

HAS REFUSED TO GRANT NEW TRIALS

TWO OPINIONS HANDED DOWN BY JUDGE LOVE.

Cases Were Tried Before Him When He Was Specially Presiding Here Last January—One of the Cases Is Ellen Taylor Against the City of Scranton and the Other Joseph Anselby & Son Against E. M. Tewksbury—Matters at Issue in the Cases.

Judge John G. Love, of Bellefonte, filed two opinions with Prothonotary Copeland yesterday in cases that were tried before him while he was specially presiding in this county last January.

One of the cases was Ellen Taylor against the city of Scranton, an action in trespass to recover damages for alleged injury to the property of Mrs. Taylor, located on Ninth street, West Scranton. The action came into court on an appeal from a verdict of viewers who were appointed by the court to view the premises and assess damages.

In making certain improvements on Robinson street it was charged that Ninth street in the vicinity of the plaintiff's property was reduced in width.

On Jan. 12 last the jury before whom the case was tried returned a verdict in favor of the city of Scranton, and an application for a new trial was made at once on behalf of Mrs. Taylor. In concluding his opinion Judge Love said:

"We are not persuaded that we committed any error in our submission of the case to the jury and see no reason for setting aside the verdict.

"And now, May 6, 1899, the rule is discharged and a new trial refused and judgment directed to be entered on the verdict in payment of the jury fee."

In the case of Joseph Anselby & Son against E. M. Tewksbury a new trial was also refused.

It was an action on a seire facias on a mechanics' lien filed on Feb. 13, 1898, on which they claim a balance of \$105 for lumber furnished to Charles Van Valen, who had entered into a contract with Tewksbury & Stiles for the repairing of a double house on Adams avenue. The case was tried last January and a verdict of \$51.79 returned in favor of the plaintiff. An application for a new trial was made to Judge Love and in the opinion handed down yesterday the request for a new trial was refused.

Paul Was Discharged.

There was a hearing before Judge Archibald yesterday in the Andrew Paul habeas corpus case. He was committed by Alderman L. N. Roberts, of the Second ward, to wait trial on charges of larceny and defrauding boarding house keepers.

Judge Archibald decided that the evidence was not sufficient to warrant the holding of Paul and directed that he be discharged from custody.

Action in Trespass Against City.

Samuel Tanhauser yesterday began an action against the city of Scranton, Street Commissioner P. J. O'Boyle and Edward A. Fitzsimmons to recover \$500 damages.

Mr. Tanhauser alleges that on Nov. 11, 1888, the city, by its agents, broke down his fences and entered upon his land and caused the damage for which he wants the amount of damages above noted.

TAX DODGING IN ITALY.

Government Is Taking Steps to Capture the Offenders.

Rome Correspondent to the London Post

It is always said that Italy is a heavily-taxed country, but it might be more truly said that the taxes are heaviest for those who are unable to avoid paying them. Among the wealthier classes, manufacturers and professional men in Italy a great deal of what Americans call "tax dodging" goes on, and if the "tax dodger" possesses political influence he is often able to escape punishment.

At the beginning of the year the chamber passed an important law on infornitull sul lavoro, or accidents to workmen, by which the responsibility of employers for accidents happening to their workmen was defined. In it employers were called on to state the number of workmen in their employ and the number of steam engines and other machines in their factories.

A large number of Palermitan employers, however, feared that if they informed the government of the real number of workmen in their employ the tax agent might be able to calculate the amount of their profits and increase their income tax. In fact, out of 1,000 steam engines in the Palermo district only one has been reported to the authorities, while of the 3,000 men at work in the sulphur mines only 2,500 have been declared. A government inspection is asked for, and meantime the employers who have not conformed to the law are being prosecuted.

America's Greatest Medicine is Hood's Sarsaparilla, because it was originated and prepared by competent, experienced and educated pharmacists from the best known alternative, diuretic, anti-bilious remedies and stomachic tonics, by a combination, proportion and process unknown to other remedies and giving to Hood's Sarsaparilla merit peculiar to itself. It has a record of cures unequalled in the history of medicine. It has accomplished many marvelous cures when all other medicines failed, and even when cure seemed impossible, and really was impossible by any other medicine than Hood's Sarsaparilla. It has effected wonderful cures of rheumatism, salt rheum, psoriasis, blood poisoning, boils, pimples, the urticaria, catarrh and other troubles originating in or promoted by impure state or low condition of the blood. It has cured thousands of cases of dyspepsia, indigestion, nervous dyspepsia, gastritis, catarrh in the stomach and other kindred troubles. It has given nerve, brain and mental strength in cases of nervous prostration and nervous debility, cured that tired feeling and loss of appetite.

Another Chapter in Piques

We do not recall a season when price-dropping in Cotton Goods began so early. Price cuts are frequently heard of in June and July, when the demand for light stuffs begins to slacken, but to enjoy them now at the very time the buying is at its best, is almost without precedent. No matter, let the manufacturers bury their own losses and sing their own requiems. The feminine public, out shopping for exactly such fabrics as these, cares little for precedents or theories in the presence of these facts.

At 18 Cents a Yard Printed Piques, in Dots, Stripes, Figures and Checks—the designs all this season's, and the cloth and finish all that could be desired in the best 25-cent goods. Choose from the lot at 18c.
