ONE IN EVERY FOUR. One Person in Every Four Suffers from Piles.

About one person in every four suffers from some form of rectal disease. The most common and annoying is itching piles, indicated by warmth, slight moisture and intense, uncontrollable itching in the parts affected.

The usual treatment has been some simple ointment or salve which sometimes give temporary relief, but nothing like a permanent cure can be expected from such superficial treatment.

The only permanent cure for itching piles yet discovered is the Pyramid Pile Cure, not only for itching piles, but for every other form of piles, blind, bleeding or protruding.

Many physicians for a long time supposed that the remarkable relief afforded by the Pyramid Pile Cure was because it was supposed to contain cocaine, opium, or similar drugs, but such is not the case.

A recent careful analysis of the remedy showed it to be absolutely free from any cocaine, opium, or any other poisonous, injurious drug, whatever. Sold by druggists at 50 cents per package.
