M'KINLEYS AT HOLYOKE

People of Massachusetts Give the President a Warm Reception.

EXERCISES AT COLLEGE

The Presidential Party Receive a Hearty Welcome at South Hadley. The Programme for Today Will Embrace a Journey to Northampton and Trip to the Top of Mt. Tom-A Performance of "Midsummer Night's Dream."

Holyoke, Mass., June 18.-Sunday for the president was anything but the day of rest that was hoped for. The continual crowding of the curious citizens, the immense jam at the church this morning and later in day an unexpected and totally unprepared for reception in connection with the baccalaueate exercises at Mt. Holyoke college made the day long and tiresome for all. The president was not content with going once to church, but went twice, leaving Mrs. McKinley in the hands of her lady friends on each occasion.

The president and his entire party were up bright and early. A large crowd congregated about the residence of William Whiting, where the distinguished guests are being entertained, and hardly a word was spoken by them | grace to the city." during the entire journey. At the Secend Congregational church, which the Whitings attend, a much larger crowd the course of his remarks, Dr. Brough-had assembled and it was only by deviating and entering a side door that ad- peached at once. After the return to the Whiting residence, lunch was served, and at 3 o'clock the pulace electric car "Rockrimmon" was taken and the party, including all the ladies, were taken over the trolley line to South Hadley to attend the baccalaureate exercises at the chapel of Mt. Holyoke college at 4 o'clock. This was the first time Pres!dent McKinley had been to South Hadley, which is the real destination of the trip, and so today he made his first bow to the little college fraternity, where on Tuesday he is to share honors with Governor Roger Walcott and deliver the degrees to the graduating class of which his niece, Miss Grace | Has Offered \$20,000 for a Battle Be-McKinley, is a member.

As the seniors marched into the pretty little chapel this afternoon just C. Floto, of the Colorado Athletic of his party occupied seats on the side.

After the president had been intro- graphed his acceptance of the offer. After an organ prelude, the college choir sang an anthem, and Rev. Dr. Jacobus, of the Hartford Theological seminary, read from the Scriptures the tenth chapter of St. Luke's gospel.

The musical part of the programme was followed by prayer. Hev. Dr. Jacobus then delivered his baccalaurente sermon. At the close of the exercises, the president and Mr. Whiting walked to the residence of Mr. Smith, and, together with the ladies, were driven back to the special car, which stood in front of the chapel, surrounded by a large number of the college girls and a multitude of the townspeople, Miss Grace McKinley was among them, and later introduced some of her school mates. She was dressed in the regulation cap and

gown. Spontaneous Reception.

The reception which awaited the viscar was so spontaneous and of such a friendly and cordial nature that, at Mrs. McKinley's request, they ordered the departure of the car delayed for a few moments while the president shook the hands of the people who clustered about the window where the couple were seated. Mr. McKinley leaned from the car window and shook hands with the people and spoke a few words of greeting to each. Over four hundred people crowded around and greeted him. Mrs. McKinley all the while smiled and kissed her hand and waved

her handkerchief to the crowd. The journey from South Hadley to Holyoke was quickly made, and after the car reached the Whiting residence and dinner served, the tired company gave over the evening to complete rest.

the programme for tomorrow comprises the journey to Northampton at o'clock, where the president will participate in a parade and ivy exercises at Smith college, and later drive the city sight-seeing. At noon Betheseda Circle, Order of the Eastern Star, of which organization Mrs. McKinley is a member, will present her a handsome loving cup at the residence of Captain Williams. At 2 o'clock a trip the top of an. Tom will be made. where luncheon will be served, and at | business here in 1852.

5 o'clock the party are due to arrive at South Hadley to attend a performance of "A Midsummer Night's Dream," by the seniors of Mt. Holyoke college. This is to be given at Pros pect park, in the center of the grove, an ideal spot for an out-of-door performance. At 8 o'clock the president will attend the Glee club concert in College hall. The decorations along College street at South Hadley are al arranged and the picture is a pretty one. There are very few decorations at the college buildings.

DISTRIBUTION DIFFICULTIES

PAYMENT OF THE CUBAN SOL-DIERS NO EASY MATTER,

Generals Brooke and Gomez Are Trying to Sift Out Fraudulent Claimants-A Peaceful Precaution-Five Thousand Cuban Soldiers Awaited the Paymaster at Remedios—Seven Guards Are Killed by Bandits Near

Brooke in an official letter to General Maximo Gomez says, in relation to the payment of the American gratuity: In the distribution of the money have noticed that many men whose names are not on the rolls claim to belong to the Cuban army. As gov ernor general I recommend you to take the necessary steps to ascertain if they have a right to a portion of the \$3,000. 000, and hereby authorize you to make what arrangements you think proper

proper conditions to be deprived of his just dues." General Gomez subsequently published a short proclamation, in which

to carry out the plan of distribution,

he says: "In spite of my proposition to sepa rate myself completely from political affairs. I feel it a moral duty to occupy myself with all that pertains to our heroic soldiers. In conference with Governor General Brooke yesterday, he informed me that under present conditions some Cuban soldiers who wish to collect their share of the money alloted by the United States government for the payment of the troops are unable to do so, because their names do not appear on the lists. This should be changed so as to enable these men to receive their quota, which they need and deserve.

"For this I am authorized to take the measures needed; and, in consequence, I have advised all the chiefs to send more information, including every detail obtainable, if they think as I do. The soldiers need our decided protection.

A Peaceful Precaution.

Judges of the situation consider that after the payment of the Cubans has been concluded throughout the island a measure prohibiting the carrying of firearms without a license explicitly stating the nature of the arms and the reason why the license is issued will be adopted. The secretary of justice is making inquiries in the different provinces, and within the next few weeks will submit a proposal for such a measure to General Brooke, and there is no doubt that he will favor it and that the order will be favored by all the law-abiding people of the island. Provision will be made for the use of arms for hunting, the protection of Paris. Thousands of former soldiers flock to the different places of payment, and the only difficulty experienced in the distribution is as to the number of men who are entitled to share in the \$3,000,000, but whose names do not appear on the rolls, while there are on the lists an immense number of names of men who are not alive or who are unknown, evidently placed there with fraudulent

Rush for Pay at Remedios.

At Remedios today over five thousand Cuban soldiers were awaiting pay ment. Lieutenant Colonel Rafferty, so far, has paid out \$28,275. The mayor of Remedios has received 323 rifles. The men awaiting payment fill the hotels and houses and many of them sleep in the parks. A number of the mer expecting payment have incurred debts for food, and several of the names do not show on the lists. Benito Hernandez, who served during the Ten Years' war and who has been in the field since 1895, has not been placed on the list. This is an example of the way in which the lists are drawn up.

The payment of the Cubans at Cardenas began this morning. After an argument between the mayor and the Cuban Colonel Mayato, the Americans agreed to pay all men who were identified, even if they did not have any arms in their possession.

Itumors are current that Monsignor Santander y Frutes, bishop of Havana is thinking of selling the Paula hospital, which is church property, and is rented by the Spanish government for the detention of sick female prisoners. The stories circulated have it that an American syndicate has offered to buy the property, and that the bishop will probably agree to their terms. Monsignor y Frutos will neither deny nor confirm the reports.

May Take a Hand in the Effort to Destroy the Germs of Irritation-A Socialist May Be Included in the Cabinet-M. Poincare Still Remains

Paris, June 18 .- President Loubet recived in audience early this morning. M, Casimer Perier, former president of France and consulted with him regarding the ministerial crisis. The interview terminated about 11 o'clock, after which M. Loubst received Senator Pierre Walderk Rousseau. The latter, it is understood, has made his acceptance of the task of forming

a cabinet conditional upon the co-operation of M. Casimir Perier and certain sections of the chamber of deputies which he hopes to secure. He has consulted with several statesmen and has had a very long conference with M. Lepine, former prefect of police of M. Waldeck Roussean is meeting with onsiderable difficulty but he appears

Loubet again, probably tomorrow morning before submitting a draft list of colleagues. Of the three farmer premiers whom he has consulted Maurice Rouvier who was president of the council of ministers and minister of finance in 1887, alone consented to take a portfolio, Felly Meline informed bim that he failed to see how his appointment as premier would bring about a solution of the crisis. Henri Erisson contented himself with promising support and

expressing good wishes.

Perier Invited. M. Waldeck Rousseau waited upon M. Casimir Perier and earnestly endeavored to induce him to accept the portfolio of war, on the ground that his presence at the ministry of war would simplify the difficulties of the situation. Thereupon M. Casimir Perer consulted with the president who pointed out to him that he would be able to exercise more authority than any one else over the generals in destroying the germs of irritation. Casimir Perier replied that he had definitely withdrawn from politics but never-

theless would undertake to consider the matter M. Waldeck Rousseau was notified of this reply which gives him full liberty to constitute a cabinet of republican union.
