the Pauli Block. As yet no plans have been definitely settled upon by the representatives of the Pauli estate as to replacing the block on Spruce street burned yest ar-

day morning. There is a question as to whether or not the insurance adjusters will prefer to repair the building or consider it a total loss. Until this is settled the representatives of the estate can not

### CHRISTIAN SCIENCE AND COMMON SENSE

[Concluded from Page 3.]

First—All Causation is mental. Sin is first in thought, then in act, afterwards its effects appear in the body. Sickness is first either in the conscious thought or in the unconscious or subconscious mind. (Physicians and physicists cail this, realm involuntary motion or latent life.) Next it appears as a defined fear, or perchance manifests itself in the bodily functions without warning. If all Causation is mental, and the primary life or force back of all matter conditions is Mind, then disease can be healed only as the then disease can be healed only as the mental cause is destroyed. Drugs and nstruments can effect no permanent ure where the direct cause is in con-

Second—Nature, or the normal condi-tion of all things, is a universal condi-tion. Hence a natural curative is one that is ufiversal. Good is a universal curative for evil. Divine Mind. Nature or God is universal. Therefore Mind can be utilized as a universal panacea or curative agency. can be utilized as a universal panacea or curative agency. As the scientific application of the laws of mathematics will correct any mistake, so the proper application of Christian Science Mind Healing will cure any disease. On this basis all diseases are equally abnormal and the same Principle destroys both and the same Principle destroys both sin and sickness. Thus the whole bodh ly system is brought under the control of common sense or a normal state of

mind.

Third—True prayer to God is mental communion with divine Mind, or the universal Principle which is Law Good. Truth, or Love. Such prayer reforms the bad man's nature through the transformation of his mind, i. e., Jessires. This same prayer, communion, mental mode, or habit through Christian Science brings man into namula harmony with the Parent Mind—Nature, or God. This type of prayer is ture, or God. This type of prayer is scientific, exact, remedial, and of in-finite power. Can any earthly element or body of persons make such mental action a matter of legislative prohibi-tion? Can human law govern a man's thoughts? Shall legislators tell us how we shall think?

THIRTY-THREE YEARS OF CHRISTIAN SCIENCE. In 1875 was published the first edi-

tion of the Christian Science text-book. At the close of the year 1898 this book had reached its one hurdredth and sixtieth edition of a thou-

sand copies each.

The magnitude of the work of Mary Baker Eddy as Reformer, Teacher, and Religious Founder can best be observed by a brief review of the growth of the movement which she founded and so wisely led through spiritual discomment and seifless inr over a period of thirty-three years At the present time, Christian Science has spread throughout Christendom, It has over five hundred thousand avowed adherents and upwards of a million believers. The Mother Church in Boston, Mass., founded by Mrs. Eddy, in 1879, has a general member-ship of about 13,000, a residential con-gregation of over 1,200, and has nearly 500 branches in Christendom. At the present time the movement is enjoy-ing marked growth in England, Scotland, France, Italy, Germany, Swiden, Norway, South Africa, and in the Isles of the Seas. The movement has its own Publishing House in Roston. Mass., and publishes a regular monthy organ-the Christian Science Jear-nal, a weekly newsparer-the Chrissues a vast amount of miscellaneous iterature relating to Christiaa Sci-

During the year 1898 the Massachuers was formed and met for the first time in Boston. The International ime in Boston. Floard of Lecturship of the Mother Church of Christian Science, composed of cleven official lecturers, was also established during the year. This Board is conducting a series of public lectures on the religion and therapeuties of Christian Science. The lectures are being given in all parts of the United States and Canada, and prevision has also been made for European Lecturship. Great throngs of people are attending these lectures, i me instances the audiences number ing over five thousand persons. These gatherings are thoroughly representa-tive, and are largely attended by phyclergymen, authors, reforms, and the thinking classes, together with great multitudes of what can be truly called "the masses." It is authentically stated that upwards of a million and a half of people have been healed of hopeless discusses dur-ing the last eighteen years through the instrumentality of Christian Science. These facts, together with the great body of untold benefits which

to the practicability and grandeur of the work and spiritual leadership of Mary Baker Eddy. COMMON SENSE LOYALTY. As the religion of Jesus in Christian cience needs no defense, so Mrs. Ed-ly's great work is its own proof of equineness. The widespread loyalty to Mrs. Eddy as Teacher and spiritual Leader, which is so evident along all Obristian Scientists, is nothing morless than common sense tratitude allied to scientific authority essonably recognized. Can it be that the world has become so used to wholesale ingratitude to its greatest whefactors, that it mistakes grateful oyally, for hero-worship and abject mental surrender to se-called auto-cratic despotism? Common sease tells us that the world of science is not only entimentally deferential to scientific

neither tongue nor pen can accurate-ly record, bear abundant testimony as

oficially loyal in following the demon-strable deductions and rules had down y these scientific leaders and franders. The rational and mental obedi-ence and following accorded the views of such individualities as Euclid. New ton, or Roentgen, cannot be classed with here-worship or blind obedience. in following the truths revealed and demonstrated by these scientists, per-sonality is not being followed, but rather impersonal truths which these men have made clear and reduced to a

#### CHRISTIAN SCIENCE HEALING. A man whose common sense is well

lisobedience to the moral code. Disbedience and penalty go hand in hand, cause and effect is a law that is never suspended. Health is as much a part of religion as is morality and spiritual-ity. In the record of Christ's life there were thirty-six conspicuous svents which have been wrongly denominat-ed miracles. Of these twenty-live were instances of physical and mental heal-ing wrought by Jesus without drugs or material means. Heating the sick without drugs is recorded in the Old Testament and God is spoken of therein as the power that forgiveth iniquity and healeth disease. What would the work and life of Christ and His followers he separated from the general healing works which accompany His footsteps? Remove from Tissot's grand collection of pictures representa-tive of the life of our Master, all those paintings and sketches which portray His healing works and what would be the practical significance of the re-

> ists want us to accept as the religion other. Medical students frequently of Jesus. The healing of the sick through divine or mental power was that they are studying. Fear kills largely, if not entirely, the cause of the great growth of early Christianity. was the crowning glory of the ... of Jesus. The Scriptures tell us that Jesus came to destroy the works of the devil. He spent His time in reforming the sinner, in healing the sick, and in raising the dead. Common Sense, therefore, affirms that sin, sickness, and death are the works of the devil. or the trinitarian errors of human ex-istence and materialism, to se gradually eliminated from the life of man by a right understanding of his lumortal sinless existence.

WHAT CHRISTIAN SCIENCE IS

Christian Science healing is the extet antipode of faith cure, mind cure animal magnetism, prayer cure, auto-suggestion, suggestive therapeutics and hypnotism. Mental therapeutics is an exact, rational, and normal system of divine Mind healing. If spiritual, natural, and harmonious mental com-munion with divine Mind, alias the Over-Soul, or Supreme Being, that we call God, can be termed prayer, then Christian Science prayer is of this sort. The germinating ground of disease is or unconscious mind. Animation, force energy, consciousness, life and move ment are mental, not physical. In heritance, prenatal impressions, psychtemperament, influence early environment, religious training and disposition are the books of life which should be consulted in the cure of disease. Matter of itself

can originate nothing
Such scientists and thinkers as
Peanklin, Huxley, Tyndall, Spancer,
Clifford, Hackel, Allan, Bixby, Herschel, Kelvin and Oswald tell us that back of all the material evidences of life is Mind force. Christian Science therapeutics deals wholly with Mind in the prevention and cure of disease. There is no such thing in Science as physical causation. What is known as a physical effect is the result of an au-terior cause. Christian Science is the exact understanding of mental causa-tion. It utilizes certain universal laws of Nature, Its operations are based upon an exact Principle. It resolves matter into its primary elements moral or human mind. It thus brings the calm of the physical under the control d the mental. It dominates the matewith the spiritual, the lower with the higher, the negative with the positive. By this method it mentally dissolves a cancer, heals discused bones, slongates limbs, destroys progressive dralysis, restores the wasted tissues of the body, and the decaying subtance of diseased organs, dissolves ataracts, and cures deafness and im-

ORIGIN OF DISEASE. The origin of all disease, the contagion of fevers, smallpox, cholera, and grip, is the operation of mental, not physical forces. We are now told that the microbe is one of nature's scavengers, and that it is simply a low form of animal life feeding on a still

ower form. Nansen tells us that in Greenland there are no such things as colds. These the practical significance of the very maining portion? Would not the very heart and soul be taken from the whole heart and soul be taken from the whole they fall to cure. The diseases known they fall to cure. The diseases known to an

have all the symptoms of the diseases that they are studying. Fear kills people, stops the action of the heart, and turns the hair of the head gray in a single night, Jealousy, licentiousness, hatred, and quick temper, create hundreds of recognized diseases. Morbidity, introspection, fear, and selfishness evolve and perpetuate countless disorders. But a pure mind means a pure body. Christian Scientists respect the hon-

est opposition of physicians and sin-cere physicians whose education and practice have been along lines diametrically opposed to metaphysics. This class of opponents will be honest in investigating and accepting the higher method. When called upon to admit that medicine, either allopathic or homosopathic, is a science, Scientists politely retuse such admission. John Muson Good, M. D., F. R. S., of London, England, says: "The effects of medicine on the human system are in the highest degree uncertain, except. indeed, that they have destroyed molives than war, pestilence, and famine combined." Dr. Oliver Wendell Holmes declared that "mankind had been drugged to death and the world would better off if the contents of every apothecary shop were emptied into the sea, though the consequences to the fishes would be lamentable John Forties, Fellow of the Royal Colege of Physicians, London, says: systematic or theoretical classification of disease or therapeutic agents ever

of disease or therapeutic agents ever yet promulgated is true, or anything like true, and none can be adopted as a safe guidance in practice."

Christian Science practitioners diag-nose every disease mentally, in order to find its true cause. They study men-tal, not structural anatomy. They spend years in deep research and prac-tical demonstration in the realm of tical demonstration in the realm of mental causation and in the therapeu-ties of mental healing. The allopath deals almost entirely with physical causation. The homocopath take mental symptoms largely into account The Christian Scientist deals entired with mental causation and tempera-mental conditions. Results in Christian Science prove the scientific basis of its modus overandi, for it heals housands of cases that the practitionrs of both allopathy and homeopathy

have pronounced hopeless. ORGANIC DISEASES HEALED. The following cases of Christian cience healing are offered as illustrations of the scope and possibilities of the system. Confirming details of each case, with regular medical confirnation, will be gladly furnished any

First. A case of locomotor ataxia or progressive paralysis, attended with impaired vision and tonsillitis, had taken medicine for over three years, from one to ten doses a day, and had grown steadily worse; had had without successful results some of the best physicians in Chicago, Ift., and Euffale, N. Y., was entirely heated by Christian Science in a few weeks.

Second. An instance of what had been pronounced an incurable cancer of the nese, pronounced such by a medical expert, treated by Christian Science and healed in three months: afterward examined by same special-ist, who admitted the complete cure, but affirmed his complete failure to master the modus operandi of the de-

JONAS LONG'S SONS.

JONAS LONG'S SONS.

THE LADIES' HOME JOURNAL FOR MAY NOW READY.

## Paine's Celery Compound Has Driven The Store System

The Jonas Long's Sons' principle of business is to never refuse the exchange of an article that proves unsatisfactory-or the refund of your money if a satisfactory exchange cannot be effected.

By an experiment of thirty-nine years standing we have found this to be the only safe policy of merchandising-our public must be satisfied with what they

This store rule applies universally. The little tot of a half dozen years is as safe to buy as the aged and experienced. A store law that is no respecter of persons.

### Men-Tailored Garments

Manufacturers' Sale of Taflor-Made Suits, Jackets and Skirts, was even greater than we anticipated. An eager, buying throngmany going away happy in the possession of garments bought at half their actual worth. Not too late today.

Prices on Suits start at \$4.98; on Jackets at \$2.98; on Skirts

at 98c-this for a very pretty one of figured mohair. Prices on Capes start at \$1.50-an all-wool material, lace and ribbon

### Important Sale of Silks

Not Silks that will wear like a sheet of steel (for such do not exist)-but silks of honest value that will exceed your expectations for goodness at the unusually low prices named. Certainly much less than you'll pay elsewhere for qualities that are interior.

Five prices will give you some idea to go by: Fine Corded Wash Silks—very rare value, yard, Best Corded Japanese Wash Silks—all colorings, yard, All Silk Taffeta in black only, osc kind, yard 22-linch Black Gros Grafin Silk, 81,25 kind, yard Finest Printed Foulards and Corded Taffetas, yard

## For the Graduation Gown

'Commencement Day' is just around the corner. The essay

probably ready. How about the gown? Our showing of White Goods, including India Linons, Persian Lawns and Organdies has no counterpart in this locality-and

all fairly priced. Then there are the new White Piques .. 121/4c to 50c yardnever so stylish as this season. Why not send for samples-today?

## The Royal Worcester Corsets

one announcement in the Ladies' Home Journal-witness the back

cover of the May number out today. Of course we carry the Royal Worcester in all its styles. The "Dowager"-one of their models, designed for stout figures, has no peer at any price.

# Jonas Long's Sons

epileptic fits, having had the same from birth, at the time she began treatment was having forty spasms a day, en-tirely healed in less than six months. Fourth. A case of consumption of the lungs in the second stage of that disease, accompanied with great pain,

lassitude and other attendant symp-toms of that disorder, healed in less than seven months.

Fifth, A case of typhoid fever in an advanced stage when Christian Science treatment began. Treatment was carried on through the absent method—a common method among metaphysical practitioners. The pa-tient was in Paris and the practi-titioner was in New York. Cables re-cording the progress of the case were

exchanged, and in five days complete restoration took place.
Sixth. The case of a boy seven years old who had been drowned. After the body had gone down the third time and was fast floating out to sea with the latter the sea. with the cbb-tide, drifting some seven feet beneath the surface of the bay, it was brought to the surface and without any attempt to restore artificial breathing, or manipulate the body, complete restoration was effect ed through mental therapeutics. Life was made manifest in less than two minutes; the patient was out of dan-ger in about fifteen minutes, and in thirty minutes was entirely restored through continuous treatment. The vomiting some forty minutes after the water left the stomach by natura iest treatment was given.

Seventh—A case of curvature of the spine and contraction of the cords of the feet, toes drawn under so that the ould not be straightened, accompanie emplete strength and health was de monstrated, the spine made straight and contraction of cords entirely de-Eighth—A case of a jady about 40 cars of age who had since her fifth

year been under medical treatment for organic valvular disease of the heart A number of physicians had pronounced the case incurable. At the time she consented to try Christian Science she was confined to her room and taking sixty drops of digitalis daily with a liberal allowance of stimulants. In less than three months sho was entirely cured and able to go any there and do any reasonable thin; vithout any unnatural physical effect

Hegular medical confirmation of ages two, three, four, five and eight will be furnished any honest skeptic. The principals in cases one, six an seven can be communicated with relating to the authenticity of all details cited. CONCLUSION.

Common Sense and Christian Science are synonymous terms, Christian Scientists the world over have enlist ed in a campaign for the establishment of contagious health, normal strength, and individual dominion,through scientific law, over sin, materialism and dis-ease. In their ranks are to be found thousands of former invalids, hundred of former agnostics, materialists, Hebrews, religionists, evangelical and lib eral Christians. Religion and healin have become one, the undivided gar ment of primitive Christianity again come into the possession of mod-ern Christians, and rationality, legic,

Scriptural confirmation and results are all on the side of Christian Science. Third. A little girl suffering from | Smoke the Popular Punch Cigar, 16c New York Announcement.

### HORNER'S FURNITURE

is the subject of this announcement. The term stands for everything that is reliable and fashionable in Furniture, in both the simple and ornate lines, whether wanted for town or country homes. Two other important features are the moderate prices at which the goods are marked, and their un-

equalled assortments. Dining-Room Furniture in all finishes of Antique, Belgian, Flemish and English, with Tables, Dining Chairs, China Closets

and Side Tables to match. Bedroom Furniture in all the various woods and fmishes, including special lines for country homes. Brass Bedsteads in over 70 patterns from \$15.00 upward, Enam-eled iron Bedsteads from \$4.50 up.
