The Richmond Times says Witkes-Barrs has two weak points. Where are they? Marty Swift is to be congratulated upon the good team he has got together for Scranton. * * * According to the Realing newspapers their club is losing games by stupid base running. * * * Catcher Snyder, of Reading, is not throwing well to bases and men are continually stealng second on him.-Lancaster Intelli-

It is said that the Brooklyn club is \$20,000 ahead of the game to date and hat the Baltimore club is also a financial winner. It looks as though the results of the big deal will exceed expectations -It looks as though the results New York Sun.

Since the trouble in the Paterson club began a great many people have been asking who Owner A. S. Parson is, and there are very few who really can tell. He came from Sandusky, O., this spring to take charge of the Paterson team, and it was but a short time ago that even the other members of the Atlantic league became acquainted with him. The league granted the franchise to "Deacon" Ellis, who is always willing to turn a dollar, and seldom loses an opportunity. The league knew the "Deucon" to be a good base ball man, and they felt no hesitancy in giving him the franchise. Ellis saw a chance to unload on Parsons, without any risk, and he did so. He sold the franchise to Parsons, without men-tioning a word to his league people, and they only found out the true facts a few days ago. It is said that Parsons gave Ellis a good sum for the franchise, and he loses that money besides the \$50 he put up to guarantee that he would last he season out.-Lancaster Intelligencer. President Fian, of the Scranton Base Ball association, returned from his cir-cuit tour Monday night. "Things look very bright over the circuit, and Scran-

ton is playing good ball," said Mr. Finn

THE MARKETS.

Wall Street Review.

By Associated Press. New York. May 24.—Prices of stocks drifted to a lower level today in the uncertain and irregular manner, which is characteristic of a dull and undecided market. The dullness of the market is entirely normal for this time of year, when the fate of the coming crops, on which so much depends, is still in the balance. Total sales, 691,000 shares.

Hy Carrington & Cusack. New York, May 24.-The opening was practically featurcless, the fractional advance in London giving a slightly firmer tone to the trading, at a slight gain in prices over last night. It was found, lowever, that there was preschally no however, that there was practically no business in sight and that the operations were mostly confined to the traders, who were mostly confined to the traders, who were inclined to take the short side.

Some of the specialties were inclined to be weak. National Steel, Tin Plate and Air Brake showing fair declines. Steel and Wire also declined on small transactions, Chicago being the heaviest seller in each.

Sugar was apparently the leader in the Sugar was apparently the leader in the market, advancing 1½ per cent, with a subsequent decline of the same. The Grangers were bought moderately on the increase in earnings, shown by St. Paul. London was estimated to have purchased about five thousand shares on balance. None of the large traders were contradictory and wheat sold off early on a probability of a warm wave.

The market is almost too narrow to require comment, and its future is a toss up from around these values.

Unless the public or some buying power other than the shorts is created very

Unless the public or scme buying power other than the shorts is created very soon we shall have a further decline. The loan market, however, shows quite a fair be trowing demand, and it is possible a campaign against the shorts may be inaugurated. There is a possibility that we shall have a holiday next Monday, in which case the dullness is liable to continue without much change.

The news from Albany was of practically a negative character. There seems no doubt but that the Democrats will oppose the amended bill, but the best advices seem to indicate that the Republicans will have encugh majority to pass it over their opposition. It will have a temporary effect on the market and undoubtedly should cause a fair advance for a time at least.

The Plate is a great purchase around

doubtedly should cause a fair advance for a time at least.

The Plate is a great purchase around these figures, as we have every reason to believe that the company will pay dividends on the common stock at the rate of 6 per cent per annum, beginning in June or July.

Today's liquidation in it was selling by tired holders whose margin has been reduced to points that have compelled their getting out, and should be taken advantage of to obtain stock.

In the late afternoon, the whole market broke quite sharply on a heavy bear raid, the Steel and Wire stocks being again the heavy sufferers. It looked a little bit as if the market might be reaching a point where it will culminate one way or another within a few days, and there was certain indications of quite free covering at the low price. The close was irregular and weak.
