The Atlantic league season will open Frank Rinn is busy getting his Reading

team into condition.

'Ladies' days" in Brooklyn has been done away with by Ned Hanlon.

The Worcester ball team is very anxious secure Wilkes-Barre's old catcher,

Wilkes-Barre will buttle with last year's champions, the Richmond crew, on Thursday next.

The Phillies' awful exhibition in the box on Monday with Brooklyn was something long to be remembered. Arthur Irwin says he has a Rusie in Pitcher Dunkle. Irwin is a good judge, but Dunkle must be fast to be classed

vith Rusie.
In the Paterson team there are five men who tower beyond the six-foot mark. They are Ladd, Flanagan, Camp, Bonner and Wright. Judging from this report, apthing in the way of flies can escape

The following is a clipping from the Wilkes-Barro Record: "Pete Eagan, the former Scranton outfielder, is said to be without an engagement thus far. Pete's publiference. nuifference has apparently ruined his uture." "Pete" is with Scranton and with us to stay. He never was in better

Montreal Gazette asserts that Pitcher Dugglesby was bought outright from Philadelphia and not borrowed. That is an easy thing to say, but not s easy to believe in view of the good opin-ion the Philadelphia magnates hold regarding Dugglesby's future and the facthat they refused to sell him to Wilkes-Barre last year.—Springfield Union.

"Feinting, useless gestures meant to deceive the batsman, do no go under the new rules," says Arile Latham. "Now if I, for example, am on first, and the pitcher makes a motion to throw the ball to the base, I will know that I must hard to hack to the base or set makes. hustle back to the base or get nailed. Every time he makes the motion to throw, I get back to my base. Then, if that's the case, how am I going to get a start? And if I have no start, how can I steal to the next base? The balk rule will be violated just as often, and the base running will not be improved. Nor will any more balks be called on the pitchera."—Exchange.

'-Exchange, The Wilkes-Barre base ball team will open their regular seasion in a lively manner. A band concert by Alexander's Ninth Regiment band will be given today p. m., after which a trolley ride will he taken over the entire system by the ball teams and band. Tomorrow the opening game will be played between Richmond and Wilkes-Barre. Prior to Richmond and Wilkes-Barre. Marty Swift, are inclined to think the club certainly has a strong infield and club certainly has a strong infield and its pitchers are by no means easy money for all comers." We are pleased to hear these encouraging words, especially from our Wilkes-Faure contemporary. The Record is right. Because we are unacquainted with the majority of our call team, it is no sign we are not to have a good lot of men. Marty Swift knows pretty well what he is doing, and how to do it. In this alone we may rest assured that our team will give a good account of

that our team will give a good account of From all reports London is to have a base ball team. Base ball is winning-more friends every day in England, and it is expected that the American national game will bring forth many contests during the coming season. The game has been played for a number of years in the metropolitan districts. They were of no great interest, however, only being exhibition contests. The organization of an amateur team is being talked of in London. An outhestastle meeting was held at Hotel Ceell a few days ago at which a number of Americans were present. Officials were elected and arrangements of a preliminary order were succussefully completed. Francis Key in troduced the game in Derbyshire several years ago. The game in that locality is very popular. There is a league of base ball there, and regular championship

### IN THE PLAY HOUSES.

Henry Miller Tonight. Henry Miller, who is favorably known here from his admirable performances of "Heartsease" during the past three years, and previously from nis years of connection with Charles Frohman's Empire Theatre Stock company as its leading man, will be at the Lyceum tonight, with an elaborate production of Shakespeare's "Hamlet," and playing the title role. It is seldom nowadays, that an actor ventures upon a noteworthy presentation of any of Shakespeare's plays, Managers too frequently trust to the talent of the dayer to make the play attractive to the public, and when it fails, as it generally does, abandon the enterprise saying. "The public does not want Shakespeare." And yet they would And yet they would never think of following this plan with the modern plays they offer.

London Gaiety Girls. Commencing tomorrow afternoon the London Gaiety Girls will begin a three days' engagement at the Gaiety theater. This is a well organized company of handsome burlesquers. The performance begins with a new and laughable burlesque, in which the entire company appear in a series of songs and dances and specialties introducing that famous comedian, Gus Mills, who will be remembered as being here some time ago with Rice's Evangeline company, and during the action of the burlesque he keeps the audience in a constant roar of laughter. Matinees daily.

#### Longevity in Ships. From the Pall Mall Gazette.

The average life of a wooden ship was said to be fifteen years. This probably was assumed as a basia for insurance purposes, yet a large percentage of of wooden ships flourished much longer than fifteen years. I could quote many instances of wooden ships which kept affoat an incredible number of years, and eighty out of every hundred were coasters. Two extraordinary instances of iongevity in ships may be worth quoting here. In Febru-ary, 1827, the Betzy Cains of Shields sailed from that nor, with a cargo to Hamburg. She met with a heavy gale from east-southeast, and bore up for Shield's harbor. The sea was raging on Tynemouth bar; the ship struck, was driven upon the rocks and lost. What ship was this that was lost in the year 1827? Will it be believed that she was the yacht that in 1688 brought over to England William, Prince of Orange, and that she was then called the Princess Mary? This, at all events, was claimed for her. How old was she when she carried the prince? For a number of years afterward she was one of Queen Anne's royal yachts, and was reckoned a very

fast sailing vessel.

The other instance is that of a vessel band of twenty-five pieces. Reginning at was affoat in 1886, may still be trading and in good health. I took a note of her that year, when she sailed from Sea ham harbor coal laden for Harwich in command of Captain Button, and she was then pinety-four years old, having been built at Burlesdon. Hants, in 1792. She used to carry brandy to France, and so they named her as above. She was almost a box in shape.

29 YEARS OF VILE CATARRH—Chas. O. Brown, journalist, of Duluth Minn., writes: "I have been a sufferer from Throat and Nasal Catarrh over 29 years, during which time my head has been stopped up and my condition truly miscrable. Within 15 minutes after using Dr. Agnew's Catarrhal Powder I obtained relief. Three bottles have almost, if not entirely, cured me." Sold by Matthews Bros. and W. T. Clark.—92.

## THE MARKETS.

Wall Street Review.

By Associated Press. By Associated Press.

New York, April 25.—Dealing in stocks today was rather dull. The market was generally heavy in the forenoon while in the afternoon strength appeared, especially among those stocks which had been most depressed early. The Grangers initiated the improvement coincident with the weakness in wheat. London was a seller of the internationals, particularly of Louisville and Southern. Although the professional element was bearish speculation throughout displayed an understand the second control of the second c professional element was bearish speculation throughout displayed an undertone of resistance which caused many of the trading element to reverse their tectics. Among the generally inactive shares very material advances appeared in Minneapelis and St. Louis, Detroit Gas, Canadian Pacifis and Illinois Centri. Anaconda Mining advanced sharply on continued gossip connecting it with the proposed consolidation. Sugar, Glucose and Metropolitan Wheel was supported and Tennesco Coal more than recovered from its early weakness. Gossip was reand Tennessee Coal more than recovered from its early weakness. Gossip was re-vived of some alliance among the Sugar and Glucose interests but nothing definite was made known in this connection, par-ties who should know being non-commit-tal. In the money and sterling exchange markets steadiness prevailed at practical-by strong quantions. Strength prevailed markets steadiness prevalled at practically strong quotations. Strength prevalled in the dealings until near the close when heavy realizing, especially in Manhattan and other transportation shares, cut off part of the advance, leving the market weak although a number of shares retained good advances on the day. Total sales, 547,700 shares. Business in bonds was well distributed today and prices were in the math higher. Total sales, 53,685,000. United States is coupen declined by in the bid price.

By Carrington & Cusack. New York, April 25.—The market opened fractionally above last night's close, on the better feeling in regard to the Coghlan incident, and during the greater part of the day showed considerable strength. The strength of the specialties induced covering and prices advanced sharply, notably in the case of the Grangers, especially of Rock Island and Atchison preferred. Flower brokers were quite tree buyers of Brooklyn Rapid Transit, and there is no question but what purchases around 31 will show 20 points if held onto within the next sixty days. In the specialties, Manhartan Beach was excessively strong on continued buying for control. Tennessee Coal was one of the weak features on continued liquidation for profits. London was a very small feature in the weak features on continued liquidation for profits. New York, April 25.-The market opened weak features on continued liquidation for profits. London was a very small feature in the market, trading on both sides. The market shows the effect of professional trading and is alternately weak and strong as the board sells or covers on the news. While there may not be any great upward movement for a little time at least, at the same time, on all depressions the whole list is a purchase for quick profits, holding some of the securities bought for much higher prices. The professional element is gradually creating a large short interest, and when the upward movement starts, it will be very sharp and very well sustained, and we strongly advise the purchase of Brooklyn Rapid Transit, Federal Steel. Louisville and Nashville, Southern Ralliway preferred, liurlington and the specialties generally, for much higher prices. Metropolitan Street Rallway is going to move very shortly and towards much higher prices and purchases anywhere below 259 will show at least 50 points profit if held throughout the year. The prompt action of the government in disavowing responsibility for Captain Coghlan's utterances has had a very good moral effect abrond and no for profits. London was a very small feaaptain Coghlan's utterances has had ery good moral effect abroad and n

very good moral effect abrond and no further complications need be expected from that source. Mency is gradually working easier and the conditions at the moment certainly warrant a renewal of a bull market. Continental Tobacco is going to fool some of its friends, it is very skillfully manipulated and the end will undoubtedly be much higher prices. The close was irregular but strong.
