The Keystone team included players from Nicholson, Scranton and various other places, only one or two being from the academy, while Tunkhannock made no effort to pad their team. This would not be material except for the fact that Keystone made such a strong kick last fall on playing foot ball against the High school because they had gone outside of their school for some of their players. It is well enough to be consistent.

How the fire originated is a mystery, but it is supposed to have been caused by the bursting of a lamp. The insurance does not nearly cover the loss. Owing to the fact that Saturday was pay day, the business men were unable to respond to the call and several members being out of town, the boys about the streets were given the privilege of testing their skill at the engine. Had it been a dangerous conflagration the pandemonium that reigned would have caused considerable excitement. A MODERN ROB ROY. Romantic Story of the Career of a

Notorious Poacher.

cordially invited to attend,

From Lloyd's.

The story of the arrest of the poacher, MacCallum, accused of the murder of Police Constable King in Invernessshire, Scotland, is an exciting one and reads like the romance of a modern Rob Roy. A warrant had been issued for this man's arrest, and Constable King and Constable McNiven on Dec. 20 visited the lonely cabin where Mac-Callum and his women folk were

known to live. "Black May" and her daughter in-formed the constables that MacCallum has gone to Loch Garten. Shortly afterward, however, the officers of the law were surprised to observe the women take their departure from the dwelling in rather a hasty manner. The constables received information that the poacher was in the house. Before

entering it was agreed that King should go into the kitchen on the left and McNiven into a bed room on the right. There was no light in the dwelling, and the officers had to feel their way in the gloaming.

McNiven entered without difficulty, but had only reached the bed when he heard a shot fired. He shouted to King, but received no reply. After an unsuccessful search of the apartment McNiven came to the door and was told by a rural postman, who was standing on the roadside, that Mac Callum had left the house shortly after the report of the shot. In the kitchen he found King lying on the floor with the gun across his feet. With the assistance of the postman he had him removed outside. Then they discovered that King was dead, and the hue and 'ry was raised, but MacCallum had got good start. He had bolted minus his boots, and later in the evening he visited a crofter's house and procured a pair. That was the last that was seen

of him. It was about 4 o'clock on Tuesday, December 20, when the tragedy occurred, and for the next sixty four hours the wretched outlaw was abroad in the hills of Strathspey, skulking behind boulders, hiding in caves, shrouding himself among the mists of the mountains. He was without food without shelter, without friends. Even his dog, which at first followed him, had deserted him. Sixty men were at one time engaged in the man hunt. Now and then rumors would come in that he had been seen, but they proved to be unfounded.

Not until Friday, December 23, did authentic information of his whereabouts come to hand, and, as the fugitive was by this time exhausted by his privations and exertions, and was cnown to be unarmed, measures were taken to secure him. As dawn was breaking Deputy Chief Constable Chisolm, Sergeant Frazer and Constable Macbeth ran him to earth in the neighborhood of Nethy bridge upon a piece of rising ground, which bears the ominous name of the Gallows Hill. Mac-Callum, who hore traces of the hardship which he had undergone, Was brought to Inverness and lodged in the castle. A large crowd assembled on his arrival, and watched the removal from the station to the castle with

much interest. MacCallum has led a most remarkable career, and during the last thn years he has been recognized as the ought to have good roads."-Puck.

most daring and notorious peacher is the Highlands. He was born at Loch Ericht forty-four years ago, but his boyhood was spent on the Braes of Lochaber, where his father was head gamekeeper. i'.om his boyhood Mac-Callum had a stormy life, frequent conflicts taking place between him and the men under his father's charge. The end was that he was sent to the Falkland islands as a shenherd, but he led a wild life, and seven years ago returned and settled down to his avocation of peacher in the wild mountains and wooded district known as Mondahlieth.

The clever, agile and daring poacher outwitted the closest esplonage of keepers and police for years. knew every mile of the wild district, and he was the terror of the gamekeepers around, and latterly they permitted him to roam pretty much unmolested. His only companion was his big dog, and the few people who came in contact with him regarded him as insane from the isolated and wild mountainous life he led.

There is no part in Scotland that affords the peacher better opportunities for prosecuting his calling than the mountainous districts north of the Grampians, stretching from Banffshire on the east to Fort William on the MacCallum had studied, too, where to get the best markets for his spoil, and many game dealers, both in England and Scotland, are familiar

with his name. MacCallum's commanding figure was ell known to all the countryside, Standing five feet eleven inches high, broad shouldered, deep chested, with powerful arms and legs, a bulldog type of neck, and a carriage such as Rob Roy might have envied, he is a true son of the mountains, if ever there was one. There is nothing in his features that suggests crime or vice, but the eyes are often fierce and full of fire. He walks with the slow and measured gait peculiar to the gamestalker, and seems to suspect everybody with whom he comes in contact. As he was never married, there is not much romance of the softer kind to chronicle about him, but the house hold of which he was the mainstay was a peculiar one, consisting of himself, an old woman known as "Black
