warner's Safe Cure, you can imagine what my answer is. Edmund Stevens Jacques, Wayne Ave., Gersmantown, Pa."

Now if the reader will lend me his ears for a minute I will say a few plain words suggested by the above letter. The complaint which gave Mr. Jacques such an unhappy experience was that form of rheumatism commonly called sciatica. Few diseases are more painful and prostrating. Our friend has in no way exaggerated the torments which it is capable of inflicting. If the ancient inquisitors, who sought to correct heresy by means of hodily pain, could have imposed at will the agonles of acute rheumatism they might have spared themselves the use of the rack, the thumbscrew, the boot, and others of their amiable devices. Forfew men but would change their creed quicker than a wink to get rid of this variety of torture.

Now here is the point in a nutshell: All forms of rheumatism and gout are caused by the poison known as uric acid; and uric acid is produced in the system and retained there by a torpid liver. Paste this fact up on the walls of your memory where you can see it at a glance, as you are not likely to get hold of any more important information this year.

formation this year.

In other words, cure liver and kidney complaint and you cure rheumatism, gout, sciatica and most other kinds of nerve pain. And the agent to do it with is Warner's Safe Cure. This shows why, as I said at the outset. Liverland is a bigger country than India.
