YOUNG GIRLS CHARGED WITH DESECRATING GRAVES.

Were Given a Hearing Before Alderman Lentes-Mrs. Mina Robinson Was Prosecutrix-She Relented and Upon the Girls Promising to Be Good the Charges Were Withdrawn-P. J. Hartman Objected to an Organ Grinder's Music and Goes to Jail-Citizens' Meeting.

Dora Crane and Fannie O'Hara, girls of a tender age, were arrested on a warrant issued by Alderman Lentes They were arraigned for a hearing before him last night on the charge of larceny and desecration of graves. Mrs. M. Robinson, of Cedar avenue, preferred the charges.

Mrs. Robinson alleges that on Monday she received from a relative in New York city three beautiful floral pieces, sent to her to be placed on the graves of her lamented husband. daughter, Miss Mina Robinson, and son, Robert Robinson, who rest in the Pittston avenue cemetery. That same afternoon she placed the flowers on the graves. That night the young defenfendants, who live near the cemetery went to the graves and took the floral dergns, making an effort to sell the flowers the next day to several neighbors, one of whom saw Mrs. Robinson place them on the graves. She notified her of the attempt and the warrants were issued.

At the hearing Mrs. Robinson, with her characteristic generosity, withdrew the charges against the girls, on promise that they would not commit such an offense again.

CASEY AND THE MONKEY.

P. J. Hartman, of Pittston avenue, more popularly known as "Casey," was arraigned before Alderman Lentes last night. One Joseph Padae, of 116 Ninth street, an organ grinder, accused him of attempting to annihilate him and his monkey. The prosecutor stated that he and his monkey were entertaining the residents of Pittston avenue and Alder street yesterday and the "defendant," who was present, objected to a particular tune. To emphasize his objection he cut the rope attached to the money and then tried to catch the animal. Padae interfered and goth the worst of it.

When arraigned for a hearing, Hartman was intoxicated and was held in \$300 bail. He refused to accept a bondsman and requested that he be committed to the county jail, which request was granted.

FATAL IGNORANCE.

People Who "Didn't Know."

How Lives Are Sacrificed.

This household tragedy is so familiar. The husband takes a revolver from the drawer, and is going to clean it. In a mood of playfulness he points the pistoi at his wife and pulls the trigger. A flash, a report, a scream of death

agony, and another item for the newspaper headed "He didn't know it was loaded." There seems to be no possible excuse for such folly. The only excuse kindness can suggest is that although he didn't know, yet he thought he knew. It is one of the sad facts of life that ignorance can work so much evil; that simple stupidity can ruin homes, destroy characters, break hearts, and even take human life itself. We live at all times exposed to the danger of ignorance which becomes the more dangerous as it occupies positions

frequency of the statements "doctors

sufficient evidence of the lack of knowl-

DOES HE UNDERSTAND YOU?

You are perhaps a little more delicately

organized, your temperament is differ-

ent from the average person, and you need different treatment. It is in the

perfect adaption of the treatment of

chronic diseases to the individual idio-

syncrasy that Dr. Pierce owes much of

his success. For more than thirty

years as chief consulting physician of

the Invalids' Hotel and Surgical Insti-

tute, of Buffalo, N. Y., he has devoted

his time and skill to the treatment and

cure of chronic diseases. Around him

he has gathered a staff of nearly a score of medical specialists, whose

skill can be inferred from the fact that

ninety-eight per cent, of all who have

received Dr. Pierce's treatment have

been perfectly and permanently cured.

This is a remarkable record when it

s remembered that the patients treated

number hundreds of thousands. It is

a common experience to find that peo-

ple have for years been treated for the

wrong disease, naturally without the slightest benefit and having nothing to

show for hundreds of dollars paid out

in fees. Such people are of course as-

tonished when after asking Dr. Pierce's

advice they are recommended to try

Doctor Pierce's Golden Medical Dis-

covery, which is purely a medicine for

the blood, stomach and organs of di-

gestion and nutrition. "Why," they

may say, "the trouble has been with

my heart," or "my lungs are weak,"

or "my liver and kidneys are what need help, not my stomach." Yet after tak-

ing the medicine prescribed these peo-

noble work." But why is it that "Golden Medical Discovery" will do what doctors failed in doing? That is a natural question and should receive a plain and practical answer. Nineteen times out of twenty in Dr. Pierce's wide and long experience of disease, he found that diseases whose symptoms involved organs remote from the stomach, were at the same time solely and wholly due to the condition of the stomach. Severe headaches, dizziness, palpitation of the heart, intermittent pulse, backache, side ache, trembling limbs, cold hands and feet, "liver trouble," only some of the necessary results of a diseased stomach involving the other organs of digestion and nutrition. Whooping Cough. I had a little boy who was nearly dead from an attack of whooping My neighbors recommended cough. Chamberlain's Cough Remedy. I did not think that any medicne would help him, but after giving him a few doses of that remedy I noticed an improvement, and one bottle cured him entirely. It is the best cough medicine I ever had in the house,-J. L. Moore, South Burgettstown, Pa., For sale by all druggists. Matthew Bros., whoie-
