IRON IS SCARCE.

Co.'s Weekly Review of Trade will say tomorrow: It is one of the frequent paradoxes

of business that the one thing which now makes prices rise is the only thing that clouds the future. They rise in iron and wheat because scarcity is feared but the scarcity if prolonged and real, would much impair prosperity. In wheat it does not seem to be real nor in iron lasting, and meanwhile other elements of prosperity continue potent.

A Spanish officer, who has been a prisoner in the hands of the rebels and who was released by Aguinaldo, ful. has come through our lines to Manila He claims to have been a witness of the assassination of General Luna. According to his story the relations stween the two Filipino leaders had been strained to the breaking point because of Luna's attempt to assume command of affairs and the final rupture was forced by Aguinaldo issuin secret orders to the provincial governments. Luna thereupon notified Aguinaldo, demanding copies of the documents and Aguinaldo replied curriy that Luna was a general of the army and that the civil government did not concern him. Luna, on opening the reply at his headquarters in the preof his officers, exclaimed hotly: "He will be dead tomorrow."

#### Aguinaldo Warned.

One officer, who was friendly to Aguinaldo, hastened to warn him, and Aguinaldo called together twenty trusted soldiers, fellow-townsmen of his, and stationed them around his nouse with instructions to kill any one attempting to enter, regardless of rank.

Luna appeared the next day and saw Aguinaldo at the winodw. A member of the guard said: "Aguinaldo has gone to inspect the troops."

Luna then exclaimed: "You're a Har," drew his revolver, struck the liar," drew his revolver, struck the guard and tried to force an entrance into the house. Before he could use his revolver one of the guards bayon-etted him, another shot him in the back and other stabled him. In all he had Great Britain. twenty wounds. Luna's aide de camp was killed in the same way.

The Spaniards' story has not entirely dispelled the doubts of Luna's death and bets that he is alive are freely tions expressing gratification at the honmade at the clubs.

Some people think Aguinaldo has taken pains to send the Spaniard here with his story for the furtherance of 4 some diplomatic scheme, while others suspect Agninaldo has been assussinated by Luna's men.
