PAYMENT OF

THE CUBANS

LITTLE PROBABILITY OF OUR MONEY BEING REJECTED.

War Department Not Disturbed by Newspaper Reports-Official Despatches Modify Them Considerably-Talk of Trouble Merely Cafe Gossip-Native Officers Have Little Influence with Their Men When It Comes to a Question of Money. Havana Is Not the Whole Island.

Washington, May 17,-Advices received by the war department indicate that the press reports which come from Havana of trouble on account of the distribution of the \$3,000,000 fund to the Cuban troops are exaggerated greatly. General Brooke is expected to begin the distribution of the money in strict accordance with the plan originally proposed. It is hoped he will have the assistance of General Gomez. but in any case the distribution is to

The despatches to the war department indicate that the trouble is not so much with the troops themselves as with some of the leaders, who dislike to see their authority broken and who realize that disbandment of the insurgents is to be a fatal blow to their prestige. It may be that the leaders may advise the insurgents not to accept the American bounty as a condition of laying down their arms, but the department is confident that when it comes to a plain question of taking or rejecting American gold the troops will not hesitate very long. They are in distress and they have nothing to gain by continuing their organization. The sum of \$75 is a small fortune to them, and it will take more than the advice of leaders, actuated by selfish motives, to induce them to reject it.

The Talk of Trouble.

The war department has been informed that the reports of trouble are based on the talk of irresponsible persons in Havana who lounge about the cafes and endeavor to spread sedition This talk does not represent the real Cuban sentiment any more than the barroom gossip in an American city would indicate the real sentiment of the people of the United States. Outside of Havana the feeling among the Cuban troops is said to be friendly to the United States and the disposition among them is to accept the conditions imposed by General Brooke. Very lit-tle is heard from those men, but in the end they will be the determining

As for the so-called Cuban generals, the department does not pay as much attention to their complaints as it did formerly. It is known that they are chronic "kickers" and that they are never happy except when they are making or talking of trouble. Their real influence is much smaller than it was supposed to be. The masses of the people are desirous of the restoration of peaceful conditions and of an opportunity to resume peaceful pursuits

Whatever may be the feeling be tween the American troops and the Cuban troops in the city of Havana, the administration has confidence that self-interest will dictate an acceptance by the Cuban people as a whole of the lation, notably in Havana, where the Cuban generals now congregate. They were to be expected. But the adminis-Cuban temperament in the last few months, and it will go ahead with its original plans.

LIFE CELLS RENEW YOUTH.

New Lymph That Prolongs Life Said to Have Been Found.

Chicago, Ill., May 17 .- A process of extending and possibly doubling the span of human life is said to have been discovered by Professors Joseph R. Hawley and Alexander C. Wiener, of the Chicago Clinical school. The return to youth, it is asserted, is produced by hypodermic injections of the lymphatic fluids of animals, particu-

larly young goats. The theory is that if the mineral deposits which accumulate in the bones in the process of life can be replaced with life cells contained in the lymphatic glands of goats, deterioration of the bones will be prevented and elasticity and youth will be retained in the system much longer.

In one of his experiments of the Clinical school, Dr. Hawley administered hypodermic injections of the fluid from the lymphatic glands of a goat to dog known to be 14 years old. In two months mineral deposits had been removed from the dog's bones and the animal was as lively as a

SPANKED A SAUCY MAID.

Mistress' Radical Disapproval of Late Hours.

New York, May 17.-Alleen Russell, 19 years old, of No. 602 East Forty-ninth street, had her mistress, Mrs. Hose Komie, of No. 373 Willis avenue, summoned in court today on the charge of assault.

Miss Russell told the magistrate that as she had not been allowed a Sunday off for two months she took one anyhow last Sunday and did not return until late. She went to her room and had reached the point in disrobing where nothing remains but to put out the light and get into bed, when her mistress entered and upbraided her.

When the girl retorted Mrs. Komle, who is a powerful woman, threw her across her knee and administered a spanking. The next morning Miss Russell says she was ejected from the house without her pay. Mrs. Komie made a counter-charge of assault,

The magistrate succeeded in restoring harmony to such an extent that the women agreed to try the experiment of living together once more.

HEIRESS BY SECRET MARRIAGE Hotel Maid's Daughter Sues to Possess \$400,000.

Chicago, Ill., May 17 .- Mrs. Florence Moscherrosch, the wife of an Anaconda. Mont., miner, today filed in the superfor court a bill asking that she be new relations which the United States adjudged to be the heir to \$400,000 is endeavoring to establish. There worth of Chicago property left by may be mutterings of discontent in Henry W. Martin, a Chicagoan, who she claims, was her father.

The filing of the bill has divulged a omance which has been kept secret tration has learned much about the for 27 years. Martin began his Chicago Cuban temperament in the last few career as a letter carrier, but, after the fire of 1871, invested his savings in leaseholds and real estate and became

Wall Street Review.

By Associated Press.

New York, May 17.—The capitalists behind the Flower group generally felt curouraged with the firmness and confidence displayed by the market sluce the crisis that they made up their minds today to complete its rehabilitation and to put prices back to where they were in Friday last. It was not until the latter part of the day that this purpose seemed to be taken seriously in hand. In fact the Flower stocks as a group were conspicuously quiet during the early part of the day. Their position seemed to be left to the natural course of events. The market gradually but persistently hardened under various influences, Chicago Terminal, the Iron and steel shares, Sugar and Tobacco and New York municupal corporation stock advancing sharply. In the late afternoon the market was steadier to dull. People's Gas, the Federal Steel stocks, International Paper, Rock Island and Atchison preferred are from 1 to 4 points higher. The railways shared very generally in the latter strength of the market, the close being By Associated Press. shared very generally in the latter strength of the market, the close being buoyant and active at the very top. By Carrington & Cusack.

New York, May 17.—The market opened strong, at a slight advance above clossing prices and continued fairly active and strong throughout the Gay, buying being of the very best character and very well distributed. London traded both ways, buying in the early part of the day and selling later. Plower brokers were conspicuous in their specialties, and commission houses report an increase of business. The Flower stocks were easily leaders in the advance and we see no reason why, allowing for market declines they are not a purchase anywhere below their late high prices. There undoubtedly should be some setback but it will be of a nominal character only, and the money to be made is undoubtedly on the long side of the market. The crop reports were of a distinctly more favorable character and with the good weather extending all over the country, there seems very little question but what we shall have an improvement for the time being, at least. This has lead to renewed buying in the Grangers and the standard railroad stocks generally. People's Gas was the feature of the industrial market, advancing hearly 6 per cent. on very good buying and the covering of shorts.

The bears seemed to have been pretty well licked all along the line and the short interest has been greatly diminished, so that it is fair to presume that the market may be somewhat erratic unless there is a continuance of clique buying. At the same time, on any weak spot it is undoubtedly a purchase. People's Gas, Brocklyn Rapid Transit and Federal Steel are almost sure purchases and the specialties like Continental Tobacco, Rubber, Tennessee Coal and Iron, C. F. & I. is almost sure to recover its prices. The news that Governor Rooseveit had called an extra session of the legislature on Monday is considered rather a buil factor, the amendments he desires being in the line to fairer dealings with the corporations. The market closed very strong at the best prices of the day. By Carrington & Cusack.
