DISTRICT CONVENTION.
Third Legislative District.
Notice is hereby given that a meeting of the Republican standing committee of the Third legislative district of Lackawanna county will be held at the arbitration room, court house, Scranton, on Saturday, the 17th day of June, 1899, at 2 o'clock p. m., for the purpose of fixing a time for the convention and transacting such other business as may properly be brought before it.

By order of
T. J. Matthews, Chairman.
Attest: J. E. Watkins,
Acting Secretary.
Scranton, Pa., June 5, 1899.

PERSONAL.
Judge P. P. Smith went to Philadelphia yesterday.
John Ridenbach, of Capouse avenue, is dangerously ill.
James A. Peoples left yesterday for Philadelphia to spend the summer.
Myer Davidow, the Lackawanna avenue shoe man, is in New York on business.
Mr. and Mrs. F. E. Nettleton are registered at the St. Denis hotel, New York city.
Mrs. D. W. Powell and son, William Powell, are guests of Mr. and Mrs. Richard D. Davis, of Clifford.
Colonel James Fairman, of New York, was in the city yesterday on business in connection with his Scranton real estate.
Miss Helen McCourt pleasantly entertained a number of friends with cards at her home on Monroe avenue Monday night.
Attorney John Stanley Smith will be united in marriage this morning to Miss J. Corr, of Philadelphia. Upon the return of Mr. and Mrs. Smith they will reside on Clay avenue, this city.
Rev. John Loughran, of the Cathedral, has been appointed special director of the John Boyle O'Reilly council, Young Men's Institute, in place of Rev. J. J. B. Feeley, who has removed from the city.
Rev. John Dunne has been assigned as curate to Rev. W. P. O'Donnell, of Holy Cross church, Bellevue. Father Dunne was assistant to Rev. Father Crane at Avoca during the illness of Rev. Thomas Carmody.
Miss Hortense Robison, who has been attending the Henry C. de Mills School for Girls "Families," Prompton, N. J., during the past year, is visiting her grandparents, Mr. and Mrs. J. P. Warner, of Green Ridge.
Ex-Senator M. E. McDonald left last night for Chicago to meet and confer with the manager of the New Mexico graphite mines, owned by Mr. McDonald and other Scrantonians, and complete arrangements for the shipment of the product.
By a re-arrangement of forces, The Tribune job department has passed under the immediate control of Mr. Albert de Follet, a job printer of practical and varied experience, whose record for producing good workmanship and fulfilling engagements promptly is of the best. Mr. de Follet at various times has had managerial charge of a number of the leading job printing establishments in the country and his equipment covers every branch of plain and artistic printing, color work, half tone work, etc. Suitable enlargements of type supply and other materials will be made to enable him to establish this plant in line with the foremost. Mr. W. W. Davis, formerly in charge, will remain, taking the position of outside agent.

Princeton University.
Examinations for admission to Princeton University will be held in the Connell building, Scranton, Pa., on June 13th and 14th, 1899. Examinations will commence at 9 o'clock a. m. on the 13th and will include the academic and scientific departments of the university.
For further information see John M. Harris, room 609 Connell building.
Smoke the Pocomo cigar, 5c.

A Card.
We, the undersigned, do hereby agree to refund the money on a 25-cent bottle of Greeneye Warranted Syrup if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded. J. O. Bonabue & Son, Dunmore, Pa.; John P. Donabue, Scranton, Pa.

SCHOOL EXCURSION.
General Meeting of the Committees Was Held Last Night.
There was a general meeting last night of the committees that have charge of the arrangements for the public school excursion to Harvey's lake, Saturday. The train will leave the Providence Delaware and Hudson station at 7:30 o'clock and the Lackawanna station at 8 o'clock.
A novel feature in this excursion is the fact that the janitors of the schools have taken charge of the refreshments. Ample provisions have been made by the efficient purchasing committee to feed two thousand persons.
The train will leave the lake early, so that the school children may reach home by 7:45 o'clock. The fare is fifty cents each for all pupils of the public or private schools and one dollar each for adults.
The contests are open to pupils of the public schools, and entries to the same should be made on or before Friday, June 9, notice of entries to be given to the chairman of each committee.
The prizes to be awarded to the winners of the contests are cheerfully donated by the merchants of the city. The cake-walk contest is limited to the teachers and their friends. Recitations should not exceed four minutes in length.

EXERCISES AT HARFORD
Annual Commencement at the Soldiers' Orphan School Witnessed by a Number of Persons from This City.

On Monday the commencement exercises of the Soldiers' Orphan school took place at Harford, Susquehanna county. In a way these exercises are unique as there are no graduates. The Harford students, whether an "honorary" boy or girl or whether at the foot of the class is graduated at the age of sixteen, but the departure of those who have reached the age limit, plays no part in the commencement, as that great annual event is distinctly an occasion in which the all-pervading diploma does not appear.
The exercises Monday were marked by the presence of many distinguished guests, the members of the state commission being in attendance.
A special car went up from this city to Kingsley, leaving the Delaware, Lackawanna and Western station at 9 o'clock. Among the occupants were: James Morrison and wife, William F. Stewart and daughter, of Philadelphia; Judge Darte, of Wilkes-Barre; Senator Steinway, of Cambria county; Mr. Adams, of Susquehanna; Captain Skinner, of Fulton; Major Willauer, of West Chester; Colonel E. H. Ripple, of Scranton, and Mrs. Swenitzer, the newly appointed superintendent, and a recently married man at the Scotland school.
Others were: William Emelio, post department commander, Grand Army of the Republic; Harry Yohn, Harry Miller, and Mr. Fleming, of Philadelphia; S. H. Stevens, Miss Stevens, Miss Todd, Mrs. Mary M. Doster, Mrs. M. W. Davenport, George Geary and daughter, Halsey Lathrop, Anthony Long, Captain Horn, Smith B. Mott, post commander of Griffin post, and daughter; Mrs. Frank Reese and son, Charles Schinger, Mrs. Samuel Bryant, all of Scranton.
The party was met at the station by Superintendent Matthews with vehicles sufficient to convey the entire number over the beautiful hills to the school, about two hundred yards from which the band met the visitors and escorted them to the spot where "Uncle" John Ansemann's artillery gave a grand salute. The students were drawn up in military lines on the campus, the boys on the one side of the street, the girls on the other, and they made a fine appearance indeed.
After a general inspection by the committee, a bountiful dinner was enjoyed and the visitors were entertained by an excellent battalion drill, the girls giving a dumb bell and wand drill, under direction of Miss DeSroth. A band concert followed and this was truly a remarkable organization as it is composed of students, some of whom are scarcely three feet high. They all played with most commendable effect.
As the drills were progressing, suddenly flames were discovered bursting from the boys' dormitory. It was a very hot day for a fire and the boys were arrayed in their new uniforms, but they hastily scamped in various directions and in what seemed a miraculously short space of time ladders were placed, and a bucket brigade working with military precision soon put out the fire. It was a very exciting scene for the spectators, and not until the ordinary routine of the school was resumed did they learn that it was all a "show fire," which had been kindled with the express purpose of having it quenched with theatrical effect by the boys.
Exercises in the chapel were then held in which the programme was interspersed with speeches by the visitors who were delighted with the high order of talent evinced by the pupils. Supper was served and in the evening the school and the guests assembled in the hall for a patriotic concert, which was charmingly rendered by the children. Some members of the visiting party returned at 8 p. m., others remaining until the midnight train came, which was stopped at Kingsley by the courtesy of Mr. Bogart.

CORBETT FAVORS JEFFRIES.
He Has Backed Him for Twenty Thousand Dollars.
"Gentleman Jim" Corbett has backed Jim Jeffries for his big fight with Fitzsimmons on Friday night for \$20,000, so says report.
Corbett thinks Jeffries will win, although he will have no cinch. Honest John Kelly thinks Jeffries is a sure winner, too, and has money to bet on his statement. "Kid" McCoy left Denver Monday evening to be at the ring-side, and to challenge the winner.

Sorrow That May Be Quickly Soothed.
Sorrow fills the home of one afflicted with the liquor disease. That sorrow may be replaced by great joy. A positive cure with lasting results. Call or write.
The Scranton Private Sanitarium, No. 315 Mulberry street.

The Grand Trunk Railway system will exhibit in the building formerly occupied by Powell Piano Co., on Wyoming avenue. This is the famous exhibit that has attracted 240,000 people in New York and the large cities during the past ten weeks. The exhibit is free, opening this morning and remaining until Monday, 12th inst, 8 p. m.

BRICKLAYERS WILL NOT WORK TODAY

SOME OF THEM TOOK UP THEIR TROWELS YESTERDAY.
Building Trades' Council at Its Meeting Last Night Did Not Approve of the Action of the Men Who Went Back to Work, and They Will Not Repeat the Offense. Condition of Affairs Is Unchanged So Far as the Builders' Exchange Is Concerned.

The only important change in the strike situation yesterday was the return to work on two jobs of the bricklayers of Union No. 18. This action was not approved, however, by the delegates from that body at the Building Trades' council meeting last night, and it is understood that there will be no bricklayers at work today on any job where the contractors refuse to grant the demands of the strikers. All the other men called out by the Building Trades' council are still out. At the carpenters' timesheet the plasterers' headquarters, at No. 400 Lackawanna avenue, the usual roll call was held in the morning. The orderly conduct and bearing of the men is one of the most noticeable features of these gatherings.

NO GREAT EFFORT MADE.
While the carpenters are taking contracts themselves on a few small jobs they are not making any great efforts in that direction as yet. If necessity should demand, but they do it, they say that they have men of ability and energy possessed of sufficient capital to push the matter to a successful finish. Several of the union carpenters who did not go out on strike June 1 joined the ranks of the strikers yesterday.

MEETING OF W. C. T. U.
Equal Suffrage Will Be Discussed at Next Meeting.
The first of a series of monthly meetings to be held during the hot months by the Women's Christian Temperance union was held yesterday afternoon in the parlors of the city hall. The president, Mrs. Downing, Mrs. Field acted in that capacity. She reported a small balance in the treasury.
The ladies were to have discussed equal suffrage, but it was decided to defer a general discussion until the next meeting. At the meeting the members of the Equal Suffrage association were invited to be present at the next meeting.
Miss Fannie Raub, local superintendent of the Flower mission, read an interesting paper on the work of that branch. It is a department of the National Women's Christian Temperance union, and is one of the most popular branches of Women's Christian Temperance union work.
Mrs. Field reported giving away seventy-eight bouquets to railroad men on Decoration day, all of which were thankfully received. She stated that flowers had a mission both physical and mental, and that their perfume is healing to the soul as well as to the body.
The next meeting will be held on the second Tuesday of July.

DESTROYING THE TREES.
Electric Wires Doing Much Damage to City Hall Elms.
The top half of one of the large trees in front of city hall was cut yesterday at the point where the Scranton Railway company's "feed" wires rested against the trunk. Although heavily insulated and protected with extra windings of tape, the wire ate its way half through the trunk. A large branch of another tree nearby is about ready to drop from the same cause.
Some years ago a proposition was made to remove these trees from in front of the city hall, that the people might see what they paid \$175,000 for. The proposition was defeated at that time, but has several times been on the point of coming up again. There will be no need of further discussion of the advisability of removing the trees if the wires are not molested for a year or so.

Council at Pottsville.
Schuykill council, Knights of Columbus, was organized at Pottsville Sunday with forty charter members.
Smoke The Pocomo Cigar, 5c.

DEATH CLAIMED HIM.
John Malloy, of Fellows Street, Will Not Be Married This Evening.
John Malloy, of 609 Fellows street, and Miss Kittie Burke, of Eynon street, were to have been married this evening, but the ceremony will not take place. The groom-to-be died yesterday morning at 9 o'clock, after a short illness.
Deceased was the son of Mr. and Mrs. Patrick Malloy, and was employed as a brakeman on the Delaware, Lackawanna and Western railroad. He was 23 years of age, and was taken sick last Saturday. The funeral will occur tomorrow morning at 9 o'clock. Mass will be sung at the Church of the Holy Cross, and interment will be made in Cathedral cemetery.
Beecham's Pills—no equal for constipation.
Smoke The Pocomo 5c. Cigar.

NAUSEOUS OR PLEASANT. WAY IT IS VIEWED IN PHILADELPHIA

WILLIAM KELLY'S PURCHASE EXCITING ATTENTION.
Philadelphia Inquirer of Yesterday Contained an Article Which Stated That the New Owner Will Not Be Able to Obtain a Fancy Price for It, as Philadelphia Can Have the Land Condemned and Then Allow the Price to Be Fixed by a Jury Appointed for That Purpose.

The Philadelphia Inquirer of yesterday contained the following with reference to the recent purchase of land in Pike county by William Kelly, of this city:
"Twelve thousand acres of land in Pike county, between the villages of Hawley and Cresco, a part of that territory now under inspection by the water experts, pending their decision as to its availability as a water supply for this city, have been sold by the shakers to William Kelly, of Scranton. Of the 12,000 acres, 2,500 are covered with water. The land has been purchased in the expectation that Philadelphia will want it shortly as a source of water supply.
"For some time the experts and councilmen have had before them the question of the feasibility of securing Philadelphia's water supply from unpolluted sources. A territory of about 100 square miles in the northwestern part of Pike county was finally selected, and a great number of lakes, among them the famous White Deer and Beaver lakes, as well as the townships of Blooming Grove and Palmyra. It begins at a point north of the Lackawanna and ends at a point south of the Shohola. All the water is pure.
CAN BE CONDEMNED.
"Select Councilman William G. Huey, of the Fifteenth ward, when seen yesterday regarding Kelly's purchase and its effect upon the city's plans, said: 'It can have no effect upon our plans if the city decides to take the territory in question for its water supply. Under act of legislature, cities, townships and boroughs can enter in and take possession for water uses of land in any section of the state, under the right of eminent domain, and if the owners and city cannot agree upon the price, a jury shall be appointed to fix the price. So you see, we have nothing whatever to fear from Mr. Kelly.
"The tract of land under a lease comprises 64,000 acres. There are 43,500 feet in an acre. This would give us 2,700,000,000 of cubic feet in the tract. There is a rainfall of three feet six inches per annum. This would be 10,000,000,000 cubic feet of rainfall in one year on the 100 square miles. This would give us 74,000,000,000 gallons in the 100 square miles. Allow 50 per cent. for evaporation and waste, and there remain 37,000,000,000 gallons for use per year in these 100 miles. Philadelphia consumes daily 240,000,000 gallons. These 37,000,000,000 gallons would give us, then, alone, 140 days' supply on 100 miles of rain-shed; the 250 miles rain-shed adjacent will give us one year's supply, and the numerous lakes in the region will do the same.
SUPPLIED BY GRAVITY.
"The cost of a steel conduit eleven feet in diameter, put in complete, will be \$20,000,000. This will carry enough water to supply the city from this elevation by gravity alone. And it will be the best and purest of water."
"From those interested in the project it was learned that the experts are favorably impressed with the territory under advisement, and several councilmen say that the feeling among their constituents is strongly in favor of such a source for their water supply. Mr. Huey is in favor of securing the foregoing described tract of land for the purpose of utilizing it as a source of Philadelphia's water supply."

WOMAN BURGLAR AGAIN.

Large Quantity of Linen Stolen from the Residence of J. E. Parrish. Entrance Effected Through a Basement Window.
J. E. Parrish, superintendent of the Suburban Electric Light company, is the latest to report a visit from the burglars for a couple of months past have been entering houses on the "M" and carrying away everything in the shape of fine linen that could be laid hold of.
His home at 839 Clay avenue was visited some time during Monday night or yesterday morning. Entrance was effected through a basement window. The laundry was the only apartment ransacked. As in the previous cases the fine goods were selected and carried away and the cheap articles left behind. Burnt matches on the basement stairway indicated an attempt to get into the upstairs apartments. A securely barred door, however, prevented this.
This is the second time this house has been entered within a few months. The residence of Albert S. Baker in the same block has also been entered twice, while Mrs. Price's home nearby was also recently visited. Twice within the past three months the residence of John Hintermister, of 905 Quincey avenue, has been entered. Scarcely a week passes but what a new burglary is reported from that neighborhood, and in every case the circumstances lead to the conclusion that the work is done by a woman or at least that a woman has a hand in the operations.

MEETING OF W. C. T. U.
Equal Suffrage Will Be Discussed at Next Meeting.
The first of a series of monthly meetings to be held during the hot months by the Women's Christian Temperance union was held yesterday afternoon in the parlors of the city hall. The president, Mrs. Downing, Mrs. Field acted in that capacity. She reported a small balance in the treasury.

The next meeting will be held on the second Tuesday of July.

WALKER TO ASSUME CHARGE.
Change in the Fire Department Will Occur Today.
This morning, the new head of the fire department, John Walker, will assume charge, relieving George R. Suddam, the acting chief.
Building Inspector T. B. Jackson had been ready for presentation at Monday night's meeting of common council, but a sudden adjournment prevented its consideration. He will present it at tomorrow night's session of select council and on the succeeding Thursday night it will go to common council. Immediately upon its approval, Mr. Jackson will relieve Mr. Nelson.
Mr. Nelson has secured a position as adjuster for a large insurance company. He said yesterday to a Tribune reporter that he was not a candidate for appointment to the office of building inspector.

SOLE COMFORTERS
Choice Line Plain and Fancy Hose at 25c and 50c the pair.

Under act of legislature, cities, townships and boroughs can enter in and take possession for water uses of land in any section of the state, under the right of eminent domain, and if the owners and city cannot agree upon the price, a jury shall be appointed to fix the price. So you see, we have nothing whatever to fear from Mr. Kelly.
"The tract of land under a lease comprises 64,000 acres. There are 43,500 feet in an acre. This would give us 2,700,000,000 of cubic feet in the tract. There is a rainfall of three feet six inches per annum. This would be 10,000,000,000 cubic feet of rainfall in one year on the 100 square miles. This would give us 74,000,000,000 gallons in the 100 square miles. Allow 50 per cent. for evaporation and waste, and there remain 37,000,000,000 gallons for use per year in these 100 miles. Philadelphia consumes daily 240,000,000 gallons. These 37,000,000,000 gallons would give us, then, alone, 140 days' supply on 100 miles of rain-shed; the 250 miles rain-shed adjacent will give us one year's supply, and the numerous lakes in the region will do the same.
SUPPLIED BY GRAVITY.
"The cost of a steel conduit eleven feet in diameter, put in complete, will be \$20,000,000. This will carry enough water to supply the city from this elevation by gravity alone. And it will be the best and purest of water."
"From those interested in the project it was learned that the experts are favorably impressed with the territory under advisement, and several councilmen say that the feeling among their constituents is strongly in favor of such a source for their water supply. Mr. Huey is in favor of securing the foregoing described tract of land for the purpose of utilizing it as a source of Philadelphia's water supply."

WOMAN BURGLAR AGAIN.
Large Quantity of Linen Stolen from the Residence of J. E. Parrish. Entrance Effected Through a Basement Window.
J. E. Parrish, superintendent of the Suburban Electric Light company, is the latest to report a visit from the burglars for a couple of months past have been entering houses on the "M" and carrying away everything in the shape of fine linen that could be laid hold of.
His home at 839 Clay avenue was visited some time during Monday night or yesterday morning. Entrance was effected through a basement window. The laundry was the only apartment ransacked. As in the previous cases the fine goods were selected and carried away and the cheap articles left behind. Burnt matches on the basement stairway indicated an attempt to get into the upstairs apartments. A securely barred door, however, prevented this.
This is the second time this house has been entered within a few months. The residence of Albert S. Baker in the same block has also been entered twice, while Mrs. Price's home nearby was also recently visited. Twice within the past three months the residence of John Hintermister, of 905 Quincey avenue, has been entered. Scarcely a week passes but what a new burglary is reported from that neighborhood, and in every case the circumstances lead to the conclusion that the work is done by a woman or at least that a woman has a hand in the operations.

MEETING OF W. C. T. U.
Equal Suffrage Will Be Discussed at Next Meeting.
The first of a series of monthly meetings to be held during the hot months by the Women's Christian Temperance union was held yesterday afternoon in the parlors of the city hall. The president, Mrs. Downing, Mrs. Field acted in that capacity. She reported a small balance in the treasury.
The ladies were to have discussed equal suffrage, but it was decided to defer a general discussion until the next meeting. At the meeting the members of the Equal Suffrage association were invited to be present at the next meeting.
Miss Fannie Raub, local superintendent of the Flower mission, read an interesting paper on the work of that branch. It is a department of the National Women's Christian Temperance union, and is one of the most popular branches of Women's Christian Temperance union work.
Mrs. Field reported giving away seventy-eight bouquets to railroad men on Decoration day, all of which were thankfully received. She stated that flowers had a mission both physical and mental, and that their perfume is healing to the soul as well as to the body.
The next meeting will be held on the second Tuesday of July.

WALKER TO ASSUME CHARGE.
Change in the Fire Department Will Occur Today.
This morning, the new head of the fire department, John Walker, will assume charge, relieving George R. Suddam, the acting chief.
Building Inspector T. B. Jackson had been ready for presentation at Monday night's meeting of common council, but a sudden adjournment prevented its consideration. He will present it at tomorrow night's session of select council and on the succeeding Thursday night it will go to common council. Immediately upon its approval, Mr. Jackson will relieve Mr. Nelson.
Mr. Nelson has secured a position as adjuster for a large insurance company. He said yesterday to a Tribune reporter that he was not a candidate for appointment to the office of building inspector.

SOLE COMFORTERS
Choice Line Plain and Fancy Hose at 25c and 50c the pair.
BELL & SKINNER, Hotel Jersey Building.
