By Carrington & Cunnck. New York, June 5.-The opening was irregular, Steel and Wire being strong, Sugar opened down, subsequently rally-ing 1½ per cent. There was continued pressure on Western Union and after the first hour a sharp break in Sugar un-settled the whole market, prices drop-ping 5 per cent. In that stock and 4 per cent. in Metropolitan. The traders at-tacked the list generally, and hammered freely all around the room. At the de-cline there was notably strong buying in steel stocks, especially Tennessee Coal and Iron, Federal Steel and National Steel. The general duliness invites an attack by the traders, and the market, although it shows some resistance, seems to be vulnerable in spots so that there is a strong chance of it working both ways during the week. Sugar was dipped quite freely during early morn-ing, for lower prices and we are advised ourselves that it is a better gale than burchase at 140. We view the for the

Ing, for lower prices and we are advised ourselves that it is a better sale than purchase at 140. We give this for what it is worth, as it is entirely a matter of conjecture as to what the stock may do, and as to what dividends will be paid it is probable, however, the usual dividend will be declared on Wednesday, but at the same time, every one knows that the company is not earning it and the direc-tors may conclude this is the best time to pass or reduce it when the stock would have a very heavy decline or while the payment of the regular dividend would produce a temporary rally only. The market should be bought tempo-rarily on all weak spots as the sentiment

The market should be bought tempo-rarily on all weak spots as the sentiment is strongly bullish in some quarters and there certainly will be more opposition to the declines than there has been here-tofore. The action of the directors in Steel and Wire and Federal Steel in de-claring dividends on the common stock has had a good effect upon the industrial market and to a certain extent revived the bullish feeling throughout the coun-try whether it will has is a matter of conjecture, but at the moment there is enough strength in the market to war-rant purchases on sharp declines with sales on good bulges. Market closed dull and irregular but with a strong under-tone.

By Associated Press. New York, June 5-The professionals on the Stock exchange made industrious at-tempts all day to get into the current of speculation. But as a matter of fact there was almost no current to speak of the market drifting and foundering in stagmant waters. They changed sides several times in the dull market and the net changes of the day are conse-quently important outside of a few of the specialties though the general aver-age of prices is notably lower.
