

PEACE TALK AT COLUMBUS

Gathering of Republicans a Veritable Love Feast.

ALL PLEAD FOR HARMONY

Chairman Hullings and Congressman Kerr Sound the Key Note of Good Will Which is Recognized in Turn by Representatives of All Factions—Senators Foraker and Hanna Agree That the Party is Greater Than the Man—President McKinley's Name Received with Enthusiastic Demonstrations of Approval.

Columbus, O., June 1.—The Republican state convention assembled shortly after 4 o'clock this afternoon and adjourned until 10 o'clock tomorrow morning to allow the committee to meet tonight. The auditorium in which the convention met has a seating capacity of 5,000 and standing room was in demand. With the elaborate decorations, the vast assemblage presented a magnificent spectacle. The factional fighting has attracted the largest attendance from the different counties that ever attended an Ohio convention. Hon. Cyrus Hullings, chairman of the state central committee, called the meeting to order. These were the first words of order in the convention, as Senators Foraker and Hanna entered the hall.

Every Evidence of Harmony. Governor Bushnell created quite an amusing stir in following Senator Hanna and Senator Foraker in their desire to have every evidence of harmony here. "That's what we need; that's what we all want," he continued on the keynote for peace and harmony, as did also ex-Governor Charles Foster, who followed him in a speech urging the factions to get together.

On being introduced, Congressman Kerr was heartily cheered. He spoke at considerable length and devoted nearly all his address to the national affairs. The McKinley administration, he said, had lifted the country to a condition of remarkable prosperity and finding the nation in a condition of distress and disaster at the end of four years of Democratic rule. The money standard of the nation had been threatened with overthrow and chaos reigned in the financial world.

Delegation on Speakership. Columbus, O., June 1.—The Republican members of congress from Ohio held conference tonight to consider the attitude of the Ohio delegation on the speakership. After a full discussion a formal ballot was taken and the vote stood 11 for Henderson, of Iowa, and one for Sherman, of New York.

Washington, June 1.—Replying to the inquiries of the secretary of war, General Otis telegraphs that "he is still of the opinion that 30,000 troops will be necessary for the effective control of the Philippines." Secretary Alger took General Otis' cable to the president and, after a conference with him, said that the text of the despatch would not be made public, as it contained other matters besides an answer to his inquiry of yesterday. "It reads," General Otis' estimate made some time ago," said the secretary, "that 30,000 men would be sufficient to cope with the situation. As I stated yesterday, the regulars now on the way to the Philippines will give General Otis 24,000 or 25,000 men after the withdrawal of the volunteers."

ATTEMPT AT MURDER

Frank Minnich, a Demented Man, Shoots at Two Persons. York, June 1.—Frank Minnich, a demented man, fired a shot from a revolver at Rev. Frank Kain, of St. Marys, Md., during the celebration of his mass in St. Patrick's Catholic church, this city, this morning. The shot was intended for Rev. J. C. Hoeman, of this city, whom Minnich mistook for his intended victim. When Mary Egan, the housekeeper of the parish house, opened the back door of the church to ascertain the cause of the shouting, the demented man fired a shot at her. Neither shot took effect. Minnich was being labored under hallucinations which caused the shooting. Minnich coolly walked down the street and told his acquaintances of his act. On instructions from the district attorney, information charging him with attempted murder was made and he was placed in jail to await a hearing. There were but two or three persons present when the shooting occurred, as the mass which the priest was celebrating is not usually attended by members of the congregation.

He Becomes Highly Indignant at Mazer Investigation—Frightful Depravity in the City. New York, June 1.—The sessions of the Mazer committee today were noticeable chiefly for two points, one the attack on Mr. Moss, and the other evidence of depravity existing in this city of the most frightful form of depravity. Neither incident took up much time, by far the greater part of the sessions being devoted to the examination of President Feitner and Commissioner Sheehy, both of the tax board. Their evidence merely went to show the long established inefficiency of the system of personal taxation, and revealed nothing sensational.

Hundreds of people were gathered before the Clark house, and the party with the baby had to struggle through the frantic crowd. There was continuous cheering from the people banked around the carriage as it drove up to the door and in spite of the efforts of the police to keep the sidewalks clear, the child was almost suffocated in the crush of the people pressing forward. The streets were blocked and the carriage containing the triumphant party was followed by a great mob for many blocks before it reached its destination. Other vehicles joined into a runaway procession. When the house was reached a great cheer went up as Mr. Clark emerged from the carriage, bearing the little bundle of humanity in his arms. BIMETALLISM AT LOUISVILLE

The Convention Expresses Faith in the Double Currency Standard and Confidence in W. J. Bryan. Louisville, June 1.—The bimetallic convention, after an enthusiastic meeting tonight, unanimously adopted the following resolutions: First—Our faith in bimetallic is vindicated by events. The necessity for the restoration of the double standard was acknowledged by the president of the congress in 1898 when a committee was sent to Europe to entreat other nations to aid in establishing bimetallic and the failure of the committee to secure European co-operation confirms the friends of free coinage in their belief that relief can only come by the independent action of the United States. The present rate of 16 to 1 is the only ratio at which bimetallic can be restored or opposition to it continued so long as those who oppose bimetallic at any rate and to those who misapprehend or ignore the reasons which led three national conventions to adopt it. That whatever paper money should be issued in this country to supplement a gold and silver currency should be issued by the government of the United States and the creation of any bank or corporation whatever.
