

GAMES PLAYED IN ATLANTIC LEAGUE

SCRANTON LOSES TO ALLENTOWN IN THRASOME FIGHT.

Wilkes-Barre Shut Out Paterson and Richmond Won from Newark. Lancaster Comes the Leaders in a Lively Contest—Newark Goes to Fourth Place—Reading, Richmond and Wilkes-Barre Are Tied for First Place—Result of Games in the National League—Gossip About Players.

Scranton lost to Allentown yesterday in a long drawn-out game. Wilkes-Barre, by shutting out Paterson, ties Reading and Richmond for first place. Newark's defeat by Richmond places her in fourth place.

Percentage Table. Reading, W. L. P.C. Richmond, W. L. P.C. Wilkes-Barre, W. L. P.C. Newark, W. L. P.C. Scranton, W. L. P.C. Lancaster, W. L. P.C. Paterson, W. L. P.C. Allentown, W. L. P.C.

Where They Play Today.

PLAYED LIKE AMATEURS.

Very Sloppy Game at the Park Between Scranton and Allentown. Scranton Had Six Errors to Its Credit.

Scranton was defeated by Allentown yesterday afternoon by the score of 14 to 4. The game was witnessed by only three hundred spectators. Gilbert appeared for the home team for the first time here, playing in Lippert's place in left field; Lippert playing second, O'Connell's hand being yet quite sore.

Gilbert had but one chance in left field and that was in the eighth inning, when Stimmell flew out to him. He runs bases well and is sure to prove satisfactory.

Scranton went to the bat first and Knoll was given his base on balls. Lippert and Dillon scored. Allentown made three runs in the first. Scranton rolled up four runs in the second and Allentown scored one. In the third inning, Allentown made six runs, Jim DeLahanty got to first on Riskey's error, scoring later.

Lippert fumbled Stimmell's grounder, which resulted in a run. Henry McIntyre and McCormick scored, making Allentown's score ten to Scranton's six. In the seventh inning Scranton scored two more and then went out one, two, three. In the seventh Allentown made three runs on errors. Scranton made three runs in the eighth, making the total runs eleven.

Jim DeLahanty got to first on Riskey's error, scoring later. Lippert fumbled Stimmell's grounder, which resulted in a run. Henry McIntyre and McCormick scored, making Allentown's score ten to Scranton's six. In the seventh inning Scranton scored two more and then went out one, two, three. In the seventh Allentown made three runs on errors. Scranton made three runs in the eighth, making the total runs eleven.

Richley made the only sacrifice hit during the game. The score: SCRANTON. AB. R. H. O. A. E. Knoll, cf. 5 0 1 0 1 1 1. Lippert, 2b. 5 2 2 1 1 1 1. Dillon, 3b. 5 2 2 1 1 1 1. Egan, lf. 5 2 2 1 1 1 1. Paterson Shut Out.

Wilkes-Barre, May 9.—Wilkes-Barre shut out Paterson today. Both sides batted sharply, but the visitors were unable to hit the ball when they had men on base. Connors, an amateur, pitched for the locals and was quite effective. Score: Paterson, 0; Wilkes-Barre, 0.

Reading Outplayed by Lancaster.

Lancaster, May 9.—In a splendidly played game this afternoon, Lancaster defeated Reading by a score of 8 to 3. The locals bunched hits on Murphy, while Reading were unable to connect with Wilhelm at the right time. Reading was outplayed at every point. Lancaster putting up an errorless game. Attendance, 1200. Score: Lancaster, 8; Reading, 3.

One Run for Newark.

Richmond, May 9.—An error by Wrigley in the seventh inning today gave Newark its only run. Bishop pitched an elegant game. He had everything his way and had the Newark team going all the time. The game was a good one to look at and a large crowd enjoyed it. Shannon's hitting and Hess' work were bright features. Score: Richmond, 0; Newark, 1.

RICHMOND.

AMATEUR BASE BALL NOTES.

The Twilights would like to know if the Young Americans will play them on Saturday, May 14. If so please answer through The Tribune as quick as possible. Ewan H. Bevan, manager; Palmer or Boyton captain. They will play any base ball club 12 years old or younger.

DIAMOND PICK UPS.

You can get a great many second-seen and some first-seen diamonds, but you won't see finer work than was done by Jack McMahon at short field. And yet he had a little hard luck—Wilkes-Barre Record.

JIMESON'S REVENGE.

A story is told of Jameson, the Indian twirler of the Wilkes-Barre ball team, which shows that he is the possessor of good, healthy temper. Jameson comes from the Seneca tribe, who have a reservation near Tonawanda, N. Y. He is a graduate of the Carlisle Indian college, and a very fluent speaker. His oration before the congressional committee at Washington, two years ago, was of the highest order. Jameson started professional ball playing in the Cumberland Valley league, with his college team, in 1896. He pitched for his team during the seasons of 1896 and 1897 and was signed by Philadelphia last season, but later was farmed out by that team to Wilkes-Barre, with whom he is twirling this season.

cheer their home team to victory, if possible; but he did dislike to have some unneeded "pale face" use him for a special target.

CONCERT TOMORROW NIGHT.

Programme That Will Be Rendered by Fanny Mendelssohn Society. The following is the programme of the concert to be given tomorrow evening at the Lyceum by the Fanny Mendelssohn society, J. Alfred Pennington, conductor, assisted by Madam Katharina Flisk, contralto, and Fraulein Leontine Gaertner, cellist.

PART I.

- Song—Humel Stars of the Summer Night—West Fanny Mendelssohn society. Violoncello solo—Servalis Miss Gaertner. Twilight—Abt Down in the Dewy Dell—Smart Fanny Mendelssohn society. Contralto solo, "Amour, Venus Alder ma Fiancee"—Saint Saens (From Samson and Delilah) Fanny Mendelssohn society. Song of the Reapers—List Fanny Mendelssohn society.

PART II.

- Contralto solo, a. Luigi del Caro Bene (Old Italian)—Secchi b. Lealie Lindsay—Old Scotch c. Bomdermer Stream—Old Irish d. The Lass with the Delicate Air (Old English)—Dr. Arne Mrs. Flisk. Approach of Spring—Niels W. Gade (With accompaniment of four hands) Fanny Mendelssohn society. Violoncello solo, Berceuse—Poppo b. Vito Miss Gaertner. Rock-a-Bye—Neldinger Fly, Singing Bird, Fly—Elsgr Fanny Mendelssohn society. Contralto solo, a. The Rosary—Nevin b. The Rose—Hastings c. To a Rose—Hastings d. The Red, Red Rose—Hastings Mrs. Katharina Flisk. Peggy—Nevin St. John's Eve—Chaminade Mrs. Katharina Flisk and Fanny Mendelssohn society.

ANOTHER D. L. & W. CHANGE.

Timekeeper and Clerk Has Been Reformed from Kingston. R. L. Hubbell, who for nine years has been employed as timekeeper and clerk in the Delaware, Lackawanna and Western railroad shop offices at Kingston, has been transferred to Syracuse, N. Y., where he will hold a similar position in the company shops. He will leave an successor at Kingston, as that position has been discontinued.

WILL RUN DOUBLE HEADERS.

Great Bend Freight Trains to Be Lessened in Number. Freight trains on the Northern division of the Lackawanna between this city and Great Bend are to be run as "double headers" hereafter. By running larger trains with two engines, the number of trains and trainhands will be lessened.

MEETING OF DELEGATES.

Held in St. John's Hall, Pine Brook, Last Night. In St. John's hall, Pine Brook last night, there was a meeting of the delegates from this city, who will attend the annual convention of the Catholic Total Abstinence Union of the Diocese of Scranton, which will be held in Hartshigh next week.

HICKS ARRESTED AGAIN.

Charged with the Theft of Three Dollars. John Hicks, recently released from a two and one-half years' term in the penitentiary for robbery, was accused last night for a similar offense. Patrick Hughes, of Green Ridge, was getting ready for Hicks and some others in a Spruce street saloon yesterday morning and paid for the drinks with a \$5 bill. When the bartender placed the change on the counter Hicks grabbed \$3 of it and ran out.

ELECTION IN OLD FORGE.

Voters Will Select Officers for Borough of Old Forge on Saturday. On Saturday the voters of the new borough of Old Forge will elect officers and within ten days the government of the new borough will be organized.

Aldermanic Hearings.

Mrs. A. E. Mortimer, of Mineral street, was held in \$300 bail for her appearance at court yesterday by Alderman Kasson, on a charge of beating and threatening George, the young son of Mrs. Carrie Walter, a neighbor. Mrs. Walter appeared as prosecutor, and alleged that this was the second time Mrs. Mortimer had threatened her son and injured him, the first time occurring in July, 1898.

Immune Regiment at Camp Meade.

Camp Meade, Pa., May 3.—The Fifth Immune regiment, which has been doing duty in Cuba, arrived here tonight. They will be mustered out of service some time next month.

The Prince of Wales PRESIDES AT A MEETING OF THE SOCIETY FOR THE PREVENTION OF CONSUMPTION.

The Latest Scientific Data on the Cause and Cure of Consumption, Presented by Sir William Broadbent.

The appalling ravages of consumption in England have led physicians and philanthropic persons to organize into a society having in view the prevention of the disease by the elimination of its causes and by education of the people as to the wide spread danger of contamination. In the remarks introduced by Sir William Broadbent's speech it was stated: "Of all enemies to human life in this country the tubercle bacillus is the most powerful. By far the commonest and most fatal mode of its attack is by the invasion of the lungs. But it may settle in the joints, producing white swelling, or in the spine, thus producing nine-tenths of all humpbacks and spinal abscesses; in the skin and its glands, when it is called scrofula; and again in the case of chil-

children in the bowels and their glands; and upon the brain coverings, producing meningitis." Sir William Broadbent said: "We learn from the returns of the Registrar General, that nearly 60,000 deaths are registered every year as due to tuberculosis, in England and Wales alone, and to this number may be added a considerable percentage of the deaths set down to acute affections of the lungs in which tubercle has played an unrecognition part."

60,000 VICTIMS YEARLY.

Stop and think of that fact a moment. In a little country like England, including Wales, a country which could be swallowed up in its entirety by one single state out of the 45 States of the Union, there are more than 60,000 people die every year of tuberculous disease. Nothing can speak for the deadliness and insidiousness of that disease like those plain figures. If sixty thousand persons died each year of cholera in an area no larger than that of the State of Illinois, there would be an entire exodus from the state. If every year, unfailingly and unchangeably yellow fever claimed 60,000 victims in a similar area, that territory would be utterly forsaken.

AMERICA AHEAD.

The tribute paid to this country by the scientific lectures described "The deadly character of consumption, the widespread area covered by the disease, the number of its victims, the perplexing problems connected with its cause and cure, have drawn the attention of the keenest scientific minds of the world, therefore, to the tubercle bacillus. Of all those who have given laborious days and nights to the questions involved in the treatment of the causes of consumption, no one has achieved more remarkable success than Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. In an experience of more than thirty years, assisted by an associate staff of nearly a score of specialists, he has demonstrated that in cases of "weak lungs," spitting of blood, bleeding of the lungs, bronchitis, obstinate lingering coughs and conditions which if neglected or unskillfully treated lead to consumption, there is help and healing in almost every case by the use of Dr. Pierce's Golden Medical Discovery. How uniform the action of this medicine is found to be may be inferred from the fact that in all the thousands of cases treated and recorded, ninety-eight out of every hundred have been perfectly and permanently cured by the use of the "Discovery," and the other two have acknowledged the help received from the medicine.

IT ALWAYS HELPS.

The cures effected by the use of "Golden Medical Discovery" are the more remarkable, because in a large number of cases, those who use the medicine are in an exhausted condition, having tried all other means of cure without result, and having been

given up by doctors to die. A good example of such cases is offered in the following letter: "About five years ago," writes Cornelius McCawley, emt. of Leechburg, Armstrong Co., Pa., "I was taken with hemorrhages and I had eighty-one of them in all; sometimes spitting five pints of blood at one time. It brought me down so low that I could not walk nor get any sleep. I tried a great many things and went to doctors in Philadelphia, but got no relief. My friends gave me up to die, and indeed gathered two or three times to see me die. My doctor did all he could for me, was very attentive, but could not stop the hemorrhages, and all gave me up to die, with consumption. I got a little book of Dr. Pierce's, and while looking over the names in the pamphlet of those who stated that they had been cured by Dr. Pierce's Golden Medical Discovery I found one case that seemed to be exactly like mine—the case of Mr. C. H. Harris. I sat down and wrote to him describing my case. In about one week I got an answer from him telling me that Dr. Pierce's Golden Medical Discovery saved his life, and he advised me to try it. I told my doctor I would try it and he said, 'You may as well take water,' but I thought it was only 'die' anyway, so I wrote to him and commenced the use of the 'Golden Medical Discovery.' When I had taken six bottles I had eight bad

hemorrhages, I wrote to you and you sent me word to keep on with the 'Discovery,' and the hemorrhage would stop after a while. I thank the Lord it did. That was over two years ago and I have not had any bleeding since. I have taken in all forty-two bottles of the Golden Medical Discovery, and eight bottles of the 'Pellets,' and today I can do a great deal of work. I can truly say that the medicine cured me through the blessing of the Lord.

"There are a great many using the 'Golden Medical Discovery' through my recommendation. I have people coming to me almost every day and saying, 'What did you take?' I never expected to see you get so well. I am a walking, living advertisement of your grand medicine. I tell people when they ask me that I owe all to Dr. Pierce's Golden Medical Discovery. I had a young man come to me today, bleeding from the lungs; I told him to take the 'Discovery' and it would cure him. May you live long to bless mankind with your medicines."

Mr. McCawley's case is a fair specimen of the cases which are presented to Dr. Pierce, and his cure is no wonder, remarkable, nor does it differ from the generality of cures which follow the continued and conscientious use of Dr. Pierce's Golden Medical Discovery. "I was very sick indeed," writes Mrs. M. E. Sweeney, of Felton, Kent Co., Delaware, "and our family doctor said I had consumption. I thought I must die soon for I felt so awful bad. Had a cough, spitting of blood, was very short of breath, in fact could hardly get my breath at all some times. I had pains in my chest and right lung, also had dyspepsia. Before I took your 'Golden Medical Discovery' and 'Pleasant Pellets' I was so weak I could not sweep a room, and now I can do it, a small washing, in fact could hardly rest my feet. I worked in the canning factory this fall, and I feel like a new person. I thank the good Lord, and also Doctor Pierce for making this good medicine. I believe that the Lord and your medicine have saved my life. I was sick over two years ago. I took thirteen bottles of the Golden Medical Discovery," and four vials of Dr. Pierce's Pellets."

It is of no use to theorize on these cases. The diagnosis of the attending physician is satisfactory. "Our family doctor said I had consumption. All gave me up to die with consumption. The doctors may have been wrong. But these facts are true. There was a cough and "Golden Medical Discovery" cured it. There was spitting of blood and "Golden Medical Discovery" cured it. There was pain in the chest and lung and "Golden Medical Discovery" cured it. These were people given up to die, who are alive and well owing to the use of "Golden Medical Discovery." These are facts, and they are facts of vital value to every similar sufferer.

THE FIRST STEP TO HEALTH.

Dr. McCawley says, "I sat down and wrote to him (Dr. Pierce) describing my case." That was the first step to health. It has been the first step to thousands who have accepted Doctor Pierce's offer of free consultation by letter. To every sick or ailing person, suffering from chronic disease, Doctor Pierce extends the invitation to consult him by letter absolutely without charge or fee. Behind that offer stands thirty years of experience as chief consulting physician of an institution of world wide repute, the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. The record of hundreds of thousands of perfect cures; and the skill of an associate staff of nearly a score of physicians, every man a specialist. No similar offer has ever been made which has had behind it an equal value of science and of skill.

Write in strictest confidence and you are treated as strictly private and sa-

credibly confidential, and all answers are mailed in plain envelopes bearing on them no advertising or printing of any kind. Address Dr. R. V. Pierce, Golden Medical Discovery Co., Buffalo, N. Y.

"Unlike many preparations, 'Golden Medical Discovery' is a strictly temperance medicine containing no alcohol, whiskey or other intoxicant and being entirely free from opium, cocaine and other narcotics.

"There is no substitute for Doctor Pierce's Golden Medical Discovery. 'There is no other medicine 'just as good.' Your own hope of being cured lies upon getting the 'Golden Medical Discovery.' Resist upon others."

\$25,000 GIVEN AWAY.

In the past year Dr. Pierce has given away copies of his great medical work, 'The People's Common Sense Medical Adviser' a total cost (exclusive of postage) of \$25,000. This great book has been aptly named 'The Bible of the Body.' It treats of the great questions of human origin and reproduction in a common sense way, and points the path by which health may be obtained and preserved. The work contains 1908 pages and over 700 illustrations, and is sent free on receipt of stamps to defray expense of mailing only. Send 21 one-cent stamps for the paper bound book, or 31 stamps for the cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

OBITUARY.

Barbara, the 4-year-old daughter of George Miller, of 623 Cherry street, South Scranton, died Monday. The funeral will be held this afternoon at 2 o'clock. Services will be at the house.

Joseph Moyle died at his home on North Main street yesterday morning, after a week's illness of pneumonia. The deceased was thirty-eight years of age, and is survived by his mother and father, and a sister, Mrs. Mary Rosary church, Friday morning, and interment will be made in Archbold.

Privates Michael Joyce, Thomas King and John Dudley, who did service with the Eleventh regiment, United States regulars, in Porto Rico, returned home last evening.

The Lackawanna township school board will meet this afternoon. Teachers will receive their monthly stipend. The employees of the Pyne, Taylor and Holden collieries will be paid today.

MINOOKA.

Why the Sky is Blue. Did it ever strike you to inquire why the cloudless depths of the sky above us is so delicately blue? It isn't that the gas we call air is in itself blue. So far as we know it is quite transparent and absolutely colorless. No; the blue comes from reflected light.

Air is never pure; you couldn't live in it if it were. Countless millions of tiny particles, chiefly of water, are always suspended in it, and these arrest the free passage of light. Each particle has a double refraction—one internal, the other external—and so the reflected rays suffer the usual result of what is called "interference," and show color.

Philosophy.

The signs is bad when folks commence A-tin-tilin' fault with Providence, And belkin' cause the earth don't shake At every cracklin' from their talk. No man is great till he can see How less than little he can be. He'll step to soft, and stark and bare He hung his sign out anywhere. My doctors is to lay aside Contentions and be satisfied; Jest do your best, and praise or blame He hung his sign out anywhere. My doctors is to lay aside Contentions and be satisfied; Jest do your best, and praise or blame He hung his sign out anywhere. My doctors is to lay aside Contentions and be satisfied; Jest do your best, and praise or blame He hung his sign out anywhere.
