RESCUE MISSION WORK.

Some of Its Results Are Outlined at a Meeting in the First Presbyterian Church—An Appeal

There was a small attendance at the Rescue mission meeting at the First Presbyterian church last night. Mr. Plumley presided. Mr. Berry, assistant secretary of the Railroad Young Men's Christian association, occupied a place on the platform number of men whose lives had been changed by means of the mission spoke in a most interesting way. Among the testimonies were such rich sentiments

as the following: "I don't expect to do any great thing: little thing is all I can hope to do,

but I want to help those who seem unable to help themselves." "I praise God ever since I saw the inside of that mission. I can now pass a saloon without the faintest desire

to enter." remember when I couldn't to save me stay sober a month, but there came a time when my family knew I'd come home all right; for all things had became new."

Mr. Stelle made an address in which he spoke with regret of the absence of Mr. Sanborn's report and made an appeal for the work. Seven conversion are reported for the month of May. Mr. Plumley read a letter from the wife of a man saved in this mission. Mrs. Sanborn told of a family all the members of which were saved

through the mission. Mr. C. W. Matthews spoke of the practical side of the work and of the fact that men are sheltered there every night and are often fed in the morning. He also presented the needs of the mission.

On Sunday morning the congregation of the First church will be asked to give a contribution for this cause. The sum of \$300 a month is needed for running expenses, all of which is secured through voluntary subscriptions. The meeting was dismissed with the benediction by Rev. Dr. Logan.

GENERAL TIE-UP HAS BEEN ORDERED

ALL BUILDING TRADES WILL BE AFFECTED.

Unless the Master Builders Concede the Carpenters' Demands Before Monday Morning Every Union Workman in the City Employed at a Building Trade Will Be Ordered Out-About 2,500 Men Will Be Thrown Idle if the Tie-Up Occurs. Reports from Both Sides,

As predicted in yesterday morning's Triune, the Building Trades' Council at a meeting held last evening in Carpen ters' hall, decided upon a general tieup, to take effect on Monday morning

This decision affects every trades union affiliated with the council, and will throw idle about 2,500 men.

The council has given the members of the Builders' Exchange until Monday next to consider the matter carefully and if no advances are made by that time the tie-up will be on. The council appointed a committee at

the meeting to be in readiness to receive any committee which the Exchange might appoint to treat with the strikers before Monday next. The usual cheerful aspect was pre-

hopeful of success as they were upon the very first day. It was stated yesterday that several more contractors had acceded to the strikers' demands. It was given out that Contractor C. T. Boland is employing union carpenters, union lathers and union plasterers at the new wage scale, and says they are all doing satis-

yesterday, and the men are just as

factory work. Several plumbers were called off a job being done by John Williams in Hyde Park on account of non-union carpenters being employed. Mr. Williams signed the strikers' agreement later in the day, it was said.

Work on the Foundling Home is at a standstill, as it is necessary to do carpenter work before any more bricklaying is done. The bricklayers say they will not work with non-union carpenters.

The Builders' Exchange is still holding firm. Their course in regard to the interest

Miners' Strike Imminent. The miners employed at the Johnson colliery, North Washington avenue, in-

tend to go out on strike Friday evening, as previously noted, if the management does not agree to their terms before that time. The management has made positive statements to the men on two occa-

sions already that they will not grant demands, so that a strike is practically an assured fact. The miners claim that they do not receive the same wages that are paid to the men who are employed at the other mines in the vicinity which are working the same vein of coal. This they hold, is not fair and they demand

the same scale of compensation. At present they are getting, they say, 951/2 cents a car, where the men in the other mines mentioned are receiving

According to their story, they are also getting from \$1 to \$1.50 a yard for rock, where the other mines pay \$2.27 a yard. Finally, they claim that they are only paid 50 cents a yard for crosscuts instead of \$1.41, which is, they state, paid to the other miners.

These statements form the basis of the men's position, and they will not work after Friday night if they are not complied with. There are about 200 men who would be affected and they appear to be united as one man. The breaker boys who were out on strike Tuesday returned to work yesterday. Parental influence was brought to bear to get them back to work.

Sinkers Still Out.

The sinkers who were employed at the West Ridge colliery, and who struck on Tuesday last for higher wages, are still out and Contractor Watson, who had charge of the work, refuses to grant the demands, and says he will put other men to work if the sinkers do not come back.

He states that the men are receiving better wages than the men doing the same class of work in other mines. The claim that other workers were getting \$2.25, he says, is not true, and he further states that that was the wages formerly paid by the company for ten hours work.

Greenwood Strike.

About 200 slatepickers and drivers employed at the Corey mines, operated by the Greenwood Coal company, went out on strike yesterday morning. They demanded an increase in wages which the company refused to grant. At present it is hard to foretell when the trouble will be settled.
