## **EVENTS OF DAY IN** WEST SCRANTON

#### THE WEST SCRANTON ELECTRIC LIGHT COMPANY.

Are Only Waiting the Granting of a Franchise by Councils to Proceed with the Erection of Their Plant. Will Furnish Light at a Low Rate Per Month for So Many Lights. Large Washery to Be Built on This Side-Robbed of \$185-Shooting in Kelly's Row.

The proposed location of an electric light plant in Keyser Valley by the recently incorporated West Scranton Electric Light company, will mean a great deal to the residents of this side. The charter for the proposed company has been granted by the authorities at Harrisburg and all that remains to insure the undertaking is the granting of a franchise by the city councils. In conversation with The Tribune representative yesterday a director of the proposed plant outlined the plan of operation which the company intend to carry out, and added that if a frangranted, capitalists stand ready to invest \$150,000 in the new plant.

The. company proposes to furnish electric light to every household in West Scranton and the North End at a contract rate of \$1.50 to \$2.50 per month for each house and thus do away with the present meter system now in use. They propose to supply new lamps when burned out, but will not replace them when broken by carelessness.

In addition to the low rate for lights, the director stated, the company proposes to offer to the city a proposition which the councils cannot afford to ignore, and which will be of incalculable benefit to the city.

Besides the location of the electric light plant, negotlations are pending for the purchase of one of the large culm dumps in Keyser Valley, by two well-known men, who will operate a washery in conjunction with the electrie light plant.

It is expected that the deal for the culm pile will be closed in a day or two, and work on the washery he commenced at once. The new industries will give employment to a number of men, and become important factors in manufacturing interests of the Electric City.
