

Do Your Joints Pain You?

A slight indefinite pain in the joints is the first sign of Rheumatism. Then come the aching pains and tenderness, the agonizing cramps, the fever and restlessness that characterize this disease.

When you feel the first slight pain, begin to take Dr. Williams' Pink Pills for Pale People, and the progress of the disease will be arrested. Neglect this and you will regret it.

Dr. Williams' Pink Pills for Pale People are a Positive and Permanent Cure for Rheumatism.

This remedy expels impurities from the blood, and supplies the material for rapidly rebuilding waste nerve tissues. It has performed hundreds of almost miraculous cures in severe cases of Rheumatism, many times after doctors had given up hope.

"In 1880 I was taken with rheumatism, which began in my hips and gradually spread throughout my body. For two years I was confined to my bed; employed nine of the best physicians in Albany, and two specialists from New York City. They all declared my case hopeless, and finally told me that I had to die. I took no more of the stuff.

My wife, who through her friends knew of the good results attending the use of Dr. Williams' Pink Pills for Pale People, strongly recommended them. I purchased the pills and took them with the use of crutches. I weighed but 120 pounds. As my normal weight is about 240 pounds, you can see how I was suffering from my malady. After taking thirteen boxes of the pills I was weighed again, and although less than a year had passed I weighed 207 pounds. I continued the use of the pills and in a few days I was able to stand on my feet, and am now as well as ever."

The genuine Dr. Williams' Pink Pills for Pale People are sold only in packages, the wrapper always bearing the full name. At all druggists, or direct from the Dr. Williams Medicine Co., Schenectady, N.Y. 50c. per box.

PIONEER CALLS ON US.

Dr. R. Hampton, of Scranton, was shaking hands with friends in this city yesterday. He says he stays in Scranton until he gets so homesick he can't stand it any longer. Then he runs up here and stays until he is contented. The doctor settled in Carbondale in 1835 and illustrates his knowledge of the city by this story of a man who knew all about a gun: "Oh, yes," said the fellow, "I know all about that gun; I knew it when it was a pistol." May the doctor come often.

DR. PIERCE SUES W. C. T. U. PEOPLE

SAYS THAT HIS MEDICINES DO NOT CONTAIN ALCOHOL

OPIUM, NOR OTHER NARCOTICS

STATEMENTS WERE MADE BY CERTAIN TEMPERANCE PEOPLE DENYING THIS.

ASSERTIONS WERE ANNOYING. More Than That, the Doctor Says, They Hurt His Business and He Will Try to Recover Damages.

(From the Buffalo Evening Times.) The suits recently instituted by the World's Dispensary Medical Association of this city, against certain propagandists of the W. C. T. U., and others, had their origin in a conflict of statement which was at once annoying to Dr. Pierce, and personally, and injurious to his business interests. For some time the advertisements of Dr. Pierce's Favorite Prescription and "Golden Medical Discovery" have laid great stress upon the fact that these medicines contain no alcohol, and are absolutely free from opium, cocaine, and all other narcotics. It is generally known that most put-up medicines contain a large quantity of alcohol, and that in other cases liberal use is made of opium, cocaine, or other narcotics, the continual use of which is disastrous to body and mind. It was supposed, therefore, that temperance leaders, especially the women, would recognize the fact that the non-alcoholic and non-narcotic character of Dr. Pierce's medicines gave them a prior claim to the attention of all those engaged in fighting the use of alcohol. But instead of this, certain leading temperance women sent out pamphlets in which they assumed to give the formulas of Dr. Pierce's medicines, and to state that they contained both alcohol and opium.

In self-protection and in order to publicly nail this outrageous falsehood, was there only one thing to do—bring suit against the authors of the libelous statements. This the doctor at once proceeded to do.

The Ethical Point of View. From an ethical point of view the most curious feature of the case is that the statements as to the alcoholic and narcotic ingredients contained in the medicines were made without first making any analysis of the medicines, and were based upon the false formulas published in the interests of parties antagonistic to Dr. Pierce's business.

These are the facts of the case, and are also getting their lesson in the law. The injury to Dr. Pierce's business from the circulation of such statements as were made in the pamphlets above referred to can readily be understood. It was natural that the temperance people who read the pamphlets were addressed should believe in the statements of their own leaders, and accept the fact that the advertising of Dr. Pierce was flagrantly false. As a matter of fact the falsehood was entirely on the other side, and Dr. Pierce was quick to support the claims of his advertising by an offer of \$1000.00 for each and every bottle of the medicine which on analysis showed the presence of alcohol or narcotics.

Big Staff of Doctors. Any one who had acquaintance with Dr. Pierce and the well-known institution, the Invalids' Hotel and Surgical Institute, of which he is chief consulting physician, would have known better than to attack his advertised statements, even though published formulas seemed to retrovert his claims. As one of the largest advertisers in the United States, Dr. Pierce has also a reputation for the utmost exactness of statement. If Dr. Pierce says that he has no alcohol or opium in his medicines on his staff, you may be certain that you will find from eighteen to twenty physicians working with him, the indefinite statement being made because of occasional changes which do not honestly permit him to say that he has no alcohol or opium in his medicines on the staff. If the claim is made on behalf of Dr. Pierce's Golden Medical Discovery and "Favorite Prescription," that they contain no alcohol and are free from narcotics it may be depended upon that the statement is exactly true. It is the same in reference to other matters pertaining to the World's Dispensary Medical Association. Nothing is overstated, and Dr. Pierce owes his large success and enormous business as much to his absolute integrity of statement as to his genuine healing value of his medicines. In a recent interview Dr. Pierce said with reference to the suits at present being prosecuted: "We are determined to stop the publication of the false formulas of our medicines.

Formulas Never Right. "These formulas are never right approximately right, and generally their falsehood extends, not merely to the inclusion of alcohol and narcotics, but to misstatements concerning every reputed ingredient of the medicines. A notable example of this falsehood was recently made by a certain physician in the head of an institution, known throughout the United States, publishes a so-called health guide. In this book, among the formulas of other medicines, are given what purport to be the formulas of Dr. Pierce's Golden Medical Discovery and "Favorite Prescription." Not one of the medicinal ingredients named in these formulas enters into the composition of Dr. Pierce's medicines. There is no excuse for such scandalous, and no explanation of it, except original sin. This man has a laboratory at his disposal; he could have had an analysis made had he wanted one. He probably did not want one. A lie was easier than the truth, and a great deal harder for his purpose.

It would be interesting to know how far the rest of his book may be relied upon. If the remainder of the information it supplies is as utterly unreliable as these formulas, it will be a case of the blind leading the blind to fall into the ditch. As it is, a casual glance at the book results in a famous remark, made concerning another of the brotherhood of "stuffed prophets": "The gentleman relies upon his imagination for his facts and upon his memory for his wit."

We are going after this kind of man, and are going to show up the unprincipled liar, who lend the name and influence of the honorable profession to give weight to the falsehoods they utter. In doing this we are performing a duty to the public, as well as to ourselves."

CATARRHAL DYSPEPSIA.

Thousands of Beautiful Women Destroyed by it.

Madame Catherine, who is with Olga Goldzier, the popular Chicago milliner, of 919-921 N. Clark street, Chicago, Ill., writes the following letter to Dr. Hartman in regard to Pe-ru-na:

Madame Catherine.

Dr. Hartman, Columbus, O.:

Dear Sir—I have suffered for years with chronic catarrh of the stomach. Nothing I could do seemed to agree with me, and I was in constant misery. Finally my physician advised me to try Pe-ru-na. I found it a great relief, and after a few weeks I was entirely cured. To say that I am thankful but feebly expresses how I feel towards Pe-ru-na.

and to you for placing it before a suffering public. Respectfully,

Madame Catherine. Mrs. Mary Allen, of Southall, Tenn., was cured of catarrh of the stomach. She says: "I am glad to be able to tell you that I am well of catarrh of the stomach, for which I am sincerely thankful to you for your advice. It had not been for Pe-ru-na I would never have been well. I had three physicians. One of them told my husband that he could not cure me. I had been sick about nine months when a friend advised me to try Pe-ru-na to gratify her; so I commenced taking it. I can eat and walk and work. My husband says I look as well as I ever did. Oh, you don't know how thankful I am to feel that I have got several other people to take Pe-ru-na. I praise it to everybody." The symptoms of catarrh of the stomach are: coated tongue, pain or heavy feeling in the stomach, belching of gas, dizzy head, sometimes headache, despondent feelings, loss of appetite, palpitation of the heart and irregularity of the bowels.

Pe-ru-na acts quickly and specifically on the diseased mucous membrane. It cures catarrh of the stomach permanently.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system while entering it through the mucous membrane, such articles should never be used except on prescription from reputable physicians, as the damage they will do is not confined to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney
