OLYPHANT.

Attracted by the report that the sewer company were endeavoring to have another franchise passed by the council, the council chamber was filled with citizens at Monday night's meeting, but the subject was not touched upon during the meeting. In the absence of President Van Sickle, James W. O'Brien was appointed chairman. Bills to the amount of \$1,400 were passed, being divided up in the various departments as follows: Streets, \$235; general borough account, \$425; police; electric light, \$400. The bill of

the Olyphant Water company was the cause of considerable debate, Mr. Howard claiming the charges to be excessive. Ex-Treasurer McLoughlin's bill of \$97 was referred back to the auditing committee to investigate. The burgess made his monthly report, in which he spoke of the bad condition of Dunmore street, and also the action he had taken in preventing the sewer company from interfering with the borough streets. Mr. Howard asked that an appropriation be made for the police, so that they could receive their pay more regularly. The matter was deferred until the next meeting when the levies for the year will be made and a police fund established. James H. Spain, an electrical expert, of Scranton, made a report on the condition of the electric lighting system in the borough. He pointed out many defects in the wiring and gave an estimate of the amount it would take to put everything in good working order, which was about \$400. The report was accepted. For his services he was allowed the sum of \$25. An obstructed water course in Grassy Island was brought to the attention of the council. By allowing a culvert to become blocked near the borough line, water has flowed over properties in that section, and a complaint was heard from the attorney for Winton borough, stating that unless the matter was remedied at once legal steps would be taken against the borough. The matter was referred to the street committee. A communication was read from the auditors asking council to appoint a committee to investigate some orders which have been drawn and no explanation given on the minutes for which they have been issued. Messrs. Robinson and Lasher were appointed. An appropriation of \$200 was granted to the board of health. The Clappin Shoe company, through Mr. H. Lavin, asked the borough to exonerate them from taxation for the period of ten years as they are about to locate here at once. The request was granted. The secretary made his report for the month of March as follows: Collections, \$257.85; expenditures, \$306.53; receipts in excess of expenditures, \$50.92; uncollected accounts, \$493.78. John Hoban, an old rouser, who knows both the inside and the outside of the jail, was up before the mayor on the old complaint and was given twenty-four hours down stairs in bed bug rug to ruminate upon the main. An innocent looking duke, who had unintentionally filled up on "deep rock," was told to go home and to work, which he did with the greatest alacrity.

The reception tendered the pastor of the East Side Presbyterian church last evening on the occasion of his first anniversary was one of the most brilliant social events that has been consummated in church circles here in some time and the happy result was owing to the excellent committee consisting of Mr. and Mrs. C. The serious depression of the surface over the Schooley mine, operated by the Pennsylvania Coal company, in the vicinity of Sturmerville, caused considerable alarm for the officials, besides creating much excitement. The surface dropped several feet and extended over an area of one thousand feet. The location was in front of the Carpenter residence and affected a considerable portion of the traction road, so much so, that cars could not run over that particular locality. The greatest fear upon the part of the company is the presence of quicksand, which exists there, and if it broke into the workings would block them up. Superintendent Alex Bryden was on the spot directing the work to be done to avoid, if possible, this result. The works have been suspended and the mules taken out. The cave-in occurred among some of the worked out portions of the mine.

Residents of this city, who had the great opportunity to pitch for the Wilkes-Barre club, faced the Paterson club yesterday and succeeded in shutting them out. A large crowd from here went down to see the boy score his first victory.

Lydia E. Pinkham's Vegetable Compound a wonderful aid to working women of all classes.

Working women have backaches, headaches, and racking pains, but they keep on working because they have to. Pretty faces in our factories and stores soon become drawn and pallid, figures lose their symmetry and energy flags.

Domestic service is another form of endless drudgery that destroys woman's health and nervous system. Lack of care during monthly periods, necessity to keep on the feet all day and sometimes until late at night, or sitting in cramped positions for long hours, produce and keep alive troubles of all kinds with the female organs.

Lydia E. Pinkham's Vegetable Compound for over twenty years has assisted women to bear their burdens. Sickness and pain vanish under its influence, and more than a million women have been benefited by it. We quote from three:

DEAR MRS. PINKHAM:—I doctored with four different doctors and found but little relief. I then wrote to you describing my troubles which were as follows: backache, sharp pains in sides of abdomen, falling and inflammation of womb, and pain at time of monthly sickness. I followed your kind and good advice. I have taken three bottles of Lydia E. Pinkham's Vegetable Compound and am now able to walk around after having been in bed for ten weeks, and feel that I am assured perfect health. I hope my letter may be a help to other suffering girls.—Miss ROSA HINKS, Le Sueur, Minn.

DEAR MRS. PINKHAM:—I was troubled with female weakness, irregular and painful menstruation and leucorrhoea. The doctor's medicine did me no good. I have taken one bottle and a half of your Lydia E. Pinkham's Vegetable Compound and my pains are gone. I advise all women suffering as I have to use your Vegetable Compound.—Mrs. EMMA J. PRIBBLE, Indianola, Ill.

DEAR MRS. PINKHAM:—When I wrote to you I was troubled with menes appearing too often. I also had sick headache, was tired and weak, and could not do any work. The pain I had to suffer was almost unbearable at times. After taking five bottles of Lydia E. Pinkham's Vegetable Compound I was much improved in health; menes became more regular and were not profuse. My doctor had told me I could never expect to get well unless I went through an operation. I cannot recommend your medicine too highly. I beg of you to accept my thanks for what you have done for me.—Miss ALICE PARSELL, Keokuk, Ia.

Mrs. Pinkham at Lynn, Mass., will advise you from her wide experience free of charge whenever you ask it. Write to her freely. Your story will be told to a sympathetic woman, and women only will see your letters. Remember! a woman best understands a woman's ills.
