Accompanied by two detectives Sheriff Blauvelt drove to Nyack this afternoon to consult with Distriet Attorney Wyre and County Judge Wheeler, about giving the prisoners up to the New York authorities. winner, as he had been slated. In this case the anti-trust as well as the anti-slate element cut quite a figure Judge Hull had been a candidate for governor and when he withdrew after the first hallet it was generally known priong the delegates what his with drawal meant and especially when his support went to Nash on the second ballot. In addition to the attempt then of the field to combine against the "slate," there was opposition to the plan of any one being a candidate for two places on the ticket, and Judge Hull was again defeated after a hard fight, which occupied more time than any other business in the six hours that the convention was in session.

The Slate Broken.

The only other place in which the slate was broken was in the nomination for Supreme judge. The incumbent, Judge Bradbury, was a candidate for a third term and he was opposed it, he said, upon orders received from on that ground as well as on the cry of "slate," Judge Bradbury, State Treasurer Campbell and Attorney General Monnett were all candidates for the nomination for third terms and all confession. Davis was nominated for Supreme judge. Isaac R. Cameron, the successful contestant for treasurer of state. was generally credited with being on "the slate" and he secured the Hanna-Cox vote.

Outside of the unusually animated contests for the nominations, the feature of the convention was its uni versal endorsement of President Mc-Kinley. When the plank in the platform "commending the president for the judicious modifications of the chill service rules" recently promulgated was read, there was a very enthusiastle demonstration.

We earnestly endorse the great admin-Istration of William McKinley. It is dis-tinguished to a remarkable degree in the history of national administrations.
