est. Beware of impostors and charlatans who can afford to ruin your teeth because they are not financially responsible. How can we do better than they? The answer is easy: We have a dental office in nearly every city in the United States, and we buy our supplies at wholesale for cost. No wonder we can give better prices than anyone else. Experience counts also, and we have expe-rience besides our diplomas. Don't be bunched; get the best, the most reliable, the most comfortable and the most durable. The newest methods! The latest appli-cations! The best materials! These are attractions worth considering. Be-sides, nervous people and these with heart weakness can have their teeth filled or crowned with absolute safety and positively without pain. We are the only really up-to-date Dental establishment in Northeastern Pennsylvania. Teeth ex-tracting in the morning and a new set furnished in the afterneon is an old prac-tice of ours. There are just two reasons why you cannot make any mistake in buying your millinery here. In the first place assortments are greatest-where other stores show them by dozens, we show them by hundreds. Then, on the other hand, consider the vast amount of business we do every season-and you will have the other reason-the lowness of price.

Most milliners make it their business to get ALL they can out of you for a hat while they have you this in hand. They "make onto: hay while the sun 3 shines," as it were, Y or in other words, you pay double prices very often.

Not so here. All our hats are marked plain figuresin marked to sell-at prices that WILL sell

them. Many of our best hats have been copied by other stores and are marked at higher prices than our own. It you want a

hat for fifteen, twen-A ty or twenty-five dollars, you can save as much as a ten dollar bill as compared with what you would have to pay for the same kind of hat elsewhere.

And if you want one at two dollars, three dollars or five dollars, you may depend on it that you are getting at least onethird more value than you are giving up cash. We can afford to sell millinery at dry goods profits and we do.

#### R. D. Stuart, Esq., Chosen Solicitor Other Doings of Councils.

Councils met in joint session la evening to elect a city engineer and solicitor. Every member was present. making a jotal of eighteen. R. D Stuart and H. O. Watrous were nominated for solicitor, but Mr. Watrous declined and Mr. Stuart was elected by acclamation.

It required two ballots to elect a cit: engineer. Russell Shepherd nominated O. D. Shepherd, of Scranton; J. J. Mannion named John McLaughlin, of this city, and Vincent Swingle named Horace Albright, of this city. The first ballot was: Shepherd, 8; McLaughlin, 8; Albright, 2. On second ballot the two Albright men voted for Shepherd, electing him without a vote to spare.

Mr. Albright really had a good chance of being elected, though the vote does not indicate it. Before the meeting the leader of the men pledged to McLaughlin tried to get him to consent to drop out if not elected on first ballot, in which case the entire strength focused Utica, N. Y. on him was to be thrown in favor of Albright against Shepherd. But Mr McLaughlin refused to be side-tracked

in that manner. After the adjournment of the joint

convention the commoners had a brief session, during which a resolution instructing the city clerk to advertise for printing was referred to committee. Chairman Kennedy announced standing committees for the coming year as ipate. follows:
