

"Where are you going, my pretty | Miss Emma Poster, Miss Anna Sal-"I'm going a-golfing, sir," she suid.

"And what is your score?" asked he "Oh, just eighty-one," with a laugh said she.

"And what is your fertune, my pretty "Two silver cups and a mashle," she

"Can you make that first hole?" he warily cried "Well rather," she sung as away she

"Then I will marry you," shouted be 'Your score is too low," she said. "Please excuse me."

This will probably be the most interesting day yet chronicled in the golfing season. In the first place the weather promises to conduct itself in a more gracious manner than on several Saturdays of recent date. Then it is Wilkes-Barre day and that in itself lends additional interest to the occasion. We want to look our best when our neighbors visit us, since it is difficult to make them realize that we exist except during the golf season. It is intended that they shall be most pleasantly entertained during their

stay here. The match this afternoon is but a preliminary one, the team being unlimited as to numbers. It will open at 2 o'clock and will be over the entire course of eighteen holes. A prize will also be offered for the best medal play round. The manner of scoring in this series of inter-club matches will be by holes up; that is, if Scranton wins by eleven holes up today and Wilkes-Barre is victorious next Saturday by eight holes, then Scranton wins by three up. Thus a third match is not necessary in the preliminary contests.

If a ladies' match is arranged for this afternoon the players will probably include some of the following: Miss Anderson, Miss Van Cleef, the Misses Archbald, Miss Welles, Miss Dale, Miss Matthews, Miss Hunt, Miss

Should this match not come off there will, probably be a ball-sweepstakes bandicap, when every one who enters will place a ball in the pool, the winner receiving the pool as a prize.

Some of the ladies declare this to be a canny trick of the greens committee or the captain to thus fasten feminine attention somewhere else than on the regular match of the afternoon, so and the young woman will not be following the players over the links with suppressed giggles and stage whispers.

Election of officers for the next year took place at the Country club last The officers of the preceding year were all re-elected as follows: N. G. Robertson, president; J. Ben Dimmick, vice president; A. G. Hunt, treasurer; J. W. Oakford, secretary. On Saturday last at the annual meeting, W. W. Scranton, A. G. Hunt and N. G Robertson were re-elected directors for three years. The Grapho enhich fallow direction of Mr. and Mrs. W. W. Scranton and consisted of representation of characters obtained from handwriting. A party, some of the members of which are Mr. and Mrs. J. L. Crawford, Dr. and Mrs. G. E. Hill, Mrs. Mathers and Miss Blackman, started on a driving trip Thursday which will extend over a portion of this state and New York and New Jersey, occupying a month or longer. They were well suppiled with provisions and conveniences for camping so that if hotels are unavailable they will still be able to enjoy their journey.

"David Harum" seems to have but recently struck this town, so to speak, as oddly enough but few people here have read the book until recently. Exceptional interest attends its perusal in many cases as not a few of our townspeople have pleasant recollections of meeting the so-called original of the title character. David Hannum, who was at that time at Corning, N. Y., or thereabouts, and was often entertained at the homes of Dr. B. H. Throop, J. C. Pheips and others. Situation and the state of the HER POINT OF VIEW SUUMUNUMUNUMUNE

The other day a motorman, in another own, refused to "mote" the car at the mperative ring of the conductor. The ell jangled again. The motormen on the cars in the rear, which had been brought to a standstill, said things, and the conductors thereof jangled their bells. Still the motorman on the front car made no apparent effort to release the power. He was leaning rather affectionately over his brake handle, and after awhile it occurred to the conductor to go forward and investigate. Then it was discovered that the man who didn't start the car on orders was stiff and helpless and seemingly dying. He was hastily removed to the hossital, where it was found that he was suffering from a serious attack of heart lisease and was in a comatose conlition, from which it was strongly probable that he would never rally, Then somebody remembered that he had spoken that morning of having a terrible fright when a child had danced eross the track and he had brought he car to a stand with the little fellow's kilts brushing the fender.

Contrary to a somewhat general opinon, motormen have nerves and feelings, and have no morbid desire to outrage either by running down pedes trians. A motorman who has had a long experience in running electric cars in this city, as experience goes in that line, since no one continues in the position indefinitely, remarked, apropos of the subject:

"It's making me gray. That's what it is. No man can stand the strain right along. In the first place, keeping on your feet for fourteen hours isn't the easiest work in the world. In the winter you oftentimes freeze them, and in the summer you suffer with the heat and they swell and are scalded, until they don't look so much like feet as boiled hams that have been skinned, But that isn't the worst of it. You see, here where we have such hills and mus make so many sharp curves, it's hard on a fellow's muscles to keep turning that crank and jamming down that brake all the while, and then there are always the children who play along the track. Some of 'em are enough to drive a fellow to drink, or the insane asylum. They have a way of waiting 'till we're almost past them and then running in

front of the car. I can just tell you there have been times when I've managed to slow up before running them down that I've felt so faint with the scare of it all that I've had to leave my run and report at the office for sick leave. To this day I can't see a young one in a pink calico dress that my heart doesn't give a bump that almost knocks me out. Oh, yes, you see there was a little girl one day that we gathered in on the fender. I thought she'd gone under the trucks, and I couldn't get off and look for her if I'd have been discharged for staying back on the car. No, she wasn't hurt a mite. She wore a little pink dress and she had long yellow curls. I ain't ever had the same nerve since.

"Then there's the fool women." he ontinued, "who think they can drive a horse. I ain't got anything to say about the ones who really can, but only them that think they can, and who, when you're running your car along steady-like and mindin' your own business, suddenly decide they'll cross the track and go down the other side. Of course, not being a mind-reader, you ain't prepared for 'em, and you stop in the middle of the block and knock all the passengers off the seats and have your own heart in your mouth, besides thinkin' about the damages the company will have to stand and the bounce you'll get for reckless runnin', and all because that woman happens to want to get on the other side of the road ahead of the street car.

"Next to children, who try to see how close they can go in front of a car that's running along lively, and women who want to drive across the track, are politicians. Now, a lawyer, if he has any wits, generally has 'em with him and hustles himself over the crossings. A doctor commonly keeps a sharp lookout for cars, and a preacher thinks too much of himself to run any risks, but just you let two or three fellows get together talking politics and they'll stand on the track, or anywhere else, and argue, if Gabriel himself was coming along at the rate of seventy-five miles an hour with the Day of Judgment in tow. The other day I thought we'd have to get down and lift off a couple of fellows bodily, they were so nterested in an argument. As I got the car stopped in time to save them from being smashed, one of 'em was saying: 'You just see if we can't get all the delegates for Quay!"

"Did I ever run over anybody? I'd rather you hadn't asked that, ma'am. There's a woman who lives along onof the Scranton lines that I'd rather throw up my job than meet face to face. She is a little bit of a woman, and she always wears a black dress these days. No'm, it wasn't my fault at all. Everybody cleared me from any dame-but I'd give fifteen years of my life if that baby hadn't toddled in front of my car just after we'd passed the other one on the switch and I couldn't

This is a great town for having a big heart that is touched at the cry of want or distress. The other day anouncement was made that the flour barrel was empty at the Home for the Friendless, and that soap was in urgent demand. In the course of a day, five barrels of flour and a sufficient quantity of soap to insure clean faces for some time to come were deposited at the door. One time a plea was made for a baby carriage, and before the end of a week there were five of these convenient vehicles sent from homes where baby had gone away forever, or had grown beyond the confines of a perambulator. There are so many kind people in the world who are glad to give of their abundance or their penury, if they know their gifts reach the right place where they really do good. They dislike to give indiscriminately, or to find that imposters have received their bounty, but an appeal that has substantial authority always receives their support. I know of a woman who always gives something away when she herself receives a gift, usually an article bearing some relation to that which she has just received. She is generous at other times also, but this s a rule invariably followed, and the gifts are often of much value. Consequently she doesn't accumulate as much partly worn, but out of date apparel, nor as many trinkets as most of her friends, but she gladdens many hearts whose lot is less favored than her own. Isn't it a pretty idea-this "progressive" acknowledgement of a Saucy Bess. present?
