SECOND DAY'S PRACTICE.

Work.

The Scranton base ball players as sembled at the Athletic park yesterday afternoon for their second practice of the season. The men were in good condition, although a little lame from Monday's work. They were more spirited in yesterday's practice than they were in Monuay's. Their efforts both at the bat and in the field were much improved from their previous practice and they used more care in fudgment.

Stultz, who was playing at short, was weak and showed poor judgment several times. He was wild and not in as good condition as during Monday's practice. It is fair to Stultz to say he was playing out of position. Wheeler was somewhat short in base throwing, Gilbert was again in left field, and showed up well. Egan and sion appear to se two of our heaviest batsmen. Hodbox, although the work was light, Phackera and Doherty, who were expected in this city Monday evening, did not arrive. Manager Swift left for Philadelphia Monday evening to present at the schedule meeting, which was to convene at Hotel Hanover at noon yesterday. They have had some trouble in arranging this schedule, and it is hoped that all difficulties will be settled at this meet-

Today's practice is looked forward to for harder work, both in the field and at the bat. The ground yesterday was still heavy, but a few warm days like yesterday will place it in good

condition. There were about one hundred pectators at the practice yesterday. A much larger crowd is looked for today. Manager Swift, in speaking of the preliminary games, said he wanted to arrange with Wyoming seminary for the opening game. This, nowever, is not certain.

School League to Be Formed.

A ball league consisting of Wyoming minary, Wilkes-Barre high school, Harry Hillman academy, Scranton high school and School of Lackawanna is being discussed. A representative from the School of Lackawanna, in speaking of the league, said no definite arrangements had yet been made, and that it would be impossible to ascertain the outcome until a meeting of the representatives from the different schools was held.

When asked when this meeting would take place he said they expected to meet during the latter part of

the week. YESTERDAY'S RESULTS.

Wall Street Review.

By Associated Press.

New York, April 18.—Steck prices advanced moderately today on prefessional dealings. The abandonment of the tunnel scheme by Metropolitan was reflected in a loss of 2 points in the stocks, a gain of over 2 in Manhattan. Tennessee Coal and Iron gained 3½. Colorado Fuel and Iron also advanced nearly 2 points. The decision by the court of appeals in favor of Brookiya Transit left that stock hearly 2 points above yesterday's figures. Burlington went up 2 points. The Anthracite Coulers were stronger, on the "mooted better regulation of trade" possibility again doing service. St. Faul rose about a point on its handsome statement of earnings for the second week la April, but profit taking deprived it of half of its gain. The market closed strong. Total sales, 63,690 shares. Dullness prevailed in the bond department but there was no abstement of its recont strength in any issue responding to seminivestment Inquiry. Total sales, 2365,-990. United States 2s registered gained ¼ and the new 4s registered and the old 4s ¼ in the bid price. New 4s coupon advanced % and the 3s, ½c.

By Carrington & Cusack. New York, April 18.—The market opened at about last night's closing prices, and after selling off slightly, showed considerable strength and advanced above opening prices. Burlington was strong with large transactions, Louisville and Nashville was also very strong and active. The Cealers were firm but showed little activity. Tennessee Cool and Iron was the feature of the day, scering a new high mark. The steel stocks are firm and will show handsome advances when the large amount of profits they are he large amount of profits they are arning are fully realized. Continental obucco and Delaware and Hudson are ive for much higher prices. The selling off of the market Monday has given it a irm tone throughout, and it looks as if ooks us if we might see considerable ad-
