He ran for the road and reached it just in time to see his horse make a mad dash up the road. His only chance now was a tree, and fortunately he "shinned" up one that large enough sustain his weight. The wild-cat made no attempt to reach Crandall, but stood howling and screaming at the base of the tree. Crandall was now corry that he threw away his rifle. To add to his distress, smoke began to fill the air, and he realized that a forest fire was approaching.

Presently burned leaves and cinders fell into the tree, but Crandail could family. stand it no longer. THE EAGEN-SHEW CASE

It is understood that the state board of pardons will today take action in the matter of commuting the death sentences of Egen and Shew to imprisonment for life. A petition signed by 2,000 citizens of Susquehanna county postmasters and forty-five justices of the board do not interfere with the death sentence of the condemned men. It is quite generally believed that the men will suffer the death penalty.

Gave a Great Exhibition.

Sevengalla's street performance of nind reading yesterday afternoon created unusual interest in the circles that the committee had arranged to make experiments an immense crowd witness the start. The committee selected included W. T. O'Brien, W. S. Holbert, John Cunniff, J. D. Keator and T. Owen Charles,

According to previous arrangement the members of the committee were given an opportunity to hide any article they saw fit and without speaking to anyone Sevengalla agreed to find the hidden object. They selected two visiting cards and took their places in a carriage, while Sevengalla remained at the Academy, and were driven to City hall, where the cards were enclosed in a bag and placed in the desk of Mr. Hatton, Mayor Moir's private secretary. Upon the return of the committee to the Academy Sevengalla. was blindfolded and placed upon the driver's box beside Mr. Charles. word had been spoken up to this time and as Sevengalla grasped the reins the crowd stood breathless and expect-

### Special Matinee Today.

Chauncey Olcott, the sweetest singer on the stage and one of the most popular matinee idols now before the theater-going public, will present his latest and greatest sucess, "A Romance of Athlone," at a special matinee to be given at the Lyceum this afternoon. The play is a strong romantic dramaof the period of 1800 and the scenery and costumes are most beautiful.

Five new songs, including the famous Olcott "Lullaby," will be rendered during the performance and are always greeted with great enthusiasm by the adies and children.

Mr. Olcott's matinee will undoubtedly be largely attended by the ludies and children, as he has always been a prime

ago Mr. Sully put aside this great comedy to produce dramas, but he has had so many requests for the "Corner Grocery," that he has decided to make one more tour of the country with the play that made him fame and fortune. Mr. Sully made a run of 160 nights in New York city with this play. New York press, at the time of its first presentation, styled it the funniest show on earth and it has been known as that ever since. Mr. Sully will be seen in his favorite character of "Daddy Nolan." His support is excellent and is composed of some of the best people in the profession. There will be several clever specialties, and to add strength to the performance the "Empire Quartette" has been engaged as a special feature. The engagement is for three nights and two matinees, at Academy of Music, commencing Thursday, May 4.

### THE MARKETS.

Wall Street Review.

By Associated Press. New York, May 2.—Stock prices today ranged over a wide radius and ended with good gains for the day. A considerable advance, ranging from 1 to 4 points in the specialties occurred in the first half hour, aided by purchases of round amounts of the international stocks for amounts of the international stocks for London account. Stock values then suffered on a continuance of yesterday's heavy liquidation and receded sharply, the specialties losing from 2 to nearly 6 points. By noon liquidation had practically ceased and there were railies which among the specialties ranged from 3½ to 8½. The standard railways moved far less which yexcept for Burlington and Delaware and Hudson, which made net gains of 1½ and ½ respectively. Among the specialties the net gains extend to 4½ in Air Brake, 6½ in Metropolitan, 2½ in Manhattan, 3½ in Brocklyn Transit and an average of 2 points in Federal Steel, Sugar, National Steel and Tennessee Coal and Iron. By Carrington & Cusack.

New York, May 2.—The market opened strong and at quite a free advance on covering orders from the late sellers of yesterday afternoon. Steel and Wire and Federal Steel were both strong on rumors that the company was to be absorbed by a big steel combination including among others, National Steel. Tin Plate and Carnegie. After the opening, however, the market met very free liquidation throughout the whole list and at once sold off quite sharply, in some cases going below the low points of last night. The rumors of possible gold exports and the overbought position of the market, with some fears as regards the Ford bill, together with the forcing out of lightly margined speculators has caused a decline with the consequent clearing of the financial atmosphere. The general situation is a strong one and the stock market has been very heavily purchased by strong inside interests, and will undoubtedly sell at much higher prices within the month. London for the first time in the last three weeks has been a very large buyer with purchases extending pretty much throughout the whole list. The crop reports of the day as ing pretty much throughout the whole list. The crop reports of the day as iist. The crop reports of the day as usual have been of more or less conflicting character with the general consensus of opinion that the damage has been overstated. Burlington declared the usual dividend of ½ per cent, which had a favorable effect on the Grangers. The market seems to us a great purchase at present prices and while there is a certain lack of public buying, yet the inside interests are so committed to new trade combinations and are so closely identified with those already launched, that it is not possible for them to withdraw from ten market at the present time and we think that the buil moment has in no wise run its course. Standard issues and the betetr chas of industrials are all a purchase for higher figures.
