NEWARK WAS DEFEATED.

Scranton's Opportune Hits and Sharp Fielding Won the Game. Berger Umpired a Much Better Game.

Scranton took her second game from Newark on Saturday by a score of \$ to 11. There were 800 spectators present. While the exhibition was rather jerky at times, still it presented some notable features worth mentioning.

Doherty's star catch in the sixth inning was the finest witnessed here this ason. Kloff started a hot liner over Doherty's head, who made a terrific jump and pulled it down. The applause was tremendous and Doherty had to take off his hat when he came in from

Dillon also made a stop on first which was very creditable. The outfielding of Newark was good, while the infield was slow at times. O'Connell was again in the game and did good work. Berger umpired and did well. Possibly the protest sent in by President Finn on Friday had a good effect.

Doherty started the afternoon's exhibition by flying out to Cogan. Knoll followed with a two-bagger over in left field, and scored on Dillon's single, Dillon going to second on a general mix-up of the Newark infield; they hesitated in throwing to second and they hesitated in throwing home, hence the

The fifth was Scranton's batting streak, and McPartlin was pounded hard; Scranton touching him up for four runs. In the last half of the fifth Herndon came in but was little better. Scranton made one run in the seventh which finished Scranton's runs for the day. In the eighth Scranton was disposed of in one, two, three.

of the lawyers' team, as regards the national game, served them well, and they demonstrated beyond a doubt that they can play base ball equally as well as they can argue points of law. Sanderson, and the catcher, Sullivan, was far superior to anything that has been seen in contests of this kind during the season.

The final score at the end of the fifth inning was 21 to 5 in favor of the lawyers, when the game was abandoned owing to the lateness of the hour.

THE MARKETS.

Wall Street Review.

By Associated Press.

New York, June 3.—Yesterday's sharp upturn in prices had the effect of encouraging the formation of a bull party in the stock market and they made it sufficiently obvious at the opening of the trading and even before that they had fixed upon the stocks of new steel combinations and a few other industrials and specialties as the most promising field for operations. Tips were disseminated through inspired sources and by publication of coming dividend declarations in several of these properties and their prices were bid up in an ostentatious way at the opening. There was not the expected enthusiasm, however, in supporting prices, either by the outside demand or by the professional traders. The higher level of prices invited profit taking by some of the buyers of yesterday and the advance came to a standstill. There was a hardening of prices on covering by shorts in expectation of a factoricle beauty statement. By Associated Press. Brooklyn3 2 2 1 0 0 4 1 *-13 13 2 Batteries-Hill and Zimmer; Kennedy and Farrell, Umpires-Lynch and Con-Batteries-Powell and O'Connor; Weyday and the advance came to a standstill. There was a hardening of prices on covering by shorts in expectation of a favorable bank statement. But the statement was on the contrary unfavorable and the gains which had been established by the buil clique were quickly marked out. There was very little liquidation induced by the decline and the closing was quiet and somewhat irregular in tone and showed net losses in the majority of cases. The holiday in London deprived the market of what has been a source of strength in the last few days. Western Union, Brooklyn Transit and Sugar showed evidences of rather acute weakness, and in the railroad list Northern Pacific and the Coalers were centers of depression. Fractional gains were shown in a few stocks, early advances, not being entirely wiped out in the iron and steel group. The bank statement was a surprise as it was expected that the liquidation in the stock market would have resulted in a contraction of loans and a decrease in deposit liabilities. Instead of this there was a small decrease in loans. The decrease in cash was expected and was due to the engagement of gold for export and to losses by the banks to the sub-treasury by reason of the small daily excess of revenue returns over government expenditures which is now the rule. There was very little business transacted in the bond market and price changes were small. Total sales of stock, 290,100 shares. Batteries-Philippi, Magee, Kittridge and Powers; Catrick and Grady. sales of stock, 200,100 shares, By Carrington & Cusack. New York, June 3.—The market opened very strong at fractional advance with quite heavy covering in Burlington and Quincy, Brooklyn Hapid Transit, Manhattan and the Steel Issues and during the first hour continued to show strength. At the high prices, however, the market met quite heavy selling orders, and declined sharply, following the publication of bank statement, which was construed as being rather unfavorable. Vester. New Haven, Conn., June 3.—Yale shut out the Tigers today with ease. Hille-brand was hit hard. The score: R.H.E.

clined sharply, following the publication of bank statement, which was construed as being rather unfavorable. Yesterday's market especially towards the close was so clearly the result of the covering of belated shorts that it was but natural it should have a setback today, and it is just possible that the rally has culminated for the time being. While there is a good deal of talk of new built combinations and public buying, yet the fact remains that the aggressive interests of the street are committed to the bear side for the long puil.

The conditions, with the exception of the boom in tron and steel trade are beginning to show a preponderance in their favor and we think ourselves that the great upward movement of the market has been reached and passed, and that the outcome will be in the end much lower prices, at the same time, there are two distinct sides to the matter and sharp ralles extending into quite free upward movements, are sure to be encountered during the summer months. The market is a purchase on all very weak spots and some of the better class of industrials are sure to reach much higher prices within the next sixty or inject.
